Note 1. Description of Business and Basis of Presentation

Description of Business

AMC Networks Inc. ("AMC Networks") and its subsidiaries (collectively referred to as the "Company") own and operate entertainment businesses and assets. The Company is comprised of two operating segments:

- *National Networks*: Includes activities of our five national programming networks, AMC Studios operations and AMC Broadcasting & Technology. Our national programming networks are AMC, WE tv, BBC AMERICA, IFC and SundanceTV in the U.S.; and AMC and IFC in Canada. Our AMC Studios operations produces original programming for our programming networks and also licenses such program rights worldwide. AMC Networks Broadcasting & Technology is our technical services business, which primarily services most of the national programming networks.
- *International and Other*: Principally includes AMC Networks International (AMCNI), the Company's international programming businesses consisting of a portfolio of channels in Europe, Latin America, the Middle East and parts of Asia and Africa; IFC Films, the Company's independent film distribution business; and our subscription streaming services, Sundance Now and Shudder. AMCNI – DMC, the broadcast solutions unit of certain networks of AMCNI and third-party networks is included through the date sold, July 12, 2017.

Basis of Presentation

Principles of Consolidation

These unaudited condensed consolidated financial statements include the accounts of AMC Networks and its majority owned or controlled subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

Investments in business entities in which the Company lacks control but does have the ability to exercise significant influence over operating and financial policies are accounted for using the equity method of accounting.

Unaudited Interim Financial Statements

These condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and Article 10 of Regulation S-X of the Securities and Exchange Commission ("SEC"), and should be read in conjunction with the Company's consolidated financial statements and notes thereto for the year ended December 31, 2017 contained in the Company's Annual Report on Form 10-K ("2017 Form 10-K") filed with the SEC. The condensed consolidated financial statements presented in this Quarterly Report on Form 10-Q are unaudited; however, in the opinion of management, such financial statements reflect all adjustments, consisting solely of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods presented.

The results of operations for interim periods are not necessarily indicative of the results that might be expected for future interim periods or for the full year ending December 31, 2018.

Program Rights

The Company periodically reviews the programming usefulness of its licensed and owned original program rights based on a series of factors, including expected future revenue generation from airings on the Company's networks and other exploitation opportunities, ratings, type and quality of program material, standards and practices, and fitness for exhibition through various forms of distribution. If it is determined that film or other program rights have limited, or no, future programming usefulness, a write-off of the unamortized cost is included in technical and operating expense. Program rights write-offs were \$5.2 million and \$0.4 million for the three months ended March 31, 2018 and March 31, 2017, respectively.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements; and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. Significant estimates and judgments inherent in the preparation of the consolidated financial statements include derivative assets and liabilities, certain stock compensation awards, the useful lives and methodologies used to amortize and assess recoverability of program rights, the estimated useful lives of intangible assets, valuation and recoverability of goodwill and intangible assets and income tax assets and liabilities.

Financial Assets and Liabilities

The Company adopted Accounting Standards Update ("ASU") No. 2016-01 *Financial Instruments-Recognition and Measurement of Financial Assets and Financial Liabilities* on January 1, 2018, which requires that investments in equity securities

(excluding equity method investments) be measured at fair value with changes in fair value recognized in net earnings. Under prior accounting guidance, changes in fair value of available-for-sale equity securities were recorded in other comprehensive income. The adoption did not have a significant impact to these condensed consolidated financial statements.

Adoption of New Revenue Recognition Standard

The Company adopted ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* on January 1, 2018, using the modified retrospective method for all contracts not completed as of the date of adoption. The reported results as of and for the three-month period ended March 31, 2018 reflect the application of the new standard, while the reported results for 2017 have not been adjusted to reflect the new standard and were prepared under prior revenue recognition accounting guidance.

The adoption of the new standard did not result in significant changes in the way the Company records distribution and advertising revenues. However, as a result of applying the new standard, there are certain components of the Company's distribution revenues where the new standard generally results in earlier recognition of revenue compared to its historical policies due to: (i) the requirement to estimate and recognize variable consideration prior to such amounts becoming fixed and determinable, (ii) recognition of royalties in the period of usage, and (iii) recognition of certain arrangements with minimum guarantees on a time-based (straight-line) basis. See Note 2 for more information. As a result of adopting Topic 606, the Company recorded an increase to opening retained earnings of approximately \$12.8 million, net of tax, as of January 1, 2018.

The following table provides changes to the opening balances of current assets, total assets, current liabilities and total liabilities resulting from the adoption of the new guidance.

(In thousands)	December 31, 2017	Impact of Adoption	January 1, 2018
Current assets	\$ 1,879,850	\$ 3,658	\$ 1,883,508
Total assets	5,032,985	19,899	5,052,884
Current liabilities	744,102	835	744,937
Total liabilities	4,650,436	7,115	4,657,551

The amount by which each financial statement line item has been affected in the current reporting period by the application of Topic 606 compared to historical policies is not material, therefore, comparative disclosures have been omitted.

Recently Issued Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board ("FASB") issued ASU No. 2016-02, *Leases (Topic 842)*. ASU 2016-02 requires lessees to record most of their leases on the balance sheet, which will be recognized as a right-of-use asset and a lease liability. The Company will be required to classify each separate lease component as an operating or finance lease at the lease commencement date. Initial measurement of the right-of-use asset and lease liability is the same for operating and finance leases, however expense recognition and amortization of the right-of-use asset differs. Operating leases will reflect lease expense on a straight-line basis similar to current operating leases. The straight-line expense will reflect the interest expense on the lease liability (effective interest method) and amortization of the right-of-use asset, which will be presented as a single line item in the operating expense section of the income statement. Finance leases will reflect a front-loaded expense pattern similar to the pattern for current capital leases. ASU 2016-02 is effective for the first quarter of 2019, with early adoption permitted. The Company is currently determining its implementation approach and assessing the impact the adoption will have on its consolidated financial statements.

Note 2. Revenue Recognition

Revenue is recognized when, or as, performance obligations under the terms of a contract are satisfied, which generally occurs when, or as, control of the promised products or services is transferred to customers. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transferring products or services to a customer ("transaction price"). To the extent the transaction price includes variable consideration, the Company estimates the amount of variable consideration that should be included in the transaction price utilizing the most likely amount to which the Company expects to be entitled. Variable consideration is included in the transaction price if, in the Company's judgment, it is probable that a significant future reversal of cumulative revenue under the contract will not occur. Estimates of variable consideration and determination of whether to include estimated amounts in the transaction price are based largely on an assessment of the Company's anticipated performance and all information that is reasonably available. Amounts collected on behalf of others (including taxes), where the Company is an agent, are excluded from revenue.

When determining the transaction price of a contract, an adjustment is made if payment from a customer occurs either significantly before or significantly after performance, resulting in a significant financing component. Applying a practical expedient in the new standard, the Company does not assess whether a significant financing component exists if the period between when the Company performs its obligations under the contract and when the customer pays is one year or less.

Contracts with customers may contain multiple performance obligations. For such arrangements, the transaction price is allocated to each performance obligation based on the estimated relative standalone selling prices of the promised products or services underlying each performance obligation. The Company determines standalone selling prices based on the price at which the performance obligation is sold separately. If the standalone selling price is not observable through past transactions, the Company estimates the standalone selling price considering available information such as market conditions and internal pricing guidelines related to the performance obligations.

Contracts may be modified to account for changes in contract specifications and requirements. Contract modifications exist when the modification either creates new or changes existing enforceable rights and obligations. The effect of a contract modification on the transaction price and measure of progress for the performance obligation to which it relates, is recognized as an adjustment to revenue (either as an increase in or a reduction of revenue) on a cumulative catch-up basis.

The Company primarily earns revenue from the distribution of its programming services, including licensing of its programming and other content, and advertising. The Company's revenue recognition policies that summarize the nature, amount, timing and uncertainty associated with each major source of revenue from contracts with customers is described below.

Distribution

The majority of the Company's distribution revenues relate to sales-based and usage-based royalties which are recognized the later of (i) when the subsequent sale or usage occurs and (ii) the performance obligation to which some or all of the sales-based or usage-based royalty has been allocated has been satisfied or partially satisfied. Occasionally, the Company incurs costs to obtain a distribution contract and these costs are amortized over the period of the related distribution contract as a reduction of revenue.

Subscription fee revenue: Subscription fees are earned from cable and other multichannel video programming distribution platforms, including direct broadcast satellite ("DBS"), platforms operated by telecommunications providers and virtual multichannel video programming distributors (collectively "distributors"), for the rights to use the Company's network programming under multi-year contracts, commonly referred to as "affiliation agreements." The Company's performance obligations under affiliation agreements are satisfied as the Company provides its programming over the term of the agreement. The transaction price is represented by subscription fees that are generally based upon (i) contractual rates applied to the number of the distributor's subscribers who receive or can receive our programming ("rate-per-subscriber"), or (ii) fixed contractual monthly fees ("fixed fee").

For rate-per-subscriber agreements, the Company applies the sales-based or usage-based royalty guidance, and accordingly, recognizes revenue in the period of the distributor's usage, based on the subscription fee earned during the period.

Fixed fee affiliation agreements are generally billed in monthly installments, and such amounts may vary over the term of the contract. In cases where the invoice amount corresponds directly with the value to the affiliate of the performance to-date, the Company recognizes revenue based on the invoiced amount. In cases where changes in fees during the contract term do not correspond directly to the value of the performance to-date (for example, if the fees vary over the contract term due to a significant financing or credit risk component), the Company recognizes the total amount of fixed transaction price over the contract period using a time-based (e.g., straight-line) measure of progress.

