**Note 1. Description of Business and Basis of Presentation**

**Description of Business**

AMC Networks Inc. (“AMC Networks”) and its subsidiaries (collectively referred to as the “Company”) own and operate entertainment businesses and assets. The Company is comprised of two operating segments:

- *National Networks:* Principally includes activities of our programming businesses which include our five programming networks distributed in the U.S. and Canada. These programming networks include AMC, WE tv, BBC AMERICA, IFC and SundanceTV in the U.S.; and AMC, IFC, and Sundance Channel in Canada. Our programming businesses within the National Networks segment may also sell rights worldwide to their owned original programming. The National Networks operating segment also includes AMC Networks Broadcasting & Technology, the technical services business, which primarily services most of the programming networks included in the National Networks segment.
- *International and Other:* Principally includes AMC Networks International (“AMCNI”), the Company’s international programming businesses consisting of a portfolio of channels in Europe, Latin America, the Middle East and parts of Asia and Africa; IFC Films, the Company’s independent film distribution business; AMCNI- DMC, the broadcast solutions unit of certain networks of AMCNI and third-party networks, and various developing on-line content distribution initiatives.

**Basis of Presentation**

*Principles of Consolidation*

These unaudited condensed consolidated financial statements include the accounts of AMC Networks and its majority owned or controlled subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

Investments in business entities in which the Company lacks control but does have the ability to exercise significant influence over operating and financial policies are accounted for using the equity method of accounting.

*Unaudited Interim Financial Statements*

These condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and Article 10 of Regulation S-X of the Securities and Exchange Commission (“SEC”), and should be read in conjunction with the Company’s consolidated financial statements and notes thereto for the year ended December 31, 2015 contained in the Company’s Annual Report on Form 10-K (“2015 Form 10-K”) filed with the SEC. The condensed consolidated financial statements presented in this Quarterly Report on Form 10-Q are unaudited; however, in the opinion of management, such financial statements reflect all adjustments, consisting solely of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods presented.

The results of operations for interim periods are not necessarily indicative of the results that might be expected for future interim periods or for the full year ending December 31, 2016.

*Program Rights*

The Company periodically reviews the programming usefulness of its licensed and owned original program rights based on a series of factors, including expected future revenue generation from airings on the Company’s networks and other exploitation opportunities, ratings, type and quality of program material, standards and practices, and fitness for exhibition through various forms of distribution. If it is determined that film or other program rights have no future programming usefulness, a write-off of the unamortized cost is recorded in technical and operating expense. Program rights write-offs included in technical and operating expense of \$1,080 and \$4,005 were recorded for the three months ended June 30, 2016 and 2015, respectively. Program rights write-offs included in technical and operating expense of \$1,080 and \$13,580 were recorded for the six months ended June 30, 2016 and 2015, respectively.

*Use of Estimates*

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements; and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. Significant estimates and judgments inherent in the preparation of the consolidated financial statements include the valuation of acquisition-related assets and liabilities, the useful lives and methodologies used to amortize and assess recoverability of program

rights, the estimated useful lives of intangible assets, valuation and recoverability of goodwill and intangible assets and income tax assets and liabilities.

*Reclassifications*

Certain reclassifications were made to the prior period amounts to conform to the current period presentation.

**Recently Issued Accounting Pronouncements**

In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-09, *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. The updated guidance changes how companies account for certain aspects of share-based payment awards to employees, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as the classification of related matters in the statement of cash flows. ASU 2016-09 is effective for the first quarter of 2017. The Company is currently assessing the impact the adoption will have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. ASU 2016-02 requires lessees to put most of their leases on the balance sheet, which will be recognized as a right-of-use asset and a lease liability. The Company will be required to classify each separate lease component as an operating or finance lease at the lease commencement date. Initial measurement of the right-of-use asset and lease liability is the same for operating and finance leases, however expense recognition and amortization of the right-of-use asset differs. Operating leases will reflect lease expense on a straight-line basis similar to current operating leases. The straight-line expense will reflect the interest expense on the lease liability (effective interest method) and amortization of the right-of-use asset, which will be presented as a single line item in the operating expense section of the income statement. Finance leases will reflect a front-loaded expense pattern similar to the pattern for current capital leases. ASU 2016-02 is effective for the first quarter of 2019, with early adoption permitted. The Company is currently determining its implementation approach and assessing the impact the adoption will have on its consolidated financial statements.

In November 2015, the FASB issued ASU No. 2015-17, *Income Taxes (Topic 740) Balance Sheet Classification of Deferred Taxes*. ASU 2015-17 requires deferred tax liabilities and assets be classified as noncurrent in the statement of financial position. ASU 2015-17 is effective for the first quarter of 2017 with early adoption permitted. The adoption of ASU 2015-17 is not expected to have a material impact on the Company's consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU 2014-09 provides new guidance related to how an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard requires an evaluation of (i) transfer of control, (ii) variable consideration, (iii) allocation of selling price for multiple elements, (iv) intellectual property licenses, (v) time value of money, and (vi) contract costs. The standard also expands the required disclosures related to revenue and cash flows from contracts with customers to provide greater insight into both revenue that has been recognized, and revenue that is expected to be recognized in the future from existing contracts. In March 2016, the FASB issued ASU No. 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations*, which provides clarification on the implementation guidance on principal versus agent considerations outlined in ASU No. 2014-09. In April 2016, the FASB issued ASU No. 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*, which finalized amendments to identifying performance obligations and accounting for licenses of intellectual property. ASU 2014-09, ASU 2016-08 and ASU 2016-10 are effective for the first quarter of 2018, with early adoption permitted and retrospective application required. The Company is currently determining its implementation approach and assessing the impact the adoption will have on its consolidated financial statements.

(unaudited)

For the three and six months ended June 30, 2016 and June 30, 2015, there were no restricted stock units that would have been anti-dilutive to the diluted weighted average common shares outstanding. Approximately 137,000 and 125,000 restricted stock units for the three and six months ended June 30, 2016 and June 30, 2015, respectively, have been excluded from diluted weighted average common shares outstanding since a performance condition on these awards was not met in each of the respective periods.

*Stock Repurchase Program*

On March 4, 2016, the Company's Board of Directors authorized a program to repurchase up to \$500,000 of its outstanding shares of common stock (the "2016 Stock Repurchase Program"). For the six months ended June 30, 2016, the Company repurchased 811,385 of its Class A common stock at an average purchase price of approximately \$59.44 per share. As of June 30, 2016, the Company has \$451,773 available for repurchase under the 2016 Stock Repurchase Program.

**Note 3. Restructuring**

The Company incurred restructuring expense primarily related to severance charges associated with the elimination of certain positions across the Company.

The following table summarizes the restructuring expense recognized by operating segment:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
National Networks	\$ 37	\$ 651	\$ 67	\$ 717
International & Other	352	2,003	287	2,593
Total restructuring expense	<u>\$ 389</u>	<u>\$ 2,654</u>	<u>\$ 354</u>	<u>\$ 3,310</u>

The following table summarizes the accrued restructuring costs:

	Severance and employee-related costs		Other exit costs	Total
	December 31, 2015	\$ 9,498	\$ 512	\$ 10,010

Liabilities for restructuring costs are included in accrued liabilities in the condensed consolidated balance sheet at June 30, 2016.

**Note 4. Goodwill and Other Intangible Assets**

The carrying amount of goodwill, by operating segment is as follows:

	National Networks	International and Other	Total
	December 31, 2015	\$ 244,849	\$ 491,426
Purchase accounting adjustments	—	(7,246)	(7,246)

Purchase accounting adjustments included in the International and Other segment relate to the allocation of fair value for a previous acquisition of a small international channel from goodwill primarily to identifiable intangible assets.

The reduction of \$1,262 in the carrying amount of goodwill for the National Networks is due to the realization of a tax benefit for the amortization of "second component" goodwill at SundanceTV. Second component goodwill is the amount of tax

deductible goodwill in excess of goodwill for financial reporting purposes. In accordance with the authoritative guidance at the time of the SundanceTV acquisition, the tax benefits associated with this excess are applied to first reduce the amount of goodwill, and then other intangible assets for financial reporting purposes, if and when such tax benefits are realized in the Company's tax returns.