Certain of the Company's fixed fee affiliation agreements contain guaranteed minimum fees that are recoupable during the term of the agreement, and variable fees based on rates-per-subscriber after the guaranteed minimum is recouped. The Company recognizes revenue for the fixed consideration over the minimum guarantee period and recognizes variable fees only when cumulative consideration exceeds the minimum guarantee.

Subscription revenue from the Company's direct-to-consumer subscription streaming services is recognized as the streaming service is provided to customers.

Content licensing revenue: The Company licenses its original programming content to certain distributors under subscription video on-demand ("SVOD"), pay-per-view ("PPV") and electronic sell-through ("EST") arrangements. Under these arrangements, our performance obligation is to provide the distributor the right to use our programming as it exists at a point in time.

For SVOD arrangements, the Company adjusts the transaction price for the time value of money in cases where license fees are paid over several years. SVOD licensing revenue is recognized at the later of the beginning of the license period, or when we provide the programming to the distributor. The Company recognizes a contract asset for the difference between the revenue recognized and the amount we are permitted to invoice.

For PPV and EST license fee arrangements, the Company applies the sales-based or usage-based royalty guidance and recognizes revenue in the period of end-customer purchases, based on the fees earned during the period.

The Company also licenses trademarks, logos, brands, derivative character copyrights, etc. under multi-year arrangements. Under these arrangements, the Company may receive a non-refundable minimum guarantee that is recoupable against a volume-based royalty throughout the term of the agreement. The Company adjusts the transaction price for the time value of money in cases where license fees are paid over several years. The Company recognizes revenue for the minimum guarantee on a straight-line basis over the term of the agreement, and recognizes variable fees only when cumulative consideration exceeds the minimum guarantee.

The Company's payment terms vary by the type and location of customer. Generally, payment terms are 30-45 days after revenue is earned. In certain limited circumstances, agreements with customers have payment terms in excess of one-year after satisfaction of the performance obligation.

Advertising

The Company generates revenues from the sale of advertising time on its networks. In such arrangements, the Company generally promises to air a certain number of commercials (spots) and to generate guaranteed viewer ratings for an audience demographic (impressions) over a period that generally does not exceed one year. The promise to deliver impressions by airing spots represents the Company's performance obligation. Advertising revenues are recognized, net of agency commissions, as commercials are aired, to the extent that guaranteed viewer ratings are achieved. A contract liability is recognized to the extent the guaranteed viewer ratings are not met, and is subsequently recognized as revenue either when the Company provides the required additional advertising or the guarantee obligation contractually expires, which is generally within one year. Generally, payment terms are 30 days after revenue is earned.

Transaction Price Allocated to Future Performance Obligations

The new standard requires disclosure of the aggregate amount of transaction price that is allocated to performance obligations that have not yet been satisfied as of March 31, 2018. However, the guidance does not apply to sales-based or usage-based royalty arrangements and also provides certain practical expedients that allow companies to omit this disclosure requirement for (i) contracts with an original expected length of one year or less, (ii) contracts for which revenue is recognized at the amount to which the Company has the right to invoice for services performed and (iii) variable consideration related to a wholly unsatisfied performance obligation.

As of March 31, 2018, other than contracts for which the Company has applied the practical expedients, the aggregate amount of transaction price allocated to remaining performance obligations was not material to our consolidated revenues.

Contract Balances from Contracts with Customers

The timing of revenue recognition, billings and cash collections results in billed receivables, contract assets and contract liabilities on the Consolidated Balance Sheet.

For certain types of contracts with customers, the Company may recognize revenue in advance of the contractual right to invoice the customer, resulting in an amount recorded to contract assets. Once the Company has an unconditional right to consideration under a contract, the contract assets are reclassified to account receivables.

When consideration is received, or such consideration is unconditionally due, from a customer prior to transferring goods or services to the customer under the terms of a contract, a contract liability is recorded. Contract liabilities are recognized as revenue when, or as, control of the products or services is transferred to the customer and all revenue recognition criteria have been met. The primary source of the Company's contract liabilities relates to advertising sales arrangements and content licensing arrangements. As noted above, the Company's programming networks generally guarantee viewer ratings for its programming. If these guaranteed viewer ratings are not met, the Company is required to provide additional advertising units to the advertiser. For these types of arrangements, a portion of the related revenue is deferred if the guaranteed ratings are not met, representing a contract liability, and is subsequently recognized either when the Company provides the required additional advertising time or the guarantee obligation contractually expires. In certain content licensing arrangements, payment may be received in advance of a distributor's ability to exhibit a program. Such payments are recorded as a contract liability and subsequently recognized when the program becomes available for exhibition.

The following table provides information about receivables, contract assets, and contract liabilities from contracts with customers.

(In thousands)	March 31, 2018	December 31, 2017 ^(a)

Contract liabilities (Deferred revenue)	51,916	46,433

(a) As noted above, prior period amounts have not been adjusted under the modified retrospective method.

Revenue recognized for the three months ended March 31, 2018 relating to the contract liability at December 31, 2017 was \$12.2 million.

Note 3. Net Income per Share

The following is a reconciliation between basic and diluted weighted average shares outstanding:

(In thousands)	Three Months Ended March 31,	
	2018	2017
Basic weighted average common shares outstanding	60,967	68,020
Effect of dilution:		
Restricted stock units	752	744
Diluted weighted average common shares outstanding	61,719	68,764

For the three months ended March 31, 2018, there were 388,000 stock options and 170,000 restricted stock units that would have been anti-dilutive to the diluted weighted average common shares outstanding. Approximately 195,000 and 175,000 restricted stock units for the three months ended March 31, 2018 and March 31, 2017, respectively, have been excluded from diluted weighted average common shares outstanding since a performance condition for these awards was not met in each of the respective periods. The Company did not include performance restricted stock units in the calculation of diluted EPS, since the performance conditions for these awards were not met.

Stock Repurchase Program

On March 7, 2016, the Company announced that its Board of Directors authorized a program to repurchase up to \$500 million of its outstanding shares of common stock (the "2016 Stock Repurchase Program"). On June 6, 2017, the Board of Directors approved an increase of \$500 million in the amount authorized for a total of \$1.0 billion authorized under the 2016 Stock Repurchase Program. The 2016 Stock Repurchase Program has no pre-established closing date and may be suspended or discontinued at any time. For the three months ended March 31, 2018, the Company repurchased 1.6 million shares of its Class A common stock at an average purchase price of approximately \$50.77 per share. As of March 31, 2018, the Company has \$258.9 million available for repurchase under the 2016 Stock Repurchase Program.

Note 4. Investments

The Company holds several investments and loans in non-consolidated entities. Equity method investments were \$81.4 million at March 31, 2018 and \$61.3 million at December 31, 2017. Cost method investments were \$71.8 million at March 31, 2018 and \$46.8 million at December 31, 2017. Equity and cost method investments are included in Other assets in the condensed consolidated balance sheet.

RLJE

On January 5, 2018, a subsidiary of the Company entered into a Stock Purchase Agreement (the "Stock Purchase Agreement") with JH Partners Evergreen Fund, L.P., Forrestal, LLC, JH Investment Partners III, L.P., and JH Investment Partners GP Fund III, LLC (collectively, "JH Partners"). Under the terms of the Stock Purchase Agreement, the Company purchased (i) 678,095 shares of common stock of RLJ Entertainment, Inc., ("RLJE"), (ii) 747,945 warrants to purchase shares of common stock of RLJE with an adjusted exercise price of \$1.50 per share issued, and (iii) 7,479,432 shares of Series D-1 preferred stock of RLJE. The total purchase price was \$17.2 million.

On February 26, 2018, the Company delivered a letter to RLJE pursuant to which the Company proposed to acquire all of the outstanding shares of RLJE not currently owned by the Company or entities affiliated with Robert L. Johnson for a purchase price of \$4.25 per share in cash. Through this offer, the Company intends for RLJE to become a majority-owned subsidiary of the Company, with a minority stake held by Mr. Johnson. The board of directors of RLJE has formed a special committee of independent directors to consider the proposal. There can be no assurance that the proposal made by the Company to RLJE will result in a transaction or the terms upon which any transaction may occur.

Other Investments

On March 5, 2018, the Company made an investment in fuboTV Inc. of \$25.0 million, which is accounted for as a cost method investment.

Note 5. Goodwill and Other Intangible Assets

The carrying amount of goodwill, by operating segment is as follows:

(In thousands)	National Networks	International and Other	Total
December 31, 2017	\$ 239,759	\$ 455,399	\$ 695,158
Amortization of "second component" goodwill	(328)	—	(328)
Foreign currency translation	—	12,824	12,824
March 31, 2018	\$ 239,431	\$ 468,223	\$ 707,654

The reduction of \$0.3 million in the carrying amount of goodwill for the National Networks is due to the realization of a tax benefit for the amortization of "second component" goodwill at SundanceTV. Second component goodwill is the amount of tax deductible goodwill in excess of goodwill for financial reporting purposes. In accordance with the authoritative guidance at the time of the SundanceTV acquisition, the tax benefits associated with this excess are applied to first reduce the amount of goodwill, and then other intangible assets for financial reporting purposes, if and when such tax benefits are realized in the Company's tax returns.