The following tables summarize information relating to the Company's identifiable intangible assets:

*5.00% Notes due 2024*

On March 30, 2016, the Company issued \$1,000,000 in aggregate principal amount of 5.00% senior notes, net of an issuance discount of \$17,500, due 2024 (the "5.00% Notes"). AMC Networks used a portion of the net proceeds of this offering to make a cash tender ("Tender Offer") for its outstanding 7.75% Senior Notes due 2021 (the "7.75% Notes") with the remaining proceeds to be used for general corporate purposes, which may include the redemption of any of the 7.75% Notes not tendered. The 5.00% Notes were issued pursuant to an indenture dated as of March 30, 2016 (the "5.00% Notes Indenture").

In connection with the issuance of the 5.00% Notes, AMC Networks incurred deferred financing costs of \$2,070, which are being amortized, using the effective interest method, to interest expense over the term of the 5.00% Notes.

Interest on the 5.00% Notes is payable semi-annually in arrears on April 1 and October 1 of each year.

The 5.00% Notes may be redeemed, in whole or in part, at any time on or after April 1, 2020, at a redemption price equal to 102.5% of the principal amount thereof (plus accrued and unpaid interest thereon, if any, to the date of such redemption), declining annually to 100% of the principal amount thereof (plus accrued and unpaid interest thereon, if any, to the date of such redemption) beginning on April 1, 2022.

The 5.00% Notes are guaranteed on a senior unsecured basis by certain of AMC Networks' existing and future domestic restricted subsidiaries, in accordance with the 5.00% Notes Indenture. The guarantees under the 5.00% Notes are full and unconditional and joint and several.

The 5.00% Notes Indenture contains certain affirmative and negative covenants applicable to AMC Networks and its restricted subsidiaries including restrictions on their ability to incur additional indebtedness, consummate certain assets sales, make investments in entities that are not restricted subsidiaries, create liens on their assets, enter into certain affiliate transactions and make certain restricted payments, including restrictions on AMC Networks' ability to pay dividends on, or repurchase, its common stock.

*7.75% Notes due 2021 Tender Offer*

In March 2016, the Company used a portion of the net proceeds of the 5.00% Notes to make a Tender Offer for the 7.75% Notes at a price of \$1,058.57 per \$1,000 principal amount of notes plus accrued and unpaid interest. Pursuant to the Tender Offer, the Company purchased approximately \$654,000 principal amount of the 7.75% Notes for a purchase price of approximately \$703,000 including accrued and unpaid interest of \$10,567 and related fees. As of June 30, 2016, \$45,551 of the 7.75% Notes remain outstanding.

In connection with the Tender Offer, the Company recorded a loss on extinguishment of debt of \$48,343 for the six months ended June 30, 2016 which includes \$39,188 related to the excess of the redemption price, premium paid and related fees associated with the closing of the Tender Offer and unamortized issuance discount and deferred financing fees related to the 7.75% Notes of \$8,185 and \$970, respectively.

On June 9, 2016, the Company gave notice to the remaining holders of its 7.75% Notes of its intent to redeem all outstanding 7.75% Notes on July 15, 2016, (the "Redemption Date"). The Company will pay a redemption price equal to 103.875% of the principal amount thereof (plus accrued and unpaid interest thereon to the Redemption Date). Accordingly, the 7.75% Notes are classified as current in the condensed consolidated balance sheet as of June 30, 2016.

**Note 7. Fair Value Measurement**

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. Observable inputs reflect assumptions market participants would use in pricing an asset or liability based on market data obtained from independent sources while unobservable inputs reflect a reporting entity's pricing based upon their own market assumptions. The fair value hierarchy consists of the following three levels:

- Level I - Quoted prices for identical instruments in active markets.
- Level II - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level III - Instruments whose significant value drivers are unobservable.

The following table presents for each of these hierarchy levels, the Company's financial assets and liabilities that are measured at fair value on a recurring basis:

	Level I	Level II	Total
<b>At June 30, 2016:</b>			
<b>Assets:</b>			
Cash equivalents	\$ 166,194	\$ —	\$ 166,194
Foreign currency derivatives	—	5,912	5,912
<b>Liabilities:</b>			
Interest rate swap contracts	\$ —	\$ 2,513	\$ 2,513
Foreign currency derivatives	—	2,971	2,971
<b>At December 31, 2015:</b>			
<b>Assets:</b>			
Cash equivalents	\$ 2,027	\$ —	\$ 2,027
Interest rate swap contracts	—	1,449	1,449
Foreign currency derivatives	—	4,421	4,421
<b>Liabilities:</b>			
Interest rate swap contracts	\$ —	\$ 2,682	\$ 2,682
Foreign currency derivatives	—	3,107	3,107

The Company's cash equivalents are classified within Level I of the fair value hierarchy because they are valued using quoted market prices.

The Company's interest rate swap contracts and foreign currency derivatives (see Note 8) are classified within Level II of the fair value hierarchy and their fair values are determined based on a market approach valuation technique that uses readily observable market parameters and the consideration of counterparty risk.

AMC NETWORKS INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)  
(Dollars in thousands, except per share amounts)  
(unaudited)

The Company does not have any recurring assets or liabilities measured at fair value that would be considered Level III.

Fair value measurements are also used in nonrecurring valuations performed in connection with acquisition accounting. These nonrecurring valuations primarily include the valuation of affiliate and customer relationships intangible assets, advertiser relationship intangible assets and property and equipment. All of our nonrecurring valuations use significant unobservable inputs and therefore fall under Level III of the fair value hierarchy.

*Credit Facility Debt and Senior Notes*

The fair values of each of the Company's debt instruments are based on quoted market prices for the same or similar issues or on the current rates offered to the Company for instruments of the same remaining maturities.

The carrying values and estimated fair values of the Company's financial instruments, excluding those that are carried at fair value in the condensed consolidated balance sheets, are summarized as follows:

<b>Debt instruments:</b>

4.75% Notes due December 2022	591,029	600,000
	\$ 2,667,808	\$ 2,708,475

Fair value estimates related to the Company's debt instruments presented above are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgments and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

**Note 8. Derivative Financial Instruments**

*Interest Rate Risk*

To manage interest rate risk, the Company enters into interest rate swap contracts to adjust the amount of total debt that is subject to variable interest rates.

As of June 30, 2016, the Company had interest rate swap contracts outstanding with notional amounts aggregating \$400,000, which consists of interest rate swap contracts with notional amounts of \$200,000 that are designated as cash flow hedges and interest rate swap contracts with notional amounts of \$200,000 that are not designated as hedging instruments. The Company's outstanding interest rate swap contracts have varying maturities ranging from August 2016 to October 2018. At June 30, 2016, the Company's interest rate swap contracts designated as cash flow hedges were highly effective.

*Foreign Currency Exchange Rate Risk*

The Company is exposed to foreign currency risk to the extent that the Company enters into transactions denominated in currencies other than its subsidiaries' respective functional currencies (non-functional currency risk), such as affiliation agreements, programming contracts, certain trade receivables, accounts payable and intercompany amounts that are denominated in a currency other than the applicable functional currency of a subsidiary.

For the six months ended June 30, 2016, excess tax benefits of \$781 relating to share-based compensation awards and \$800 relating to amortization of tax deductible second component goodwill were realized as a reduction in tax liability (as determined on a 'with-and-without' approach).

**Note 10. Commitments and Contingencies**

*Commitments*

As of June 30, 2016, the Company's contractual obligations not reflected on the Company's condensed consolidated balance sheet decreased \$107,815 to \$1,408,248 as compared to \$1,516,063 at December 31, 2015. The decrease relates primarily to program rights obligations.

*Legal Matters*

The Company is party to various lawsuits and claims in the ordinary course of business. Although the outcome of these matters cannot be predicted with certainty and while the impact of these matters on the Company's results of operations in any particular subsequent reporting period could be material, management does not believe that the resolution of these matters will have a material adverse effect on the financial position of the Company or the ability of the Company to meet its financial obligations as they become due.

**Note 11. Equity Plans**

On June 8, 2016, AMC Networks granted 27,066 restricted stock units ("RSU's") under the AMC Networks Inc. Amended and Restated 2011 Non-Employee Directors Plan to non-employee directors that vested on the date of grant.