Note 8. Fair Value Measurement

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. Observable inputs reflect assumptions market participants would use in pricing an asset or liability based on market data obtained from independent sources while unobservable inputs reflect a reporting entity's pricing based upon their own market assumptions. The fair value hierarchy consists of the following three levels:

- Level I - Quoted prices for identical instruments in active markets.
- Level II - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level III - Instruments whose significant value drivers are unobservable.

The following table presents for each of these hierarchy levels, the Company's financial assets and liabilities that are measured at fair value on a recurring basis at March 31, 2018 and December 31, 2017:

(In thousands)	Level I		Level II		Level III		Total	
At March 31, 2018:

Other derivatives		—		6,174		30,891		37,065
Liabilities:								
Foreign currency derivatives	\$	—	\$	4,475	\$	—	\$	4,475

The Company's cash equivalents and marketable securities are classified within Level I of the fair value hierarchy because they are valued using quoted market prices.

The Company's interest rate swap contracts, foreign currency derivatives and the embedded derivative for the interest on the RLJE Term Loans to be paid in shares of RLJE common stock (see Note 9) are classified within Level II of the fair value hierarchy and their fair values are determined based on a market approach valuation technique that uses readily observable market parameters and the consideration of counterparty risk.

On October 14, 2016, Digital Entertainment Holdings LLC ("DEH"), a wholly-owned subsidiary of the Company, and RLJE entered into a Credit and Guaranty Agreement pursuant to which DEH provided term loans to RLJE (the "RLJE Term Loans"). In connection with the RLJE Credit and Guaranty Agreement, DEH received warrants to purchase at least 20 million shares of RLJE's common stock, at a price of \$3.00 per share (the "RLJE Warrants"). The RLJE Warrants held by the Company are classified within Level III of the fair value hierarchy and the Company determines the value of the RLJE Warrants using a Black Scholes option pricing model. Inputs to the model are stock price volatility, contractual warrant terms (remaining life of the warrants), exercise price, risk-free interest rate, and the RLJE stock price. The equity volatility used is based on the equity volatility of RLJE with an adjustment for the changes in the capital structure of RLJE. In arriving at the concluded value of the warrants, a discount for the lack of marketability (DLOM) of 32% was applied. The DLOM, which is unobservable, is determined using the Finnerty Average-Strike Put Option Marketability Discount Model (Finnerty Model), which was applied with a security-specific volatility for the warrants. For the three months ended March 31, 2018 and 2017, the Company recorded a gain of \$8.1 million and \$8.9 million, respectively, related to the RLJE Warrants which is included in Miscellaneous, net in the condensed consolidated statement of income.

At March 31, 2018, the Company does not have any other assets or liabilities measured at fair value on a recurring basis that would be considered Level III.

Fair value measurements are also used in nonrecurring valuations performed in connection with acquisition accounting. These nonrecurring valuations primarily include the valuation of affiliate and customer relationships intangible assets, advertiser relationship intangible assets and property and equipment. All of our nonrecurring valuations use significant unobservable inputs and therefore fall under Level III of the fair value hierarchy.

Credit Facility Debt and Senior Notes

The fair values of each of the Company's debt instruments are based on quoted market prices for the same or similar issues or on the current rates offered to the Company for instruments of the same remaining maturities.

The carrying values and estimated fair values of the Company's financial instruments, excluding those that are carried at fair value in the condensed consolidated balance sheets, are summarized as follows:

	March 31, 2018	
(In thousands)	Carrying Amount	Estimated Fair Value
Debt instruments:		
Term Loan A Facility	\$ 737,774	\$ 748,125

4.75% Notes due December 2022	593,304	612,750
	\$ 3,099,257	\$ 3,166,375

Fair value estimates related to the Company's debt instruments presented above are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgments and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Note 9. Derivative Financial Instruments

Interest Rate Risk

To manage interest rate risk, the Company enters into interest rate swap contracts to adjust the amount of total debt that is subject to variable interest rates.

As of March 31, 2018, the Company had interest rate swap contracts outstanding with notional amounts aggregating \$200.0 million that are not designated as hedging instruments. The Company's outstanding interest rate swap contracts mature in October 2018.

Foreign Currency Exchange Rate Risk

We are exposed to foreign currency risk to the extent that we enter into transactions denominated in currencies other than our or our subsidiaries' respective functional currencies (non-functional currency risk), such as affiliation agreements, programming contracts, certain accounts payable and trade receivables (including intercompany amounts) that are denominated in a currency other than the applicable functional currency.

Other Derivatives

The RLJE Warrants held by the Company meet the definition of a derivative and are included in Other assets in the consolidated balance sheet. In addition, the interest on the RLJE Term Loans to be paid in shares of RLJE common stock is an embedded derivative. Both the RLJE Warrants and the embedded derivative for the future interest to be paid in shares of RLJE common stock are remeasured at the end of each period with changes in fair value recorded in the consolidated statements of income. For the three months ended March 31, 2018 and 2017, the Company recorded a gain of \$11.7 million and \$11.1 million, respectively, related to these derivatives, which is included in Miscellaneous, net in the condensed consolidated statement of income.

Note 10. Income Taxes

For the three months ended March 31, 2018, income tax expense was \$56.9 million, representing an effective tax rate of 26%. The effective tax rate differs from the federal statutory rate of 21% due primarily to tax expense of \$16.4 million for an increase in valuation allowances for foreign taxes and U.S. foreign tax credits, tax benefit of \$8.3 million for the one-time rate change on deferred tax assets and liabilities that resulted from the extension of certain television production cost deductions included in the Bipartisan Budget Act of 2018 (enacted February 9, 2018), tax benefit from foreign subsidiary earnings indefinitely reinvested outside the U.S. of \$4.9 million and state income tax expense of \$3.8 million.

For the three months ended March 31, 2017, income tax expense was \$73.1 million, representing an effective tax rate of 34%. The effective tax rate differs from the federal statutory rate of 35% due primarily to tax benefit from domestic production activities deduction of \$5.9 million, tax benefit from foreign subsidiary earnings indefinitely reinvested outside the U.S. of \$4.1

million, state income tax expense of \$3.4 million and tax expense of \$2.3 million for an increase in valuation allowances for foreign taxes.

At March 31, 2018, the Company had foreign tax credit carry forwards of approximately \$15.6 million, expiring on various dates from 2024 through 2025. These carryforwards have been reduced by a valuation allowance of \$15.6 million as it is more likely than not that these carry forwards will not be realized. For the three months ended March 31, 2018, \$0.3 million relating to amortization of tax deductible second component goodwill was realized as a reduction in tax liability (as determined on a 'with-and-without' approach).

Note 11. Commitments and Contingencies

Commitments

As of March 31, 2018, the Company's contractual obligations not reflected on the Company's condensed consolidated balance sheet decreased \$154.7 million to \$1.2 billion. The decrease relates primarily to the expiration of payment guarantees to a production service company for certain production related costs.

Legal Matters

On December 17, 2013, Frank Darabont ("Darabont"), Ferenc, Inc., Darkwoods Productions, Inc., and Creative Artists Agency, LLC (together, the "2013 Plaintiffs"), filed a complaint in New York Supreme Court in connection with Darabont's rendering services as a writer, director and producer of the television series entitled *The Walking Dead* and the agreement between the parties related thereto. The Plaintiffs asserted claims for breach of contract, breach of the covenant of good faith and fair dealing, for an accounting and for declaratory relief. On August 19, 2015, Plaintiffs filed their First Amended Complaint (the "Amended Complaint"), in which they retracted their claims for wrongful termination and failure to apply production tax credits in calculating Plaintiffs' contingent compensation. Plaintiffs also added a claim that Darabont is entitled to a larger share, on a percentage basis, of contingent compensation than he is currently being accorded. On September 26, 2016, Plaintiffs filed their note of issue and certificate of readiness for trial, which included a claim for damages of \$280 million. The parties each filed motions for summary judgment. Oral arguments of the summary judgment motions took place on September 15, 2017. On April 19, the Court granted the Company's motion for leave to submit supplemental summary judgment briefing, which will be fully submitted by May 21, 2018. A hearing on the supplemental summary judgment submissions will be held on June 13, 2018. The Company has opposed Plaintiffs' claims. The Company believes that the asserted claims are without merit, denies the allegations and continues to defend the case vigorously. At this time, no determination can be made as to the ultimate outcome of this litigation or the potential liability, if any, on the part of the Company.

On January 18, 2018, the 2013 Plaintiffs filed a second action in New York Supreme Court in connection with Darabont's services on *The Walking Dead* television series and agreements between the parties related thereto. The claims in the action allegedly arise from Plaintiffs' audit of their participation statements covering the accounting period from inception of *The Walking Dead* through September 30, 2014. Plaintiffs seek no less than \$20 million in damages on claims for breach of contract, breach of the covenant of good faith and fair dealing, and declaratory relief. Plaintiffs also seek a judicial determination that their contracts with the Company entitle them to an "actual fair market license fee" in connection with AMC Networks telecasting of *The Walking Dead*, which they allege is "substantially better than" what they received. The Company file an Answer to the Complaint on April 16, and the parties have agreed to consolidate this action for a joint trial with the action Plaintiffs filed in the New York Supreme Court on December 17, 2013. The Company believes that the asserted claims are without merit, denies the allegations and will defend the case vigorously. At this time, no determination can be made as to the ultimate outcome of this litigation or the potential liability, if any, on the part of the Company.