On March 4, 2016, AMC Networks granted 486,758 RSU's and 371,109 performance restricted stock units ("PRSU's") to certain executive officers and employees under the AMC Networks Inc. Amended and Restated 2011 Employee Stock Plan. The RSU's vest in equal annual installments over a three year period and the vesting criteria for 137,527 RSU's include the achievement

of certain performance targets by the Company. The PRSU's vest on the third anniversary of the grant date and include the achievement of certain performance targets by the Company.

During the six months ended June 30, 2016, 336,435 RSU's of AMC Networks Class A Common Stock previously issued to employees of the Company vested. On the vesting dates, 140,063 RSU's were surrendered to the Company to cover the required statutory tax withholding obligations and 196,372 new shares of the AMC Networks Class A Common Stock were issued in respect of the remaining vesting RSU's. The units surrendered to satisfy the employees' statutory minimum tax withholding obligations for the applicable income and other employment tax had an aggregate value of \$10,834, which has been reflected as a financing activity in the condensed consolidated statement of cash flows for the six months ended June 30, 2016.

Share-based compensation expense included in selling, general and administrative expense, for the three and six months ended June 30, 2016 was \$11,322 and \$19,488, respectively, and \$8,801 and \$16,089 for the three and six months ended June 30, 2015, respectively.

As of June 30, 2016, there was \$90,598 of total unrecognized share-based compensation cost related to outstanding unvested share-based awards. The unrecognized compensation cost is expected to be recognized over a weighted-average remaining period of approximately 2.7 years.

**Note 12. Redeemable Noncontrolling Interests**

In connection with a membership interest purchase agreement entered into with BBC Worldwide Americas, Inc. ("BBCWA"), the Company acquired a 49.9% limited liability interest in New Video Channel America L.L.C. ("New Video"). New Video owns the cable channel BBC AMERICA. The terms of the agreement provide BBCWA with a right to put all of its 50.1% noncontrolling interest to the Company at the greater of the then fair value or the fair value of the initial equity interest at inception. The put option is exercisable on the fifteenth and twenty-fifth year anniversary of the Joint Venture agreement.

In connection with the creation of another joint venture entity in 2013, the terms of the agreement provide the noncontrolling member with a right to put all of its interest to the Company at the then fair value.

Because exercise of these put rights is outside the Company's control, the noncontrolling interest in each entity is presented as redeemable noncontrolling interest outside of stockholders' equity (deficiency) on the Company's condensed consolidated balance sheet.

The following table summarizes activity related to redeemable noncontrolling interest for the six months ended June 30, 2016.

**Note 13. Related Party Transactions**

Members of the Dolan Family, for purposes of Section 13(d) of the Securities Exchange Act of 1934, as amended, including trusts for the benefit of the Dolan Family, collectively beneficially own all of the AMC Networks outstanding Class B Common Stock and own less than 2% of the AMC Networks' outstanding Class A Common Stock. Such shares of the AMC Networks Class A Common Stock and Class B Common Stock, collectively, represent approximately 66% of the aggregate voting power of AMC Networks' outstanding common stock. Members of the Dolan Family are also the controlling stockholders of The Madison Square Garden Company ("MSG") and MSG Networks Inc. ("MSG Networks"). Prior to June 21, 2016, members of the Dolan Family were also the controlling stockholders of Cablevision Systems Corporation ("Cablevision")

On June 21, 2016, Cablevision was acquired by a subsidiary of Altice N.V. and a change in control occurred which resulted in members of the Dolan Family no longer being controlling stockholders of the surviving company, Altice USA. Accordingly, Altice USA is not a related party of AMC Networks.

The Company and its related parties routinely enter into transactions with each other in the ordinary course of business. Revenues, net from related parties amounted to \$6,200 and \$6,493 for the three months ended June 30, 2016 and 2015, respectively

The Company’s share of initial set-up costs and office expenses is not material.

proportionate estimated usage of services, including such costs as executive salaries and benefits, costs of maintaining corporate headquarters, facilities and common support functions (such as human resources, legal, finance, tax, accounting, audit, treasury, risk management, strategic planning and information technology) as well as sales support functions and creative and production services.

The Company evaluates segment performance based on several factors, of which the primary financial measure is operating segment adjusted operating cash flow (defined as operating income (loss) before depreciation and amortization, share-based compensation expense or benefit, and restructuring expense or credit). **Note 17. Condensed Consolidating Financial Statements**

Long-term debt of AMC Networks includes \$45,551 of 7.75% senior notes due July 2021, \$600,000 of 4.75% senior notes due December 2022 and \$1,000,000 of 5.00% senior notes due April 2024. All outstanding senior notes issued by AMC Networks are guaranteed on a senior unsecured basis by certain of its existing and future domestic restricted subsidiaries (the "Guarantor Subsidiaries"). All Guarantor Subsidiaries are owned 100% by AMC Networks. The outstanding notes are fully and unconditionally guaranteed by the Guarantor Subsidiaries on a joint and several basis.

Set forth below are condensed consolidating financial statements presenting the financial position, results of operations, comprehensive income, and cash flows of (i) the Parent Company, (ii) the Guarantor Subsidiaries on a combined basis (as such guarantees are joint and several), (iii) the direct and indirect non-guarantor subsidiaries of the Parent Company (the "Non-Guarantor Subsidiaries") on a combined basis and (iv) reclassifications and eliminations necessary to arrive at the information for the Company on a consolidated basis.

**Basis of Presentation**

In presenting the condensed consolidating financial statements, the equity method of accounting has been applied to (i) the Parent Company's interests in the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries, and (ii) the Guarantor Subsidiaries' interests in the Non-Guarantor Subsidiaries, even though all such subsidiaries meet the requirements to be consolidated under GAAP. All intercompany balances and transactions between the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries have been eliminated, as shown in the column "Eliminations."

The accounting basis in all subsidiaries, including goodwill and identified intangible assets, have been allocated to the applicable subsidiaries.

## Business Overview

We manage our business through the following two operating segments:

- *National Networks:* Principally includes activities of our programming businesses which include our five programming networks distributed in the U.S. and Canada. These programming networks include AMC, WE tv, BBC AMERICA, IFC and SundanceTV in the U.S.; and AMC, IFC, and Sundance Channel in Canada. Our programming businesses within the National Networks segment may also sell rights worldwide to their owned original programming. The National Networks operating segment also includes AMC Networks Broadcasting & Technology, the technical services business, which primarily services most of the programming networks included in the National Networks segment.
- *International and Other:* Principally includes AMC Networks International ("AMCNI"), the Company's international programming businesses consisting of a portfolio of channels in Europe, Latin America, the Middle East and parts of Asia and Africa; IFC Films, the Company's independent film distribution business; AMCNI - DMC, the broadcast solutions unit of certain networks of AMCNI and third-party networks, and various developing on-line content distribution initiatives.

## Financial Results Overview

We evaluate segment performance based on several factors, of which the primary financial measure is operating segment AOCF. We define AOCF, which is a financial measure that is not calculated in accordance with generally accepted accounting principles (“GAAP”), as operating income (loss) before depreciation and amortization, share-based compensation expense or benefit, and restructuring expense or credit.

We believe that AOCF is an appropriate measure for evaluating the operating performance on both an operating segment and consolidated basis. AOCF and similar measures with similar titles are common performance measures used by investors, analysts and peers to compare performance in the industry.

Internally, we use revenues, net and AOCF measures as the most important indicators of our business performance, and evaluate management’s effectiveness with specific reference to these indicators. AOCF should be viewed as a supplement to and not a substitute for operating income (loss), net income (loss), cash flows from operating activities and other measures of performance and/or liquidity presented in accordance with GAAP. Since AOCF is not a measure of performance calculated in accordance with GAAP, this measure may not be comparable to similar measures with similar titles used by other companies.