On August 14, 2017, Robert Kirkman, Robert Kirkman, LLC, Glen Mazzara, 44 Strong Productions, Inc., David Alpert, Circle of Confusion Productions, LLC, New Circle of Confusion Productions, Inc., Gale Anne Hurd, and Valhalla Entertainment, Inc. f/k/a Valhalla Motion Pictures, Inc. (together, the "California Plaintiffs") filed a complaint in California Superior Court in connection with California Plaintiffs' rendering of services as writers and producers of the television series entitled *The Walking Dead*, as well as *Fear the Walking Dead* and/or *Talking Dead*, and the agreements between the parties related thereto (the "California Action"). The California Plaintiffs asserted that the Company has been improperly underpaying the California Plaintiffs under their contracts with the Company and they assert claims for breach of contract, breach of the covenant of good faith and fair dealing, inducing breach of contract, and liability for violation of Cal. Bus. & Prof. Code § 17200. On August 15, 2017, two of the California Plaintiffs, Gale Anne Hurd and David Alpert (and their associated production companies), along with Charles Eglee and his production company, United Bongo Drum, Inc., filed a complaint in New York Supreme Court alleging nearly identical claims as the California Action (the "New York Action"). Hurd, Alpert, and Eglee filed the New York Action in connection with their contract claims involving *The Walking Dead* because their agreements contained exclusive New York jurisdiction provisions. On October 23, 2017, the parties stipulated to discontinuing the New York Action without prejudice and consolidating all of the claims in the California Action. The California Plaintiffs seek compensatory and punitive damages and restitution. The Company filed an Answer

on April 30, 2018 and believes that the asserted claims are without merit and will vigorously defend against them. At this time, no determination can be made as to the ultimate outcome of this litigation or the potential liability, if any, on the part of the Company.

The Company is party to various lawsuits and claims in the ordinary course of business, including the matters described above. Although the outcome of these matters cannot be predicted with certainty and while the impact of these matters on the Company's results of operations in any particular subsequent reporting period could be material, management does not believe that the resolution of these matters will have a material adverse effect on the financial position of the Company or the ability of the Company to meet its financial obligations as they become due.

Note 12. Equity Plans

In March 2018, AMC Networks granted 684,737 restricted stock units ("RSUs") and 537,403 performance restricted stock units ("PRSUs") to certain executive officers and employees under the AMC Networks Inc. 2016 Employee Stock Plan. The RSUs vest ratably over a three-year period and the vesting criteria for 195,028 RSUs include the achievement of certain performance targets by the Company. The PRSUs vest on the third anniversary of the grant date.

The target number of PRSUs granted represents the right to receive a corresponding number of shares, subject to adjustment based on the performance of the Company against target performance criteria for a three-year period. The number of shares issuable at the end of the applicable measurement period ranges from 0% to 200% of the target PRSU award.

During the three months ended March 31, 2018, 707,624 RSUs of AMC Networks Class A Common Stock previously issued to employees of the Company vested. On the vesting date, 289,555 RSUs were surrendered to the Company to cover the required statutory tax withholding obligations and 418,069 new shares of AMC Networks Class A Common Stock were issued in respect of the remaining RSUs. The units surrendered to satisfy the employees' statutory minimum tax withholding obligations for the applicable income and other employment tax had an aggregate value of \$15.4 million, which has been reflected as a financing activity in the condensed consolidated statement of cash flows for the three months ended March 31, 2018.

Share-based compensation expense included in selling, general and administrative expense, for the three months ended March 31, 2018 and March 31, 2017 was \$15.3 million and \$12.5 million, respectively.

As of March 31, 2018, there was \$133.8 million of total unrecognized share-based compensation cost related to outstanding unvested share-based awards. The unrecognized compensation cost is expected to be recognized over a weighted-average remaining period of approximately 2.7 years.

Note 13. Redeemable Noncontrolling Interests

The following table summarizes activity related to redeemable noncontrolling interest for the three months ended March 31, 2018.

(In thousands)	Three Months Ended March 31, 2018

Note 14. Related Party Transactions

Members of the Dolan Family, for purposes of Section 13(d) of the Securities Exchange Act of 1934, as amended, including trusts for the benefit of the Dolan Family, collectively beneficially own all of the AMC Networks outstanding Class B Common Stock and own approximately 2% of the AMC Networks' outstanding Class A Common Stock. Such shares of the AMC Networks Class A Common Stock and Class B Common Stock, collectively, represent approximately 71% of the aggregate voting power of AMC Networks' outstanding common stock. Members of the Dolan Family are also the controlling stockholders of The Madison Square Garden Company ("MSG") and MSG Networks Inc. ("MSG Networks").

The Company and its related parties routinely enter into transactions with each other in the ordinary course of business. Revenues, net from related parties amounted to \$1.6 million for the three months ended March 31, 2018 and 2017, respectively. Note 16. Segment Information

The Company classifies its operations into two operating segments: National Networks and International and Other. These operating segments represent strategic business units that are managed separately.

The Company generally allocates all corporate overhead costs within operating expenses to the Company's two operating segments based upon their proportionate estimated usage of services, including such costs as executive salaries and benefits, costs of maintaining corporate headquarters, facilities and common support functions (such as human resources, legal, finance, strategic planning and information technology) as well as sales support functions and creative and production services.

The Company evaluates segment performance based on several factors, of which the primary financial measure is operating segment adjusted operating income ("AOI"), a non-GAAP measure, defined as operating income (loss) before depreciation and amortization, share-based compensation expense or benefit, impairment and related charges (including gains or losses on sales or dispositions of businesses), and restructuring expense or credit. The Company has presented the components that reconcile adjusted operating income to operating income, an accepted GAAP measure, and other information as to the continuing operations of the Company's operating segments below.

Note 17. Condensed Consolidating Financial Statements

Debt of AMC Networks includes \$600 million of 4.75% senior notes due December 2022, \$1 billion of 5.00% senior notes due April 2024 and \$800 million of 4.75% senior notes due August 2025. All outstanding senior notes issued by AMC Networks (for purposes of this Note 18, "Parent Company") are guaranteed on a senior unsecured basis by certain of its existing and future domestic restricted subsidiaries (the "Guarantor Subsidiaries"). All Guarantor Subsidiaries are owned 100% by AMC Networks. The outstanding notes are fully and unconditionally guaranteed by the Guarantor Subsidiaries on a joint and several basis.

AMC NETWORKS INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (Continued)
(unaudited)

Set forth below are condensed consolidating financial statements presenting the financial position, results of operations, comprehensive income, and cash flows of (i) the Parent Company, (ii) the Guarantor Subsidiaries on a combined basis (as such guarantees are joint and several), (iii) the direct and indirect non-guarantor subsidiaries of the Parent Company (the "Non-Guarantor Subsidiaries") on a combined basis and (iv) reclassifications and eliminations necessary to arrive at the information for the Company on a consolidated basis.

Basis of Presentation

In presenting the condensed consolidating financial statements, the equity method of accounting has been applied to (i) the Parent Company's interests in the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries, and (ii) the Guarantor Subsidiaries' interests in the Non-Guarantor Subsidiaries, even though all such subsidiaries meet the requirements to be consolidated under GAAP. All intercompany balances and transactions between the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries have been eliminated, as shown in the column "Eliminations."

The accounting basis in all subsidiaries, including goodwill and identified intangible assets, have been allocated to the applicable subsidiaries.

Note 18. Subsequent Event

On April 20, 2018, the Company acquired a majority ownership interest in Levity Entertainment Group LLC ("Levity"), a vertically integrated media company that owns and operates comedy venues as well as produces original content for distribution on multiple platforms, including live, digital and linear, for a total purchase price of \$48.5 million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This Management's Discussion and Analysis of Financial Condition and Results of Operations contains statements that constitute forward-looking information within the meaning of the Private Securities Litigation Reform Act of 1995. In this Management's Discussion and Analysis of Financial Condition and Results of Operations there are statements concerning our future operating results and future financial performance. Words such as "expects," "anticipates," "believes," "estimates," "may," "will," "should," "could," "potential," "continue," "intends," "plans" and similar words and terms used in the discussion of future operating results and future financial performance identify forward-looking statements. You are cautioned that any such forward-looking statements are not guarantees of future performance or results and involve risks and uncertainties and that actual results or developments may differ materially from the forward-looking statements as a result of various factors. Factors that may cause such differences to occur include, but are not limited to:

- the level of our revenues;
- market demand, including changes in viewer consumption patterns, for our programming networks, our subscription streaming services, and our programming;
- demand for advertising inventory and our ability to deliver guaranteed viewer ratings;
- the highly competitive nature of the cable, telecommunications and programming industries;
- our ability to maintain and renew distribution or affiliation agreements with distributors;
- the cost of, and our ability to obtain or produce, desirable programming content for our networks, other forms of distribution, including digital and licensing in international markets, as well as our independent film distribution businesses;
- market demand for our owned original programming and our independent film content;
- the security of our program rights and other electronic data;
- the loss of any of our key personnel and artistic talent;
- changes in domestic and foreign laws or regulations under which we operate;
- economic and business conditions and industry trends in the countries in which we operate;
- fluctuations in currency exchange rates and interest rates;
- changes in laws or treaties relating to taxation, or the interpretation thereof, in the U.S. or in the countries in which we operate, including the impact of the Tax Cuts and Jobs Act and the Bipartisan Budget Act of 2018;
- our substantial debt and high leverage;
- reduced access to capital markets or significant increases in costs to borrow;
- the level of our expenses;
- the level of our capital expenditures;
- future acquisitions and dispositions of assets;
- our ability to successfully acquire new businesses and, if acquired, to integrate, and implement our plan with respect to businesses we acquire;
- problems we may discover post-closing with the operations, including the internal controls and financial reporting process, of businesses we acquire;
- uncertainties regarding the financial results of equity method investees and changes in the nature of key strategic relationships with partners and joint ventures;
- the outcome of litigation and other proceedings;
- whether pending uncompleted transactions, if any, are completed on the terms and at the times set forth (if at all);
- other risks and uncertainties inherent in our programming businesses;
- financial community and rating agency perceptions of our business, operations, financial condition and the industry in which we operate;
- events that are outside our control, such as political unrest in international markets, terrorist attacks, natural disasters and other similar events; and
- the factors described under Item 1A, "Risk Factors" in our 2017 Annual Report on Form 10-K (the "2017 Form 10-K"), as filed with the Securities and Exchange Commission ("SEC").

We disclaim any obligation to update or revise the forward-looking statements contained herein, except as otherwise required by applicable federal securities laws.

Introduction

Management's discussion and analysis, or MD&A, of our results of operations and financial condition is provided as a supplement to, and should be read in conjunction with, the unaudited condensed consolidated financial statements and notes thereto included elsewhere herein and our 2017 Form 10-K to enhance the understanding of our financial condition, changes in financial condition and results of our operations. Unless the context otherwise requires, all references to "we," "us," "our," "AMC Networks" or the "Company" refer to AMC Networks Inc., together with its subsidiaries. MD&A is organized as follows:

Business Overview. This section provides a general description of our business and our operating segments, as well as other matters that we believe are important in understanding our results of operations and financial condition and in anticipating future trends.

Consolidated Results of Operations. This section provides an analysis of our results of operations for the three months ended March 31, 2018 compared to the three months ended March 31, 2017. Our discussion is presented on both a consolidated and operating segment basis. Our two operating segments are: (i) National Networks and (ii) International and Other.

Liquidity and Capital Resources. This section provides a discussion of our financial condition as of March 31, 2018, as well as an analysis of our cash flows for the three months ended March 31, 2018 and 2017. The discussion of our financial condition and liquidity includes summaries of (i) our primary sources of liquidity and (ii) our contractual obligations that existed at March 31, 2018 as compared to December 31, 2017.

Critical Accounting Policies and Estimates. This section provides an update, if any, to our significant accounting policies or critical accounting estimates since December 31, 2017.

Business Overview

We manage our business through the following two operating segments:

- *National Networks:* Includes activities of our five national programming networks, AMC Studios operations and AMC Broadcasting & Technology. Our national programming networks are AMC, WE tv, BBC AMERICA, IFC and SundanceTV in the U.S.; and AMC and IFC in Canada. Our AMC Studios operations produces original programming for our programming networks and also licenses such program rights worldwide. AMC Networks Broadcasting & Technology is our technical services business, which primarily services most of the national programming networks.
- *International and Other:* Principally includes AMC Networks International (AMCNI), the Company's international programming businesses consisting of a portfolio of channels in Europe, Latin America, the Middle East and parts of Asia and Africa; IFC Films, the Company's independent film distribution business; and our subscription streaming services, Sundance Now and Shudder. AMCNI – DMC, the broadcast solutions unit of certain networks of AMCNI and third-party networks is included through the date sold, July 12, 2017.

Financial Results Overview

The tables presented below set forth our consolidated revenues, net, operating income (loss) and adjusted operating income ("AOI"), defined below, for the periods indicated.

Consolidated AOI	<u>\$ 269,328</u>	<u>\$ 270,332</u>

We evaluate segment performance based on several factors, of which the primary financial measure is operating segment AOI. We define AOI, which is a financial measure that is not calculated in accordance with generally accepted accounting principles ("GAAP"), as operating income (loss) before depreciation and amortization, share-based compensation expense or benefit, impairment and related charges (including gains or losses on sales or dispositions of businesses), and restructuring expense or credit.

We believe that AOI is an appropriate measure for evaluating the operating performance on both an operating segment and consolidated basis. AOI and similar measures with similar titles are common performance measures used by investors, analysts and peers to compare performance in the industry.

Internally, we use revenues, net and AOI measures as the most important indicators of our business performance, and evaluate management's effectiveness with specific reference to these indicators. AOI should be viewed as a supplement to and not a substitute for operating income (loss), net income (loss), cash flows from operating activities and other measures of performance and/or liquidity presented in accordance with GAAP. Since AOI is not a measure of performance calculated in accordance with GAAP, this measure may not be comparable to similar measures with similar titles used by other companies.

The following is a reconciliation of consolidated operating income to AOI for the periods indicated:

(In thousands)	Three Months Ended March 31,

National Networks

In our National Networks segment, which accounted for 85% of our consolidated revenues for the three months ended March 31, 2018, we earn revenue principally from the distribution of our programming and the sale of advertising. Distribution revenue primarily includes subscription fees paid by distributors to carry our programming networks and license fees paid to us for the licensing of original programming for digital, foreign and home video distribution. Subscription fees paid by distributors

represent the largest component of distribution revenue. Our subscription revenues are generally based on a per subscriber fee under multi-year contracts, commonly referred to as "affiliation agreements," which generally provide for annual rate increases. The specific subscription revenues we earn vary from period to period, distributor to distributor and also vary among our networks, but are generally based upon the number of each distributor's subscribers who receive our programming, referred to as viewing subscribers. The terms of certain other affiliation agreements provide that the subscription fee revenues we earn are a fixed contractual monthly fee, which could be adjusted for acquisitions and dispositions of multichannel video programming systems by the distributor. Content licensing revenue from the licensing of original programming for digital and foreign distribution is recognized upon availability or distribution by the licensee.

Under affiliation agreements with our distributors, we have the right to sell a specified amount of national advertising time on our programming networks. Our advertising revenues are more variable than subscription revenues because the majority of our advertising is sold on a short-term basis, not under long-term contracts. Our advertising arrangements with advertisers provide for a set number of advertising units to air over a specific period of time at a negotiated price per unit for which our programming networks generally guarantee specified viewer ratings for their programming.

Our principal goal is to increase our revenues by increasing distribution and penetration of our services, and increasing our ratings. To do this, we must continue to contract for and produce high-quality, attractive programming. As competition for programming increases and alternative distribution technologies continue to expand in the industry, costs for content acquisition and original programming may increase. There is a concentration of subscribers in the hands of a few distributors, which could create disparate bargaining power between the largest distributors and us by giving those distributors greater leverage in negotiating the price and other terms of affiliation agreements.

Programming expense, included in technical and operating expense, represents the largest expense of the National Networks segment and primarily consists of amortization and write-offs of programming rights, such as those for original programming, feature films and licensed series, as well as participation and residual costs. The other components of technical and operating expense primarily include distribution and production related costs and program operating costs, such as origination, transmission, uplinking and encryption.

To an increasing extent, the success of our business depends on original programming, both scripted and unscripted, across all of our networks. The timing of exhibition and distribution of original programming varies from period to period, which results in greater variability in our revenues, earnings and cash flows from operating activities. We will continue to increase our investment in programming across all of our channels. There may be significant changes in the level of our technical and operating expenses due to the amortization of content acquisition and/or original programming costs and/or the impact of management's periodic assessment of programming usefulness. Such costs will also fluctuate with the level of revenues derived from owned original programming in each period as these costs are amortized based on the film-forecast-computation method.

Most original series require us to make up-front investments, which are often significant amounts. Not all of our programming efforts are commercially successful, which could result in a write-off of program rights. If it is determined that programming rights have no future programming usefulness based on actual demand or market conditions, a write-off of the unamortized cost is recorded in technical and operating expense. Program rights write-offs of \$4.6 million and \$0.4 million were recorded for the three months ended March 31, 2018 and March 31, 2017, respectively.

International and Other

Our International and Other segment primarily includes the operations of AMCNI, IFC Films and our subscription streaming services (i.e. Sundance Now and Shudder). The AMCNI – DMC business was sold on July 12, 2017.

In our International and Other segment, which accounted for 15% of our consolidated revenues for the three months ended March 31, 2018, we earn revenue principally from the international distribution of programming and, to a lesser extent, the sale of advertising. Distribution revenue primarily includes subscription fees paid by distributors to carry our programming networks. Our subscription revenues are generally based on either a per-subscriber fee or a fixed contractual annual fee, under multi-year affiliation agreements, which may provide for annual rate increases. For the three months ended March 31, 2018, distribution revenues represented 80% of the revenues of the International and Other segment. Most of these revenues are derived from the distribution of our programming networks primarily in Europe and to a lesser extent, Latin America, the Middle East and parts of Asia and Africa. The International and Other segment also includes IFC Films, our independent film distribution business where revenues are derived principally from theatrical, digital and licensing distribution. Our subscription streaming services are available in the United States, Canada and parts of Europe.

Programming and program operating costs, included in technical and operating expense, represents the largest expense of the International and Other segment and primarily consists of amortization of acquired content, costs of dubbing and sub-titling of programs, and participation and residual costs. Program operating costs include costs such as origination, transmission, uplinking and encryption of our linear AMCNI channels as well as content hosting and delivery costs at our various on-line content distribution initiatives. Not all of our programming efforts are commercially successful, which could result in a write-off of program rights.

If it is determined that programming rights have limited, or no, future programming usefulness based on actual demand or market conditions, a write-off of the unamortized cost is recorded in technical and operating expense.

We view our investments in international expansion and our various developing on-line content distribution initiatives as important long-term strategies. We may experience an adverse impact to the International and Other segment's operating results and cash flows in periods of increased investment by the Company in these aforementioned initiatives.