The following is a reconciliation of consolidated operating income to AOCF for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,

### National Networks

In our National Networks segment, which accounted for 84% of our consolidated revenues for the six months ended June 30, 2016, we earn revenue principally from the distribution of our programming and the sale of advertising. Distribution revenue primarily includes affiliation fees paid by distributors to carry our programming networks and the licensing of original programming for digital, foreign and home video distribution. Affiliation fees paid by distributors represent the largest component of distribution revenue. Our affiliation fee revenues are generally based on a per subscriber fee under multi-year contracts, commonly referred to as “affiliation agreements,” which generally provide for rate increases. The specific affiliation fee revenues we earn vary from

period to period, distributor to distributor and also vary among our networks, but are generally based upon the number of each distributor's subscribers who receive our programming, referred to as viewing subscribers. The terms of certain other affiliation agreements provide that the affiliation fee revenues we earn are a fixed contractual monthly fee, which could be adjusted for acquisitions and dispositions of multichannel video programming systems by the distributor. Revenue from the licensing of original programming for digital and foreign distribution is recognized upon availability or distribution by the licensee.

Under affiliation agreements with our distributors, we have the right to sell a specified amount of national advertising time on our programming networks. Our advertising revenues are more variable than affiliation fee revenues because the majority of our advertising is sold on a short-term basis, not under long-term contracts. Our advertising arrangements with advertisers provide for a set number of advertising units to air over a specific period of time at a negotiated price per unit for which our programming networks generally guarantee specified viewer ratings for their programming.

Our principal goal is to increase our revenues by increasing distribution and penetration of our services, and increasing our ratings. To do this, we must continue to contract for and produce high-quality, attractive programming. As competition for programming increases and alternative distribution technologies continue to emerge and develop in the industry, costs for content acquisition and original programming may increase. There is a concentration of subscribers in the hands of a few distributors, which could create disparate bargaining power between the largest distributors and us by giving those distributors greater leverage in negotiating the price and other terms of affiliation agreements.

Programming expense, included in technical and operating expense, represents the largest expense of the National Networks segment and primarily consists of amortization and impairments or write-offs of programming rights, such as those for original programming, feature films and licensed series, as well as participation and residual costs. The other components of technical and operating expense primarily include distribution and production related costs and program operating costs, such as origination, transmission, uplinking and encryption.

The success of our business depends on original programming, both scripted and unscripted, across all of our networks. In recent years, we have introduced a number of scripted original series. These series generally result in higher audience ratings for our networks than we achieve with other types of programming. Among other things, higher audience ratings drive increased revenues through higher advertising revenues. The timing of exhibition and distribution of original programming varies from period to period, which results in greater variability in our revenues, earnings and cash flows from operating activities. We will continue to increase our investment in programming across all of our channels. There may be significant changes in the level of our technical and operating expenses due to the amortization of content acquisition and/or original programming costs and/or the impact of management's periodic assessment of programming usefulness. Such costs will also fluctuate with the level of revenues derived from owned original programming in each period as these costs are amortized based on the film-forecast-computation method.

Most original series require us to make up-front investments, which are often significant amounts. Not all of our programming efforts are commercially successful, which could result in a write-off of program rights. If it is determined that programming rights have no future programming usefulness based on actual demand or market conditions, a write-off of the unamortized cost is recorded in technical and operating expense. Program rights write-offs of \$1,080 and \$4,005 were recorded for the three months ended June 30, 2016 and 2015, respectively. Program rights write-offs of \$1,080 and \$13,580 were recorded for the six months ended June 30, 2016 and 2015, respectively.

#### ***International and Other***

Our International and Other segment primarily includes the operations of AMC Networks International and IFC Films.

In our International and Other segment, which accounted for 16% of our consolidated revenues for the six months ended June 30, 2016, we earn revenue principally from the international distribution of programming and to a lesser extent, the sale of advertising. Distribution revenue primarily includes affiliation fees paid by distributors to carry our programming networks. Our affiliation fee revenues are generally based on either a per subscriber fee or a fixed contractual monthly fee, under affiliation agreements, which may provide for annual rate increases. Most of these revenues are derived primarily from Europe and to a lesser extent, Latin America, the Middle East and parts of Asia and Africa. The International and Other segment also includes IFC Films, our independent film distribution business where revenues are derived principally from theatrical, digital and licensing distribution.

Programming and program operating costs, included in technical and operating expense, represents the largest expense of the International and Other segment and primarily consists of amortization of acquired content, costs of dubbing and sub-titling of programs and participation costs. Program operating costs include costs such as origination, transmission, uplinking and encryption.

We view our international expansion as an important long-term strategy. We may experience an adverse impact to the International and Other segment's operating results and cash flows in periods of increased international investment by the Company. Similar to our domestic businesses, the most significant business challenges we expect to encounter in our international business

include programming competition (from both foreign and domestic programmers), limited channel capacity on distributors' platforms, the change in the number of subscribers on those platforms and economic pressures on affiliation fees. Other significant business challenges unique to our international operations include increased programming costs for international rights and translation (*i.e.* dubbing and subtitling), a lack of availability of international rights for a portion of our domestic programming content, increased distribution costs for cable, satellite or fiber feeds and a limited physical presence in some territories, and our exposure to foreign currency exchange rate risk. See also the risk factors described under Item 1A, "Risk Factors - We face risks from doing business internationally" in our 2015 Form 10-K.

#### ***Corporate Expenses***

We allocate corporate overhead to each segment based upon its proportionate estimated usage of services. The segment financial information set forth below, including the discussion related to individual line items, does not reflect inter-segment eliminations unless specifically indicated.

#### ***Impact of Economic Conditions***

Our future performance is dependent, to a large extent, on general economic conditions including the impact of direct competition, our ability to manage our businesses effectively, and our relative strength and leverage in the marketplace, both with suppliers and customers.

Capital and credit market disruptions could cause economic downturns, which may lead to lower demand for our products, such as lower demand for television advertising and a decrease in the number of subscribers receiving our programming networks from our distributors. Additionally, as noted above, we may experience an adverse impact due to the impact of global economic conditions and the related effect on foreign currencies. Events such as these may adversely impact our results of operations, cash flows and financial position.

## Consolidated Results of Operations

The amounts presented and discussed below represent 100% of each operating segment's revenues, net and expenses. Where we have management control of an entity, we consolidate 100% of such entity in our consolidated statements of operations notwithstanding that a third-party owns a significant interest in such entity. The noncontrolling owner's interest in the operating results of majority-owned subsidiaries are reflected in net income attributable to noncontrolling interests in our consolidated statements of operations.

## Revenues, net

Revenues, net increased \$83,694 to \$684,832 for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015. The net change by segment was as follows:

	Three Months Ended June 30,					
	2016	% of total	2015	% of total	\$ change	% change
National Networks	\$ 572,633	83.6 %	\$ 488,608	81.3 %	\$ 84,025	17.2%

### National Networks

The increase in National Networks revenues, net was attributable to the following:

	Three Months Ended June 30,					
	2016	% of total	2015	% of total	\$ change	% change
Advertising	\$ 239,331	41.8%	\$ 185,712	38.0%	\$ 53,619	28.9%
Distribution	333,302	58.2	302,896	62.0	30,406	10.0
	<u>\$ 572,633</u>	100.0%	<u>\$ 488,608</u>	100.0%	<u>\$ 84,025</u>	17.2%

- The increase of \$53,619 in advertising revenues was driven primarily by the increase in our original programming at AMC which led to increased demand by advertisers and higher pricing at AMC, in addition to increases at BBC AMERICA, IFC and SundanceTV networks. Most of our advertising revenues vary based on the timing of our original programming series and the popularity of our programming as measured by Nielsen. Due to these factors, we expect advertising revenues to vary from quarter to quarter.
- Distribution revenues increased \$30,406 driven by an increase of \$19,220 from licensing and digital distribution revenues derived from our original programming, principally at AMC. In addition, affiliation fee revenues increased due to an increase in rates primarily at AMC as compared to the same period in 2015. Distribution revenues vary based on the impact of renewals of affiliation agreements and the timing of availability of our programming to distributors. Because of these factors, we expect distribution revenues to vary from quarter to quarter.

### International and Other

The increase in International and Other revenues, net was attributable to the following:

	Three Months Ended June 30,					
	2016	% of total	2015	% of total	\$ change	% change
Advertising	\$ 25,564	21.6%	\$ 21,778	19.3%	\$ 3,786	17.4%
Distribution	92,716	78.4	91,105	80.7	1,611	1.8
	<u>\$ 118,280</u>	100.0%	<u>\$ 112,883</u>	100.0%	<u>\$ 5,397</u>	4.8%

The increase in advertising revenues is principally due to increased demand for our programming at AMCNI by advertisers, partially offset by the unfavorable impact of foreign currency translation of approximately \$1,200. The increase in distribution revenues resulted principally from an increase of \$4,419 at AMCNI, partially offset by a decrease at IFC Films due to the strong performance of *Boyhood* in 2015. The unfavorable impact of foreign currency translation at AMCNI on distribution revenue was approximately \$1,800.

### Technical and operating expense (excluding depreciation and amortization)

The components of technical and operating expense primarily include the amortization and impairments or write-offs of program rights, such as those for original programming, feature films and licensed series, participation and residual costs, distribution and production related costs and program operating costs, such as origination, transmission, uplinking and encryption.

Technical and operating expense (excluding depreciation and amortization) increased \$45,762 to \$305,492 for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015. The net change by segment was as follows:

	Three Months Ended June 30,		\$ change	% change
	2016	2015		
National Networks	\$ 240,116	\$ 192,188	\$ 47,928	24.9%
International and Other	68,215	68,057	158	0.2
Inter-segment eliminations	(2,839)	(515)	(2,324)	n/m
Total	\$ 305,492	\$ 259,730	\$ 45,762	17.6%
Percentage of revenues, net	44.6%	43.2%		

#### *National Networks*

The increase in the National Networks segment was attributable to an increase of \$28,724 in program rights amortization expense and an increase of \$19,204 for other direct programming related costs, primarily participation and residuals and development costs. The increase in program rights amortization expense is due to the increased investment in original programming for the three months ended June 30, 2016. Program rights amortization expense includes write-offs of \$1,080 for the three months ended June 30, 2016 based on management's assessment of programming usefulness, primarily at SundanceTV. Program rights amortization expense for the three months ended June 30, 2015 included write-offs of \$4,005 of certain scripted series at SundanceTV based on management's assessment of programming usefulness.

#### *International and Other*

The increase in the International and Other segment was primarily due to an increase of \$773 at AMCNI due to an increased investment in programming and an increase of \$763 due to costs incurred at our developing business, partially offset by a decrease of \$1,445 at IFC Films due to a decrease in direct costs related to the success of *Boyhood* in 2015. Foreign currency translation had a favorable impact to the change in technical and operating expense of approximately \$1,700.

#### **Selling, general and administrative expense**

The components of selling, general and administrative expense primarily include sales, marketing and advertising expenses, administrative costs and costs of facilities.

Selling, general and administrative expense increased \$20,486 to \$179,366 for the three months ended June 30, 2016, as compared to the three months ended June 30, 2015. The net change by segment was as follows:

	Three Months Ended June 30,		\$ change	% change
	2016	2015		
National Networks	\$ 135,337	\$ 120,910	\$ 14,427	11.9 %
International and Other	44,032	37,974	6,058	16.0
Inter-segment eliminations	(3)	(4)	1	(25.0)
Total	\$ 179,366	\$ 158,880	\$ 20,486	12.9 %
Percentage of revenues, net	26.2%	26.4%		

#### *National Networks*

The increase of \$14,427 in selling, general and administrative expense in the National Networks segment was driven by an increase in marketing and advertising sales expense of \$12,821 primarily at AMC due to the promotion of original programming series, and an increase in parent company allocations of \$2,111, partially offset by a decrease of \$1,115 in share-based compensation expense and expenses relating to long-term incentive compensation.

There may be significant changes in the level of our selling, general and administrative expense from quarter to quarter and year to year due to the timing of promotion and marketing of original programming series and subscriber retention marketing efforts.

#### *International and Other*

The increase of \$6,058 in selling, general and administrative expense in the International and Other segment was primarily driven by increases at AMCNI due to an increase of \$2,371 in marketing expense, an increase in employee related costs of \$2,594, and an increase in administrative expenses of \$1,222 due to an increase in rent expense and professional fees. In addition, the increase was due to an increase of \$1,902 at our developing business due to increased marketing expenses, offset by a decrease

at IFC Films of \$3,739 due to the timing of promotion of films. Foreign currency translation had a favorable impact to the change in selling, general and administrative expense of approximately \$1,300.

### Depreciation and amortization

Depreciation and amortization expense increased \$513 to \$21,553 for the three months ended June 30, 2016, as compared to the three months ended June 30, 2015. The net change by segment was as follows:

	Three Months Ended June 30,		\$ change	% change
	2016	2015		
National Networks	\$ 8,053	\$ 7,212	\$ 841	11.7 %
International and Other	13,500	13,828	(328)	(2.4)
	<u>\$ 21,553</u>	<u>\$ 21,040</u>	<u>\$ 513</u>	<u>2.4 %</u>

The increase in depreciation and amortization expense at the National Networks segment was attributable to an increase in depreciation expense due to property and equipment additions. The decrease in depreciation and amortization expense at the International and Other segment for the three months ended June 30, 2016, as compared to the three months ended June 30, 2015 was primarily due to the favorable impact of foreign currency translation.

### AOCF

The following is a reconciliation of our consolidated operating income to AOCF:

	Three Months Ended June 30,		\$ change	% change
	2016	2015		
Operating income	\$ 178,032	\$ 158,834	\$ 19,198	12.1 %
Share-based compensation expense	11,322	8,801	2,521	28.6
Restructuring expense	389	2,654	(2,265)	(85.3)
Depreciation and amortization	21,553	21,040	513	2.4
Consolidated AOCF	<u>\$ 211,296</u>	<u>\$ 191,329</u>	<u>\$ 19,967</u>	<u>10.4 %</u>

AOCF increased \$19,967 for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015. The net change by segment was as follows:

	Three Months Ended June 30,		\$ change	% change
	2016	2015		
National Networks	\$ 206,328	\$ 182,553	\$ 23,775	13.0 %
International and Other	8,207	8,610	(403)	(4.7)
Inter-segment eliminations	(3,239)	166	(3,405)	n/m
AOCF	<u>\$ 211,296</u>	<u>\$ 191,329</u>	<u>\$ 19,967</u>	<u>10.4 %</u>

National Networks AOCF increased principally due to an increase in revenues, net of \$84,025, partially offset by an increase in technical and operating expenses of \$47,928 resulting primarily from an increase in amortization and other direct programming related costs and an increase in selling, general and administrative expense of \$12,322. As a result of the factors discussed above impacting the variability in revenues and operating expenses, we expect AOCF to vary from quarter to quarter.

International and Other AOCF decreased slightly principally due to an increase in selling, general and administrative expense of \$5,642, partially offset by an increase in revenues, net of \$5,397.

### Miscellaneous, net

The decrease in miscellaneous, net of \$36,294 for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015 is primarily the result of unrealized net foreign currency transaction losses of \$39,682 from the translation of monetary assets and liabilities that are denominated in currencies other than the underlying functional currency of the applicable entity, primarily due to intercompany loans, partially offset by an increase in gains on derivative contracts of \$4,151.

### Income tax expense

For the three months ended June 30, 2016, income tax expense was \$39,390, representing an effective tax rate of 32%. The effective tax rate differs from the federal statutory rate of 35% due primarily to state and local income tax expense of \$2,120, tax benefit from foreign subsidiary earnings indefinitely reinvested outside of the U.S. of \$5,456, tax benefit from the domestic

production activities deduction of \$4,413 and tax expense of \$2,701 resulting from an increase in the valuation allowance for foreign and local taxes.

For the three months ended June 30, 2015, income tax expense was \$50,997, representing an effective tax rate of 37%. The effective tax rate differs from the federal statutory rate of 35% due primarily to state and local income tax expense of \$2,726, tax benefit from foreign subsidiary earnings indefinitely reinvested outside of the U.S. of \$939, tax benefit from the domestic production activities deduction of \$5,015 and tax expense of \$3,957 resulting from an increase in the valuation allowance for foreign and local taxes.