Corporate Expenses

We allocate corporate overhead within operating expenses to each segment based upon its proportionate estimated usage of services. The segment financial information set forth below, including the discussion related to individual line items, does not reflect inter-segment eliminations unless specifically indicated.

Impact of Economic Conditions

Our future performance is dependent, to a large extent, on general economic conditions including the impact of direct competition, our ability to manage our businesses effectively, and our relative strength and leverage in the marketplace, both with suppliers and customers.

Capital and credit market disruptions could cause economic downturns, which may lead to lower demand for our products, such as lower demand for television advertising and a decrease in the number of subscribers receiving our programming networks from our distributors. Events such as these may adversely impact our results of operations, cash flows and financial position.

Consolidated Results of Operations

The amounts presented and discussed below represent 100% of each operating segment's revenues, net and expenses. Where we have management control of an entity, we consolidate 100% of such entity in our consolidated statements of operations notwithstanding that a third-party owns a significant interest in such entity. The noncontrolling owner's interest in the operating results of majority-owned or controlled subsidiaries are reflected in net income attributable to noncontrolling interests in our consolidated statements of operations.

Revenues, net

Revenues, net increased \$20.6 million to \$740.8 million for the three months ended March 31, 2018 as compared to the three months ended March 31, 2017. The net change by segment was as follows:

(In thousands)	Three Months Ended March 31,					
	2018	% of total	2017	% of total	\$ change	% change
National Networks	\$ 633,028	85.4 %	\$ 615,147	85.4 %	\$ 17,881	2.9%

National Networks

The increase in National Networks revenues, net was attributable to the following:

(In thousands)	Three Months Ended March 31,					
	2018	% of total	2017	% of total	\$ change	% change
Advertising	\$ 225,730	35.7%	\$ 247,542	40.2%	\$ (21,812)	(8.8)%

- The decrease of \$21.8 million in advertising revenues was driven by a decrease of \$26.7 million at AMC due to lower ratings, partially offset by pricing. The decrease at AMC was partially offset by increases at our other networks. Most of our advertising revenues vary based on the timing of our original programming series and the popularity of our programming as measured by Nielsen. Due to these factors, we expect advertising revenues to vary from quarter to quarter.
- Distribution revenues increased \$39.7 million due to an increase in content licensing revenues of \$31.7 million primarily from digital distribution revenues derived from our original programming, principally at AMC, due to certain programming that became available for distribution in the first quarter of 2018 as compared to the second quarter in 2017. Subscription revenues increased \$8.0 million across all of our networks resulting from an increase in rates. Distribution revenues vary based on the impact of renewals of affiliation agreements and content licensing revenues vary based on the timing of availability of our programming to distributors. Because of these factors, we expect distribution revenues to vary from quarter to quarter.

International and Other

The increase in International and Other revenues, net was attributable to the following:

(In thousands)	Three Months Ended March 31,					
	2018	% of total	2017	% of total	\$ change	% change
Advertising	\$ 22,510	20.2%	\$ 20,070	18.8%	\$ 2,440	12.2%
Distribution	88,880	79.8	86,727	81.2	2,153	2.5
	<u>\$ 111,390</u>	<u>100.0%</u>	<u>\$ 106,797</u>	<u>100.0%</u>	<u>\$ 4,593</u>	<u>4.3%</u>

The increase in advertising revenues was principally due to the favorable impact of foreign currency translation of \$2.3 million. The increase in distribution revenue was principally due to an increase of \$2.7 million in revenues from our subscription streaming services. Foreign currency translation had a favorable impact to distribution revenue of \$9.3 million which was offset by a decrease of \$5.3 million due to the absence of revenue from the sale of AMCNI – DMC (sold in July 2017), a decrease at IFC Films of \$1.3 million due to the timing of release of certain films and a decrease in distribution revenues at AMCNI.

Technical and operating expense (excluding depreciation and amortization)

The components of technical and operating expense primarily include the amortization and impairments or write-offs of program rights, such as those for original programming, feature films and licensed series, participation and residual costs, distribution and production related costs and program operating costs, such as origination, transmission, uplinking and encryption.

Technical and operating expense (excluding depreciation and amortization) increased \$21.8 million to \$320.4 million for the three months ended March 31, 2018 as compared to the three months ended March 31, 2017. The net change by segment was as follows:

(In thousands)	Three Months Ended March 31,		\$ change	% change
	2018	2017		
National Networks	\$ 249,786	\$ 233,808	\$ 15,978	6.8%
International and Other	74,763	67,838	6,925	10.2
Inter-segment eliminations	(4,184)	(3,034)	(1,150)	37.9
Total	\$ 320,365	\$ 298,612	\$ 21,753	7.3%
Percentage of revenues, net	43.2%	41.5%		

National Networks

The increase in technical and operating expense was primarily attributable to an increase of \$12.4 million in program rights amortization expense and an increase of \$3.6 million in other direct programming costs. Program rights amortization expense includes write-offs of \$4.6 million for the three months ended March 31, 2018 primarily based on management's assessment of programming usefulness of certain scripted series and development costs at AMC, as compared to program rights write-offs of \$0.4 million for the three months ended March 31, 2017.

There may be significant changes in the level of our technical and operating expenses due to content acquisition and/or original programming costs and/or the impact of management's periodic assessment of programming usefulness. Such costs will also fluctuate with the level of revenues derived from owned original programming in each period as these costs are amortized based on the film-forecast-computation method. As additional competition for programming increases and alternate distribution technologies continue to develop in the industry, costs for content acquisition and original programming may increase.

International and Other

The increase in technical and operating expense was primarily due to an increased investment in programming and other direct programming costs, including transmission, at AMCNI of \$8.8 million as well as an increase of \$2.1 million at our subscription streaming services, partially offset by the absence of \$4.2 million in costs related to AMCNI – DMC (sold in July 2017). Foreign currency translation had an unfavorable impact to the change in technical and operating expense of \$6.5 million.

Selling, general and administrative expense

The components of selling, general and administrative expense primarily include sales, marketing and advertising expenses, administrative costs and costs of facilities.

Selling, general and administrative expense increased \$2.7 million to \$166.4 million for the three months ended March 31, 2018, as compared to the three months ended March 31, 2017. The net change by segment was as follows:

(In thousands)	Three Months Ended March 31,		\$ change	% change
	2018	2017		
National Networks	\$ 124,895	\$ 123,274	\$ 1,621	1.3%
International and Other	41,582	40,437	1,145	2.8
Inter-segment eliminations	(28)	(2)	(26)	n/m
Total	\$ 166,449	\$ 163,709	\$ 2,740	1.7%
Percentage of revenues, net	22.5%	22.7%		

National Networks

Selling, general and administrative expense increased \$1.6 million principally as a result of a \$4.9 million increase in general and administrative costs, including a \$1.9 million increase in long-term incentive compensation expense, partially offset by a decrease in sales and marketing related costs of \$3.3 million related to timing of the promotion and marketing of original programming.

There may be significant changes in the level of our selling, general and administrative expense from quarter to quarter and year to year due to the timing of promotion and marketing of original programming series and subscriber retention marketing efforts.

International and Other

Selling, general and administrative expense increased \$1.1 million primarily related to an increase in marketing costs at IFC Films of \$2.4 million due to the promotion of certain films, partially offset by a decrease at AMCNI due to the absence of costs related to AMCNI – DMC (sold in July 2017). Foreign currency translation had an unfavorable impact to the change in selling, general and administrative expense of \$2.5 million.

Depreciation and amortization

Depreciation and amortization expense decreased \$3.1 million to \$20.4 million for the three months ended March 31, 2018, as compared to the three months ended March 31, 2017. The net change by segment was as follows:

(In thousands)	Three Months Ended March 31,		\$ change	% change
	2018	2017		
National Networks	\$ 8,495	\$ 8,404	\$ 91	1.1 %
International and Other	11,859	15,089	(3,230)	(21.4)
	<u>\$ 20,354</u>	<u>\$ 23,493</u>	<u>\$ (3,139)</u>	<u>(13.4)%</u>

The decrease in depreciation and amortization expense in the International and Other segment was attributable to the absence of AMCNI – DMC (sold in July 2017).

Restructuring expense

Restructuring expense of \$2.7 million for the three months ended March 31, 2017 related to corporate headquarter severance charges in connection with the restructuring initiative launched during the second half of 2016.

Operating Income

(In thousands)	Three Months Ended March 31,		\$ change	% change
	2018	2017		
National Networks	\$ 249,852	\$ 249,607	\$ 245	0.1 %
International and Other	(16,814)	(19,217)	2,403	(12.5)
Inter-segment Eliminations	617	1,281	(664)	(51.8)
	<u>\$ 233,655</u>	<u>\$ 231,671</u>	<u>\$ 1,984</u>	<u>0.9 %</u>

The increase in operating income at the National Networks segment was primarily attributable to an increase in revenues of \$17.9 million, partially offset by an increase in technical and operating expense of \$16.0 million and an increase in selling, general and administrative expense of \$1.6 million. The decrease in operating losses in the International and Other segment was primarily attributable to an increase in revenues of \$4.6 million, a decrease in depreciation and amortization of \$3.2 million, a decrease in restructuring expense of \$2.7 million, partially offset by an increase in technical and operating expense of \$6.9 million and an increase in selling, general and administrative expense of \$1.1 million. Foreign currency translation had a favorable impact to the change in operating income of \$1.3 million.