## Revenues, net

Revenues, net increased \$121,591 to \$1,391,411 for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015. The net change by segment was as follows:

	Six Months Ended June 30,					
	2016	% of total	2015	% of total	\$ change	% change
National Networks	\$ 1,171,269	84.2 %	\$ 1,051,455	82.8 %	\$ 119,814	11.4%
International and Other	227,328	16.3	219,239	17.3	8,089	3.7
Inter-segment eliminations	(7,186)	(0.5)	(874)	(0.1)	(6,312)	n/m
Consolidated revenues, net	<u>\$ 1,391,411</u>	100.0 %	<u>\$ 1,269,820</u>	100.0 %	<u>\$ 121,591</u>	9.6%

### National Networks

The increase in National Networks revenues, net was attributable to the following:

	Six Months Ended June 30,					
	2016	% of total	2015	% of total	\$ change	% change
Advertising	\$ 503,183	43.0%	\$ 446,151	42.4%	\$ 57,032	12.8%
Distribution	668,086	57.0	605,304	57.6	62,782	10.4
	<u>\$ 1,171,269</u>	100.0%	<u>\$ 1,051,455</u>	100.0%	<u>\$ 119,814</u>	11.4%

- The increase of \$57,032 in advertising revenues was driven by the timing of airing our original programming which led to increased demand by advertisers and higher pricing across all of our networks, with the largest increase at AMC due to the number of original programming series and series premieres. Most of our advertising revenues vary based on the timing of our original programming series and the popularity of our programming as measured by Nielsen. Due to these factors, we expect advertising revenues to vary from quarter to quarter.
- Distribution revenues increased \$62,782 due to an increase of \$41,983 principally from digital distribution and licensing revenues derived from our original programming, principally at AMC. In addition, affiliation fee revenues increased due to an increase in rates, primarily at AMC, as compared to the same period in 2015. Distribution revenues vary based on the impact of renewals of affiliation agreements and the timing of availability of our programming to distributors. Because of these factors, we expect distribution revenues to vary from quarter to quarter.

### International and Other

The increase in International and Other revenues, net was attributable to the following:

	Six Months Ended June 30,					
	2016	% of total	2015	% of total	\$ change	% change
Advertising	\$ 48,413	21.3%	\$ 40,581	18.5%	\$ 7,832	19.3%
Distribution	178,915	78.7	178,658	81.5	257	0.1
	<u>\$ 227,328</u>	100.0%	<u>\$ 219,239</u>	100.0%	<u>\$ 8,089</u>	3.7%

The increase in advertising revenues is principally due to increased demand for our programming at AMCNI by advertisers, partially offset by the unfavorable impact of foreign currency translation of approximately \$2,300. The increase in distribution revenues is primarily driven by expanded distribution at AMCNI resulting in an increase in distribution revenue of \$4,235, partially offset by a decrease at IFC Films due to the strong performance of *Boys n the Hood* in 2015. The unfavorable impact of foreign currency translation at AMCNI on distribution revenue was approximately \$5,200.

### Technical and operating expense (excluding depreciation and amortization)

The components of technical and operating expense primarily include the amortization and impairments or write-offs of program rights, such as those for original programming, feature films and licensed series, participation and residual costs, distribution and production related costs and program operating costs, such as origination, transmission, uplinking and encryption.

Technical and operating expense (excluding depreciation and amortization) increased \$54,634 to \$576,537 for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015. The net change by segment was as follows:

	Six Months Ended June 30,		\$ change	% change
	2016	2015		
National Networks	\$ 446,255	\$ 389,112	\$ 57,143	14.7%
International and Other	134,731	134,096	635	0.5
Inter-segment eliminations	(4,449)	(1,305)	(3,144)	n/m
Total	\$ 576,537	\$ 521,903	\$ 54,634	10.5%
Percentage of revenues, net	41.4%	41.1%		

#### *National Networks*

The increase in the National Networks segment was attributable to an increase of \$27,011 in program rights amortization expense, an increase of \$30,132 for other direct programming related costs, primarily participation and residuals and other development costs. The increase in program rights amortization expense is due an increase in original programming for the six months ended June 30, 2016. Program rights amortization expense includes write-offs of \$1,080 for the six months ended June 30, 2016 based on management's assessment of programming usefulness, primarily at SundanceTV. Program rights amortization expense for the six months ended June 30, 2015 included write-offs of \$13,580 of certain scripted series at SundanceTV, pilot costs at AMC and unscripted series WE tv based on management's assessment of programming usefulness.

There may be significant changes in the level of our technical and operating expenses due to content acquisition and/or original programming costs and/or the impact of management's periodic assessment of programming usefulness. Such costs will also fluctuate with the level of revenues derived from owned original programming in each period as these costs are amortized based on the film-forecast-computation method. As additional competition for programming increases and alternate distribution technologies continue to develop in the industry, costs for content acquisition and original programming may increase.

#### *International and Other*

The increase in the International and Other segment was primarily due to an increase at AMCNI due to an increase in program rights amortization expense of \$4,595 due to the increased investment in programming, partially offset by a decrease in other direct programming related costs of \$1,323. In addition, the increase in technical and operating expense was due to an increase in costs at our developing business of \$1,393. Such increases were offset by a decrease of \$4,238 at IFC Films due to a decrease in participation and residuals expense related to the success of *Boyhood* in 2015. Foreign currency translation had a favorable impact to the change in technical and operating expense of approximately \$4,300.

#### **Selling, general and administrative expense**

The components of selling, general and administrative expense primarily include sales, marketing and advertising expenses, administrative costs and costs of facilities.

Selling, general and administrative expense increased \$23,185 to \$336,644 for the six months ended June 30, 2016, as compared to the six months ended June 30, 2015. The net change by segment was as follows:

	Six Months Ended June 30,		\$ change	% change
	2016	2015		
National Networks	\$ 253,102	\$ 238,985	\$ 14,117	5.9 %
International and Other	83,550	74,490	9,060	12.2
Inter-segment eliminations	(8)	(16)	8	(50.0)
Total	\$ 336,644	\$ 313,459	\$ 23,185	7.4 %
Percentage of revenues, net	24.2%	24.7%		

#### *National Networks*

The increase in selling, general and administrative expense in the National Networks segment was driven by an increase in marketing expenses of \$13,106 primarily at AMC due to the promotion of original programming series.

There may be significant changes in the level of our selling, general and administrative expense from quarter to quarter and year to year due to the timing of promotion and marketing of original programming series and subscriber retention marketing efforts.

### International and Other

Selling, general and administrative expense in the International and Other segment increased \$9,060 for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015 driven by increases at AMCNI due to an increase in employee related costs of \$4,147, marketing expense of \$2,612, an increase in administrative expenses of \$2,580 due to an increase in professional fees and rent expense. In addition, the increase was due to an increase of \$4,076 at our developing business principally due to increased marketing expenses, offset by a decrease at IFC Films of \$7,834 due to the timing of promotion of films. Foreign currency translation had a favorable impact to the change in selling, general and administrative expense of approximately \$2,800.

### Depreciation and amortization

Depreciation and amortization expense decreased \$382 to \$41,185 for the six months ended June 30, 2016, as compared to the six months ended June 30, 2015. The net change by segment was as follows:

	Six Months Ended June 30,		\$ change	% change
	2016	2015		
National Networks	\$ 16,022	\$ 14,574	\$ 1,448	9.9 %
International and Other	25,163	26,993	(1,830)	(6.8)
	<u>\$ 41,185</u>	<u>\$ 41,567</u>	<u>\$ (382)</u>	<u>(0.9)%</u>

The increase in depreciation and amortization expense in the National Networks segment was primarily attributable to an increase in depreciation expense due to property and equipment additions. The decrease in depreciation and amortization expense in the International and Other segment was primarily attributable to a decrease in amortization of \$2,052 resulting from a decrease in an asset retirement obligation at AMCNI.

### AOCF

The following is a reconciliation of our consolidated operating income to AOCF:

	Six Months Ended June 30,		\$ change	% change
	2016	2015		
Operating income	\$ 436,691	\$ 389,581	\$ 47,110	12.1 %
Share-based compensation expense	19,488	16,089	3,399	21.1
Restructuring expense	354	3,310	(2,956)	(89.3)
Depreciation and amortization	41,185	41,567	(382)	(0.9)
Consolidated AOCF	<u>\$ 497,718</u>	<u>\$ 450,547</u>	<u>\$ 47,171</u>	<u>10.5 %</u>

AOCF increased \$47,171 for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015. The net change by segment was as follows:

	Six Months Ended June 30,		\$ change	% change
	2016	2015		
National Networks	\$ 487,282	\$ 435,811	\$ 51,471	11.8 %
International and Other	13,165	14,289	(1,124)	(7.9)
Inter-segment eliminations	(2,729)	447	(3,176)	n/m
AOCF	<u>\$ 497,718</u>	<u>\$ 450,547</u>	<u>\$ 47,171</u>	<u>10.5 %</u>

National Networks AOCF increased principally due to an increase in revenues, net of \$119,814, partially offset by an increase in technical and operating expenses of \$57,143 resulting primarily from an increase in other direct programming related costs and an increase in selling, general and administrative expense of \$11,200. As a result of the factors discussed above impacting the variability in revenues and operating expenses, we expect AOCF to vary from quarter to quarter.

International and Other AOCF decreased slightly due to an increase in selling, general and administrative expenses of \$8,578 and an increase in technical and operating expense of \$635 partially offset by an increase in revenues, net of \$8,089. Foreign currency translation had an unfavorable impact on AOCF of approximately \$400.

### **Loss on extinguishment of debt**

The loss on extinguishment of debt for the six months ended June 30, 2016 of \$48,343 represents \$39,188 of premium paid and related fees on the early redemption of our 7.75% Notes as well as a write-off of the related unamortized discount of \$8,185 and unamortized deferred financing costs of \$970. See further discussion below.

### **Miscellaneous, net**

The decrease in miscellaneous, net of \$26,753 for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015 is primarily the result of unrealized net foreign currency transaction losses of \$30,800 from the translation of monetary assets and liabilities that are denominated in currencies other than the underlying functional currency of the applicable entity, primarily intercompany loans, partially offset by an increase in the gains on derivative contracts of \$3,710.

### **Income tax expense**

For the six months ended June 30, 2016, income tax expense was \$97,933, representing an effective tax rate of 32%. The effective tax rate differs from the federal statutory rate of 35% due primarily to state and local income tax expense of \$5,335, tax benefit from foreign subsidiary earnings indefinitely reinvested outside of the U.S. of \$8,921, tax benefit from the domestic production activities deduction of \$9,735 and tax expense of \$4,701 resulting from an increase in the valuation allowance for foreign and local taxes.

For the six months ended June 30, 2015, income tax expense was \$112,251, representing an effective tax rate of 34%. The effective tax rate differs from the federal statutory rate of 35% due primarily to state and local income tax expense of \$6,560, tax benefit from foreign subsidiary earnings indefinitely reinvested outside of the U.S. of \$6,201, tax benefit from the domestic production activities deduction of \$10,183 and tax expense of \$6,788 resulting from an increase in the valuation allowance for foreign and local taxes.

### **Liquidity and Capital Resources**

Our operations have historically generated positive net cash flow from operating activities. However, each of our programming businesses has substantial programming acquisition and production expenditure requirements.

Sources of cash primarily include cash flow from operations, amounts available under our revolving credit facility (as described below) and access to capital markets. Although we currently believe that amounts available under our revolving credit facility will be available when and if needed, we can provide no assurance that access to such funds will not be impacted by adverse conditions in the financial markets. As a public company, we may have access to other sources of capital such as the public bond markets. On March 23, 2016 we filed a Registration Statement on Form S-3 ("Shelf Registration") with the SEC in which we registered debt securities.

In connection with the Shelf Registration, on March 30, 2016, we issued \$1,000,000 in aggregate principal amount of 5.00% senior notes, net of an issuance discount of \$17,500, due 2024 (the "5.00% Notes"). We used a portion of the net proceeds of this offering to make a cash tender ("Tender Offer") for our outstanding 7.75% senior notes due 2021 (the "7.75% Notes") at a price of \$1,058.57 per \$1,000 principal amounts of notes plus accrued and unpaid interest. Pursuant to the Tender Offer, we purchased approximately \$654,000 principal amount of the 7.75% Notes for a purchase price of approximately \$703,000 including accrued and unpaid interest of \$10,567 and related fees. As of June 30, 2016, \$45,551 of the 7.75% Notes remain outstanding. See "Debt Financing Agreements" below.

On March 4, 2016, our Board of Directors authorized a program to repurchase up to \$500,000 of our outstanding shares of common stock (the "2016 Stock Repurchase Program"). Through July 29, 2016, we repurchased 1,282,273 shares of our Class A common stock for \$74,997.

Our principal uses of cash include the acquisition and production of programming, investments and acquisitions, debt service, repurchases of outstanding debt and common stock and payments for income taxes. We continue to increase our investment in original programming, the funding of which generally occurs six to nine months in advance of a program's airing. We expect this increased investment to continue in 2016. The current portion of long term debt is \$230,551 (which includes required principal payments on our Term Loan A facility over the next twelve months of \$185,000 and \$45,551 related to our 7.75% Notes which were redeemed on July 15, 2016. See "Debt Financing Agreements" below.

As of June 30, 2016, our consolidated cash and cash equivalents includes amounts with a value of approximately \$96,009 held by foreign subsidiaries, some of which have earnings that have not been subject to U.S. tax. Repatriation of earnings not previously subject to U.S. tax would generally require us to accrue and pay U.S. tax on such amount. Our consolidated financial statements provide for any related tax liability on amounts that may be repatriated, aside from undistributed earnings of certain of our foreign subsidiaries that are intended to be permanently reinvested or repatriated in a tax-free manner. The amount of such undistributed earnings was approximately \$60,000 as of June 30, 2016. Determination of the amount of unrecognized deferred tax liability for temporary differences related to these earnings is not practicable.

We believe that a combination of cash-on-hand, cash generated from operating activities and availability under our revolving credit facility will provide sufficient liquidity to service the principal and interest payments on our indebtedness, along with our other funding and investment requirements over the next twelve months and over the longer term. However, we do not expect to generate sufficient cash from operations to repay at maturity the entirety of the then outstanding balances of our debt. As a result, we will then be dependent upon our ability to access the capital and credit markets in order to repay or refinance the outstanding balances of our indebtedness. Failure to raise significant amounts of funding to repay these obligations at maturity would adversely affect our business. In such a circumstance, we would need to take other actions including selling assets, seeking strategic investments from third parties or reducing other discretionary uses of cash.

Our level of debt could have important consequences on our business including, but not limited to, increasing our vulnerability to general adverse economic and industry conditions, limiting the availability of our cash flow to fund future programming investments, capital expenditures, working capital, business activities and other general corporate requirements and limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate. For information relating to our outstanding debt obligations, refer to Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Debt Financing Agreements" of our 2015 Form 10-K and the discussion below under Debt Financing Agreements.

In addition, economic or market disruptions could lead to lower demand for our services, such as lower levels of advertising. These events would adversely impact our results of operations, cash flows and financial position.

The revolving credit facility was not drawn upon at June 30, 2016. The total undrawn revolver commitment is available to be drawn for our general corporate purposes.

AMC Networks was in compliance with all of its debt covenants as of June 30, 2016.

### **Debt Financing Agreements**

#### ***5.00% Notes due 2024***

As noted above, on March 30, 2016, we issued the 5.00% Notes. We used the net proceeds of this offering to fund the Tender Offer of the 7.75% Notes with the remaining proceeds to be used for general corporate purposes, which may include the redemption of any of the 7.75% Notes not tendered. The 5.00% Notes were issued pursuant to an indenture dated as of March 30, 2016 (the "5.00% Notes Indenture").

In connection with the issuance of the 5.00% Notes, AMC Networks incurred deferred financing costs of \$2,070, which are being amortized, using the effective interest method, to interest expense over the term of the 5.00% Notes.

Interest on the 5.00% Notes is payable semi-annually in arrears on April 1 and October 1 of each year.

The 5.00% Notes may be redeemed, in whole or in part, at any time on or after April 1, 2020, at a redemption price equal to 102.5% of the principal amount thereof (plus accrued and unpaid interest thereon, if any, to the date of such redemption), declining annually to 100% of the principal amount thereof (plus accrued and unpaid interest thereon, if any, to the date of such redemption) beginning on April 1, 2022.