AOI

The following is a reconciliation of our consolidated operating income to AOI:

(In thousands)	Three Months Ended March 31,		\$ change	% change
	2018	2017		
Operating income	\$ 233,655	\$ 231,671	\$ 1,984	0.9 %
Share-based compensation expense	15,319	12,464	2,855	22.9
Restructuring expense	—	2,704	(2,704)	n/m
Depreciation and amortization	20,354	23,493	(3,139)	(13.4)
AOI	<u>\$ 269,328</u>	<u>\$ 270,332</u>	<u>\$ (1,004)</u>	<u>(0.4)%</u>

AOI decreased \$1.0 million for the three months ended March 31, 2018 as compared to the three months ended March 31, 2017. The net change by segment was as follows:

(In thousands)	Three Months Ended March 31,		\$ change	% change
	2018	2017		
National Networks	\$ 270,874	\$ 267,973	\$ 2,901	1.1 %
International and Other	(2,163)	1,078	(3,241)	(300.6)
Inter-segment eliminations	617	1,281	(664)	(51.8)
AOI	\$ 269,328	\$ 270,332	\$ (1,004)	(0.4)%

National Networks AOI increased principally due to an increase in revenues of \$17.9 million and a decrease in selling, general and administrative expenses (excluding stock based compensation) of \$1.0 million, partially offset by an increase in technical and operating expenses of \$16.0 million resulting primarily from an increase in program rights amortization.

International and Other AOI decreased primarily due to an increase in technical and operating expenses of \$6.9 million primarily due to an increase in programming and transmission related costs at AMCNI and an increase in selling, general and administrative expenses (excluding stock based compensation) of \$0.9 million, partially offset by an increase in revenues of \$4.6 million. Foreign currency translation had a favorable impact in the change in AOI of \$2.7 million.

As a result of the factors discussed above impacting the variability in revenues and operating expenses, we expect AOI to vary from quarter to quarter.

Interest expense, net

The increase in interest expense, net of \$6.2 million is driven by an increase in interest expense of \$7.7 million primarily as a result of the issuance of our \$800 million aggregate principal amounts of 4.75% Senior Notes due 2025 on July 28, 2017, partially offset by an increase in interest income of \$1.5 million recorded for the three months ended March 31, 2018, in connection with increased cash balances for the three months ended March 31, 2018 versus the same period in 2017 as well as interest income earned on term loans entered into with RLJ Entertainment, Inc. ("RLJE") in October 2016.

Miscellaneous, net

The increase in miscellaneous, net of \$5.9 million for the three months ended March 31, 2018 as compared to the three months ended March 31, 2017 is primarily driven by \$3.0 million in a favorable variance in the foreign currency remeasurement of monetary assets and liabilities (principally intercompany loans) that are denominated in currencies other than the underlying functional currency of the applicable entity and \$3.2 million in gains driven by an increase in the fair market value of RLJE common shares held by the Company which started to be recognized during the second quarter 2017 upon meeting the criteria to be accounted for as an equity method investment following the exercise of warrants, for which we have elected the fair value option.

Income tax expense

For the three months ended March 31, 2018, income tax expense was \$56.9 million, representing an effective tax rate of 26%. The effective tax rate differs from the federal statutory rate of 21% due primarily to tax expense of \$16.4 million for an increase in valuation allowances for foreign taxes and U.S. foreign tax credits, tax benefit of \$8.3 million for the one-time rate change on deferred tax assets and liabilities that resulted from the extension of certain television production cost deductions included in the Bipartisan Budget Act of 2018 (enacted February 9, 2018), tax benefit from foreign subsidiary earnings indefinitely reinvested outside the U.S. of \$4.9 million and state income tax expense of \$3.8 million.

The Tax Cuts and Jobs Act ("TCJA") was enacted on December 22, 2017. The TCJA introduces significant changes in tax law, with certain provisions being effective for the year ended December 31, 2017, however most are effective for tax years beginning after December 31, 2017. Companies are required to recognize the effect of tax law changes in the period of enactment, however, due to the complexities involved in accounting for the enactment of TCJA, SEC Staff Accounting Bulletin ("SAB") 118 allows us to record provisional amounts to reflect the impacts of the TCJA during a one year "measurement period". The Company has recorded a provisional amount related to the one-time transition tax in the year ended December 31, 2017 and there has been no change to this amount as of March 31, 2018. .

In continuing our analysis of the impact of the TCJA on deferred tax amounts, we have recorded a discrete tax expense of \$15.6 million in the period ended March 31, 2018, resulting from an updated assessment in response to guidance contained in a recently issued IRS notice. This expense relates to a valuation allowance against foreign tax credit carry forwards. This is a provisional amount that will continue to be evaluated based on the consideration of other aspects of the TCJA as well as the issuance of additional guidance. Since the Company has recorded other provisional amounts related to the TCJA, any corresponding determination of the need for or change to the valuation allowance is also provisional.

The Company will continue to analyze the effects of the TCJA on its financial statements and operations. Additional impacts from the enactment of the TCJA will be recorded as they are identified during the measurement period as provided for in SAB 118.

Judgment is required in determining the provision for income taxes and related accruals, deferred tax assets and liabilities. Consequently, changes in our estimates regarding uncertain tax positions and the realization of deferred tax assets will impact our results of operations and financial position. Deferred tax assets are evaluated quarterly for expected future realization and reduced by a valuation allowance to the extent management believes it is more likely than not that a portion will not be realized. See Note 10 to the accompanying consolidated financial statements for further discussion of the Company's income taxes.

For the three months ended March 31, 2017, income tax expense was \$73.1 million, representing an effective tax rate of 34%. The effective tax rate differs from the federal statutory rate of 35% due primarily to tax benefit from domestic production activities deduction of \$5.9 million, tax benefit from foreign subsidiary earnings indefinitely reinvested outside the U.S. of \$4.1 million, state income tax expense of \$3.4 million and tax expense of \$2.3 million for an increase in valuation allowances for foreign taxes.

Liquidity and Capital Resources

Our operations have historically generated positive net cash flow from operating activities. However, each of our programming businesses has substantial programming acquisition and production expenditure requirements.

Sources of cash primarily include cash flow from operations, amounts available under our revolving credit facility and access to capital markets. Although we currently believe that amounts available under our revolving credit facility will be available when and if needed, we can provide no assurance that access to such funds will not be impacted by adverse conditions in the financial markets. The obligations of the financial institutions under our revolving credit facility are several and not joint and, as a result, a funding default by one or more institutions does not need to be made up by the others. As a public company, we may have access to other sources of capital such as the public bond markets.

On March 7, 2016, the Company announced that its Board of Directors authorized a program to repurchase up to \$500 million of its outstanding shares of common stock (the "2016 Stock Repurchase Program"). On June 6, 2017, the Board of Directors approved an increase of \$500 million in the amount authorized for a total of \$1.0 billion authorized under the 2016 Stock Repurchase Program. The Company determines the timing and the amount of any repurchases based on its evaluation of market conditions, share price, and other factors. The 2016 Stock Repurchase Program has no pre-established closing date and may be suspended or discontinued at any time. For the three months ended March 31, 2018, the Company repurchased 1.6 million shares of its Class A common stock at an average purchase price of approximately \$50.77 per share. As of March 31, 2018, the Company has \$258.9 million available for repurchase under the 2016 Stock Repurchase Program. For the period April 1, 2018 through May 4, 2018, we repurchased approximately 2.4 million additional shares for \$124.8 million.

Our principal uses of cash include the acquisition and production of programming, investments and acquisitions, repurchases of outstanding debt and common stock, debt service, and payments for income taxes. We continue to increase our investment in original programming, the funding of which generally occurs six to nine months in advance of a program's airing. We expect this increased investment to continue in 2018.

As of March 31, 2018, our consolidated cash and cash equivalents balance includes approximately \$119.8 million held by foreign subsidiaries. Most or all of the earnings of our foreign subsidiaries will continue to be permanently reinvested in foreign operations and we do not expect to incur any significant, additional taxes related to such amounts, nor have any been provided for in the current period. The Company is still evaluating whether to change its indefinite reinvestment assertion due to certain provisions of the TCJA. Any potential changes to the assertion would be made within the measurement period and accounted for as part of the change in tax law.

We believe that a combination of cash-on-hand, cash generated from operating activities and availability under our revolving credit facility will provide sufficient liquidity to service the principal and interest payments on our indebtedness, along with our other funding and investment requirements over the next twelve months and over the longer term. However, we do not expect to generate sufficient cash from operations to repay at maturity the entirety of the then outstanding balances of our debt. As a result, we will then be dependent upon our ability to access the capital and credit markets in order to repay or refinance the outstanding balances of our indebtedness. Failure to raise significant amounts of funding to repay these obligations at maturity would adversely affect our business. In such a circumstance, we would need to take other actions including selling assets, seeking strategic investments from third parties or reducing other discretionary uses of cash.

Our level of debt could have important consequences on our business including, but not limited to, increasing our vulnerability to general adverse economic and industry conditions, limiting the availability of our cash flow to fund future programming investments, capital expenditures, working capital, business activities and other general corporate requirements and limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate. For information relating

to our outstanding debt obligations, refer to Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Debt Financing Agreements" of our 2017 Form 10-K.

In addition, economic or market disruptions could lead to lower demand for our services, such as lower levels of advertising. These events would adversely impact our results of operations, cash flows and financial position.

The revolving credit facility was not drawn upon at March 31, 2018. The total undrawn revolver commitment is available to be drawn for our general corporate purposes.