The 5.00% Notes are guaranteed on a senior unsecured basis by certain of AMC Networks' existing and future domestic restricted subsidiaries, in accordance with the 5.00% Notes Indenture. The guarantees under the 5.00% Notes are full and unconditional and joint and several.

The 5.00% Notes Indenture contains certain affirmative and negative covenants applicable to AMC Networks and its restricted subsidiaries including restrictions on their ability to incur additional indebtedness, consummate certain assets sales, make investments in entities that are not restricted subsidiaries, create liens on their assets, enter into certain affiliate transactions and make certain restricted payments, including restrictions on AMC Networks' ability to pay dividends on, or repurchase, its common stock.

#### ***7.75% Notes due 2021 Tender Offer***

We used a portion of the net proceeds of the 5.00% Notes for the Tender Offer for the 7.75% notes due at a price of \$1,058.57 per \$1,000 principal amounts of notes plus accrued and unpaid interest. Pursuant to the Tender Offer, the Company purchased approximately \$654,000 principal amount of the 7.75% Notes for a purchase price of approximately \$703,000 including accrued and unpaid interest of \$10,567 and related fees. Approximately \$45,551 of the 7.75% Notes remain outstanding as of June 30, 2016.

The Company accepted for payment all 7.75% Notes validly tendered prior to the Expiration Date pursuant to the Tender Offer. Such tendering holders received the purchase price in the amount of \$1,058.57 for each \$1,000 principal amount of 7.75% Notes tendered, plus accrued and unpaid interest to, but not including, the date hereof.

In connection with the Tender Offer, the Company recorded a loss on extinguishment of debt of \$48,343 for the six months ended June 30, 2016 which includes \$39,188 related to the excess of the redemption price, premium paid and related fees associated with the closing of the Tender Offer and unamortized issuance discount and deferred financing fees related to the 7.75% Notes of \$8,185 and \$970, respectively.

On June 9, 2016, the Company gave notice to the remaining holders of its 7.75% Notes of its intent to redeem all outstanding 7.75% Notes on July 15, 2016 (the "Redemption Date"). The Company will pay a redemption price equal to 103.875% of the

principal amount thereof (plus accrued and unpaid interest thereon to the Redemption Date). Accordingly, the 7.75% Notes are classified as current in the condensed consolidated balance sheet as of June 30, 2016.

#### **Contractual Obligations**

As of June 30, 2016, our contractual obligations not reflected on the condensed consolidated balance sheet decreased \$107,815 to \$1,408,248 as compared to \$1,516,063 at December 31, 2015. The decrease relates primarily to program rights obligations.

#### **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

All dollar amounts included in the following discussion under this Item 3 are presented in thousands.

##### **Fair Value of Debt**

Based on the level of interest rates prevailing at June 30, 2016, the fair value of our fixed rate debt of \$1,632,873 was more than its carrying value of \$1,617,519 by \$15,354. The fair value of these financial instruments is estimated based on reference to quoted market prices for these or comparable securities. A hypothetical 100 basis point decrease in interest rates prevailing at June 30, 2016 would increase the estimated fair value of our fixed rate debt by approximately \$98,483 to approximately \$1,731,356.

##### **Managing our Interest Rate Risk**

To manage interest rate risk, we enter into interest rate swap contracts from time to time to adjust the amount of total debt that is subject to variable interest rates. Such contracts effectively fix the borrowing rates on floating rate debt to limit the exposure against the risk of rising rates. We do not enter into interest rate swap contracts for speculative or trading purposes and we only enter into interest rate swap contracts with financial institutions that we believe are creditworthy counterparties. We monitor the financial institutions that are counterparties to our interest rate swap contracts and to the extent possible diversify our swap contracts among various counterparties to mitigate exposure to any single financial institution.

As of June 30, 2016, we had \$2,933,582 of debt outstanding (excluding capital leases), of which \$1,316,063 is outstanding under the credit facility and is subject to variable interest rates (before consideration of the interest rate swaps contracts described below).

As of June 30, 2016, we had interest rate swap contracts outstanding with notional amounts aggregating \$400,000. The aggregate fair value of interest rate swap contracts at June 30, 2016 was a net liability of \$2,513. As a result of these transactions, the interest rate paid on approximately 69% of the Company's debt (excluding capital leases) as of June 30, 2016 is effectively fixed (55% being fixed rate obligations and 14% effectively fixed through utilization of these interest rate swap contracts). Accumulated other comprehensive loss includes \$1,108 of cumulative unrealized losses, net of tax, on the portion of floating-to-fixed interest rate swap contracts designated as cash flow hedges. At June 30, 2016, our interest rate swap contracts designated as cash flow hedges were highly effective, in all material respects.

A hypothetical 100 basis point increase in interest rates prevailing at June 30, 2016 would not have a material impact on our annual interest expense.

##### **Managing our Foreign Currency Exchange Rate Risk**

We are exposed to foreign currency risk to the extent that we enter into transactions denominated in currencies other than our subsidiaries' respective functional currencies (non-functional currency risk), such as affiliation agreements, programming contracts, certain trade receivables and accounts payable (including intercompany amounts) that are denominated in a currency other than the applicable functional currency. Changes in exchange rates with respect to amounts recorded in our consolidated balance sheets related to these items will result in unrealized (based upon period-end exchange rates) or realized foreign currency transaction gains and losses upon settlement of the transactions. Moreover, to the extent that our revenue, costs and expenses are denominated in currencies other than our respective functional currencies, we will experience fluctuations in our revenue, costs and expenses solely as a result of changes in foreign currency exchange rates. The Company recognized \$29,192 of foreign currency transaction losses, net for the six months ended June 30, 2016. Such amount is included in miscellaneous, net in the condensed consolidated statement of income.

As a result of our international expansion in recent years, we expect the exposure to foreign currency fluctuations will have a more significant impact on our financial position and results of operations.

To manage foreign currency exchange rate risk, we may enter into foreign currency contracts from time to time with financial institutions to limit our exposure to fluctuations in foreign currency exchange rates. We do not enter into foreign currency contracts for speculative or trading purposes.

We also are exposed to fluctuations of the U.S. dollar (our reporting currency) against the currencies of our operating subsidiaries when their respective financial statements are translated into U.S. dollars for inclusion in our condensed consolidated financial statements. Cumulative translation adjustments are recorded in accumulated other comprehensive income (loss) as a separate component of equity. Any increase (decrease) in the value of the U.S. dollar against any foreign currency that is the functional currency of one of our operating subsidiaries will cause us to experience unrealized foreign currency translation losses (gains) with respect to amounts already invested in such foreign currencies. Accordingly, we may experience a negative impact on our comprehensive income (loss) and equity with respect to our holdings solely as a result of changes in foreign currency exchange rates.

#### **Item 4. Controls and Procedures.**

##### **Disclosure Controls and Procedures**

An evaluation was carried out under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended). Based upon that evaluation as of June 30, 2016, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

##### **Changes in Internal Control over Financial Reporting**

During the six months ended June 30, 2016, there were no changes in the Company's internal control over financial reporting, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## Shared Executive Space Cost Sharing Arrangement

AMC Networks Inc. (“AMC”), The Madison Square Garden Company (“MSG”), MSG Networks Inc. (“MSGN”), and the Charles Dolan Family Office (“DFO”) have jointly established an executive office in Oyster Bay, New York (the “Office”) for certain of their respective personnel.

The Office will be operated under a lease agreement. Lease costs and related variable expenses (e.g., office cleaning, utilities, photocopier) and certain on-going security costs will be allocated based upon the relative square footage utilized, initially, as follows: MSG (12.67%), MSGN (12.67%), AMC (30.50%) and the DFO (40.16%). Technology support costs will be allocated based on relative headcount, initially, as follows: MSG (11.11%), MSGN (11.11%), AMC (33.34%) and the DFO (44.44%).

It is expected that this arrangement will remain in place until the lease expiration date and thereafter for successive one-year terms unless any party provides written notice to the other parties of its desire not to renew, such notice to be provided not less than 90 days prior to the end of the then current term.