AMC Networks was in compliance with all of its debt covenants as of March 31, 2018.

Other Matters

On February 26, 2018, the Company delivered a letter to RLJ Entertainment, Inc. ("RLJE") pursuant to which the Company proposed to acquire the outstanding shares of RLJE not currently owned by the Company or entities affiliated with Robert L. Johnson for a purchase price of \$4.25 per share in cash. Through this offer, the Company intends for RLJE to become a majority-owned subsidiary of the Company, with a minority stake held by Mr. Johnson. The board of directors of RLJE has formed a special committee of independent directors to consider the proposal. There can be no assurance that the proposal made by the Company to RLJE will result in a transaction or the terms upon which any transaction may occur.

On April 20, 2018, the Company acquired a majority ownership interest in Levity Entertainment Group LLC ("Levity"), a vertically integrated media company that owns and operates comedy venues as well as produces original content for distribution on multiple platforms, including live, digital and linear, for a total purchase price of \$48.5 million.

Cash Flow Discussion

The following table is a summary of cash flows provided by (used in) operating, investing and financing activities for the three months ended March 31:

(In thousands)	Three Months Ended March 31,	
	2018	2017
Cash provided by operating activities	\$ 116,972	\$ 144,870
Cash used in investing activities	(54,088)	(48,206)
Cash used in financing activities	(101,832)	(172,832)
Net decrease in cash and cash equivalents	(38,948)	(76,168)

Operating Activities

Net cash provided by operating activities amounted to \$117.0 million for the three months ended March 31, 2018 as compared to \$144.9 million for the three months ended March 31, 2017. Net cash provided by operating activities for the three months ended March 31, 2018 primarily resulted from \$432.9 million of net income before amortization of program rights, depreciation and amortization, and other non-cash items, as well as an increase in taxes payable of \$15.7 million, which was partially offset by payments for program rights of \$248.6 million, a decrease in accounts payable, accrued expenses and other liabilities of \$63.0 million primarily related to lower employee related liabilities and an increase in receivables of \$17.9 million primarily related to timing of cash receipts. Changes in all other assets and liabilities resulted in a decrease of \$2.1 million.

Net cash provided by operating activities amounted to \$144.9 million for the three months ended March 31, 2017 and primarily resulted from \$377.8 million of net income before amortization of program rights, depreciation and amortization, and other non-cash items, which was partially offset by payments for program rights of \$211.3 million, a decrease in accounts payable, accrued expenses and other liabilities of \$33.7 million primarily related to lower employee related liabilities, an increase in prepaid expense and other assets of \$18.2 million, an increase in accounts receivable, trade of \$16.0 million primarily related to timing of cash receipts and a decrease in deferred revenue of \$11.1 million. Additionally, net cash provided by operating activities increased due to an increase in taxes payable of \$57.6 million.

Investing Activities

Net cash used in investing activities for the three months ended March 31, 2018 and 2017 was \$54.1 million and \$48.2 million, respectively. For the three months ended March 31, 2018, cash used in investing activities included investments of \$42.3 million and capital expenditures of \$11.9 million. For the three months ended March 31, 2017, cash used in investing activities included investments of \$28.0 million and capital expenditures of \$20.2 million.

Financing Activities

Net cash used in financing activities amounted to \$101.8 million for the three months ended March 31, 2018 as compared to \$172.8 million for the three months ended March 31, 2017. For the three months ended March 31, 2018, financing activities

primarily consisted of purchases of our common stock of \$83.6 million under our 2016 Stock Repurchase Program. In addition, net cash used in financing activities for the three months ended March 31, 2018 includes taxes paid in lieu of shares issued for equity-based compensation of \$15.4 million and distributions to noncontrolling interests of \$1.4 million.

Net cash used in financing activities amounted to \$172.8 million for the three months ended March 31, 2017 and primarily consisted of purchases of our common stock of \$91.4 million under our 2016 Stock Repurchase Program and scheduled repayments of principal on the Company's loan facility of \$55.5 million. In addition, net cash used in financing activities for the three months ended March 31, 2017 includes taxes paid in lieu of shares issued for equity-based compensation of \$12.8 million and distributions to noncontrolling interests of \$11.7 million.

Contractual Obligations

As of March 31, 2018, our contractual obligations not reflected on the condensed consolidated balance sheet decreased \$154.7 million to \$1.2 billion. The decrease relates primarily to the expiration of payment guarantees to a production service company for certain production related costs.

Critical Accounting Policies and Estimates

We describe our significant accounting policies in Note 2 to the Company's Consolidated Financial Statements included in our 2017 Form 10-K. We discuss our critical accounting estimates in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in the same 2017 Form 10-K. Other than certain judgments and estimates related to the new revenue recognition standard as described in Note 2 to the accompanying Condensed Consolidated Financial Statements of the Company included herein, there have been no significant changes in our significant accounting policies or critical accounting estimates since December 31, 2017.

Recently Issued Accounting Pronouncements

See Note 1 to the accompanying Condensed Consolidated Financial Statements of the Company for a discussion of recently issued accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Fair Value of Debt

Based on the level of interest rates prevailing at March 31, 2018, the fair value of our fixed rate debt of \$2.36 billion was equal to its carrying value. The fair value of these financial instruments is estimated based on reference to quoted market prices for these or comparable securities. A hypothetical 100 basis point decrease in interest rates prevailing at March 31, 2018 would increase the estimated fair value of our fixed rate debt by approximately \$115.6 million to approximately \$2.5 billion.

Managing our Interest Rate Risk

To manage interest rate risk, we enter into interest rate swap contracts from time to time to adjust the amount of total debt that is subject to variable interest rates. Such contracts effectively fix the borrowing rates on floating rate debt to limit the exposure against the risk of rising rates. We do not enter into interest rate swap contracts for speculative or trading purposes and we only enter into interest rate swap contracts with financial institutions that we believe are creditworthy counterparties. We monitor the financial institutions that are counterparties to our interest rate swap contracts and to the extent possible diversify our swap contracts among various counterparties to mitigate exposure to any single financial institution.

As of March 31, 2018, we had \$3.1 billion of debt outstanding (excluding capital leases), of which \$0.7 billion is outstanding under our loan facility and is subject to variable interest rates (before consideration of the interest rate swaps contracts described below).

As of March 31, 2018, we had interest rate swap contracts outstanding with notional amounts aggregating \$200.0 million. The aggregate fair value of interest rate swap contracts at March 31, 2018 was a net asset of \$1.3 million. As a result of these transactions, the interest rate paid on approximately 83% of our debt (excluding capital leases) as of March 31, 2018 is effectively fixed (76% being fixed rate obligations and 7% effectively fixed through utilization of these interest rate swap contracts).

A hypothetical 100 basis point increase in interest rates prevailing at March 31, 2018 would not have a material impact on our annual interest expense.

Managing our Foreign Currency Exchange Rate Risk

We are exposed to foreign currency risk to the extent that we enter into transactions denominated in currencies other than our subsidiaries' respective functional currencies (non-functional currency risk), such as affiliation agreements, programming contracts, certain trade receivables and accounts payable (including intercompany amounts) that are denominated in a currency other than the applicable functional currency. Changes in exchange rates with respect to amounts recorded in our consolidated balance sheets related to these items will result in unrealized (based upon period-end exchange rates) or realized foreign currency transaction gains and losses upon settlement of the transactions. Moreover, to the extent that our revenue, costs and expenses are

denominated in currencies other than our respective functional currencies, we will experience fluctuations in our revenue, costs and expenses solely as a result of changes in foreign currency exchange rates. The Company recognized \$3.4 million of foreign currency transaction gains, net for the three months ended March 31, 2018. Such amount is included in miscellaneous, net in the condensed consolidated statement of income.

To manage foreign currency exchange rate risk, we may enter into foreign currency contracts from time to time with financial institutions to limit our exposure to fluctuations in foreign currency exchange rates. We do not enter into foreign currency contracts for speculative or trading purposes.

We also are exposed to fluctuations of the U.S. dollar (our reporting currency) against the currencies of our operating subsidiaries when their respective financial statements are translated into U.S. dollars for inclusion in our condensed consolidated financial statements. Cumulative translation adjustments are recorded in accumulated other comprehensive income (loss) as a separate component of equity. Any increase (decrease) in the value of the U.S. dollar against any foreign currency that is the functional currency of one of our operating subsidiaries will cause us to experience unrealized foreign currency translation losses (gains) with respect to amounts already invested in such foreign currencies. Accordingly, we may experience a negative impact on our comprehensive income (loss) and equity with respect to our holdings solely as a result of changes in foreign currency exchange rates.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

An evaluation was carried out under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended). Based upon that evaluation as of March 31, 2018, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

During the three months ended March 31, 2018, there were no changes in the Company's internal control over financial reporting, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

Since our 2017 Form 10-K, there have been no material developments in legal proceedings in which we are involved. See Note 11, Commitments and Contingencies to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On March 7, 2016, the Company announced that its Board of Directors authorized a program to repurchase up to \$500 million of its outstanding shares of common stock (the "2016 Stock Repurchase Program"). On June 6, 2017, the Board of Directors approved an increase of \$500 million in the amount authorized for a total of \$1.0 billion authorized under the 2016 Stock Repurchase Program. The 2016 Stock Repurchase Program has no pre-established closing date and may be suspended or discontinued at any time.

Set forth below is information concerning acquisitions of AMC Networks Class A Common Stock by the Company during the three months ended March 31, 2018.

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
4. The Registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)), for the Registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.
