Note 1. Description of Business and Basis of Presentation

Description of Business

AMC Networks Inc. (“AMC Networks”) and its subsidiaries (collectively referred to as the “Company”) own and operate entertainment businesses and assets. The Company is comprised of two operating segments:

- *National Networks*: Principally includes activities of our programming businesses which include our five programming networks distributed in the U.S. and Canada. These programming networks include AMC, WE tv, BBC AMERICA, IFC and SundanceTV in the U.S.; and AMC, IFC, and Sundance Channel in Canada. Our programming businesses within the National Networks segment may also sell rights worldwide to their owned original programming. The National Networks operating segment also includes AMC Networks Broadcasting & Technology, the technical services business, which primarily services most of the programming networks included in the National Networks segment.
- *International and Other*: Principally includes AMC Networks International (“AMCNI”), the Company’s international programming businesses consisting of a portfolio of channels in Europe, Latin America, the Middle East and parts of Asia and Africa; IFC Films, the Company’s independent film distribution business; AMCNI- DMC, the broadcast solutions unit of certain networks of AMCNI and third-party networks, and various developing on-line content distribution initiatives.

Basis of Presentation

Principles of Consolidation

These unaudited condensed consolidated financial statements include the accounts of AMC Networks and its majority owned or controlled subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

Investments in business entities in which the Company lacks control but does have the ability to exercise significant influence over operating and financial policies are accounted for using the equity method of accounting.

Unaudited Interim Financial Statements

These condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and Article 10 of Regulation S-X of the Securities and Exchange Commission (“SEC”), and should be read in conjunction with the Company’s consolidated financial statements and notes thereto for the year ended December 31, 2015 contained in the Company’s Annual Report on Form 10-K (“2015 Form 10-K”) filed with the SEC. The condensed consolidated financial statements presented in this Quarterly Report on Form 10-Q are unaudited; however, in the opinion of management, such financial statements reflect all adjustments, consisting solely of normal recurring adjustments, necessary for a fair presentation of the results for the interim periods presented.

The results of operations for interim periods are not necessarily indicative of the results that might be expected for future interim periods or for the full year ending December 31, 2016.

Program Rights

The Company periodically reviews the programming usefulness of its licensed and owned original program rights based on a series of factors, including expected future revenue generation from airings on the Company’s networks and other exploitation opportunities, ratings, type and quality of program material, standards and practices, and fitness for exhibition through various forms of distribution. If it is determined that film or other program rights have no future programming usefulness, a write-off of the unamortized cost is recorded in technical and operating expense. Program rights write-offs included in technical and operating expense of \$19,596 and \$13,199 were recorded for the three months ended September 30, 2016 and 2015, respectively. Program rights write-offs included in technical and operating expense of \$20,676 and \$26,800 were recorded for the nine months ended September 30, 2016 and 2015, respectively.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements; and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. Significant estimates and judgments inherent in the preparation of the consolidated financial statements include the valuation of acquisition-related assets and liabilities, the useful lives and methodologies used to amortize and assess recoverability of program

rights, the estimated useful lives of intangible assets, valuation and recoverability of goodwill and intangible assets and income tax assets and liabilities.

Reclassifications

Certain reclassifications were made to the prior period amounts to conform to the current period presentation.

Recently Issued Accounting Pronouncements

In August 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-15, *Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments*. The guidance clarifies the way in which certain cash receipts and cash payments should be classified on the statement of cash flows and also how the predominance principle should be applied when cash receipts and cash payments have aspects of more than one class of cash flows. ASU 2016-15 is effective for the first quarter of 2018 with early adoption permitted. The adoption of ASU 2016-15 is not expected to have a material impact on the Company's consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. The updated guidance changes how companies account for certain aspects of share-based payment awards to employees, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as the classification of related matters in the statement of cash flows. ASU 2016-09 is effective for the first quarter of 2017. The Company is currently assessing the impact the adoption will have on its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. ASU 2016-02 requires lessees to record most of their leases on the balance sheet, which will be recognized as a right-of-use asset and a lease liability. The Company will be required to classify each separate lease component as an operating or finance lease at the lease commencement date. Initial measurement of the right-of-use asset and lease liability is the same for operating and finance leases, however expense recognition and amortization of the right-of-use asset differs. Operating leases will reflect lease expense on a straight-line basis similar to current operating leases. The straight-line expense will reflect the interest expense on the lease liability (effective interest method) and amortization of the right-of-use asset, which will be presented as a single line item in the operating expense section of the income statement. Finance leases will reflect a front-loaded expense pattern similar to the pattern for current capital leases. ASU 2016-02 is effective for the first quarter of 2019, with early adoption permitted. The Company is currently determining its implementation approach and assessing the impact the adoption will have on its consolidated financial statements.

In November 2015, the FASB issued ASU No. 2015-17, *Income Taxes (Topic 740) Balance Sheet Classification of Deferred Taxes*. ASU 2015-17 requires deferred tax liabilities and assets be classified as noncurrent in the statement of financial position. ASU 2015-17 is effective for the first quarter of 2017 with early adoption permitted. The adoption of ASU 2015-17 is not expected to have a material impact on the Company's consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU 2014-09 provides new guidance related to how an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard requires an evaluation of (i) transfer of control, (ii) variable consideration, (iii) allocation of selling price for multiple elements, (iv) intellectual property licenses, (v) time value of money, and (vi) contract costs. The standard also expands the required disclosures related to revenue and cash flows from contracts with customers to provide greater insight into both revenue that has been recognized, and revenue that is expected to be recognized in the future from existing contracts. In March 2016, the FASB issued ASU No. 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations*, which provides clarification on the implementation guidance on principal versus agent considerations outlined in ASU No. 2014-09. In April 2016, the FASB issued ASU No. 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*, which finalized amendments to identifying performance obligations and accounting for licenses of intellectual property. ASU 2014-09, ASU 2016-08 and ASU 2016-10 are effective for the first quarter of 2018, with early adoption permitted and retrospective application required. The Company is currently determining its implementation approach and assessing the impact the adoption will have on its consolidated financial statements.

Note 2. Net Income per Share

The following is a reconciliation between basic and diluted weighted average shares outstanding:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Basic weighted average common shares outstanding	71,507,000	72,503,000	72,269,000	72,386,000
Effect of dilution:				
Stock options	1,000	117,000	17,000	162,000
Restricted stock units	632,000	602,000	616,000	560,000
Diluted weighted average common shares outstanding	72,140,000	73,222,000	72,902,000	73,108,000

For the three and nine months ended September 30, 2016 and September 30, 2015, there were no restricted stock units that would have been anti-dilutive to the diluted weighted average common shares outstanding. Approximately 137,000 and 125,000 restricted stock units for the three and nine months ended September 30, 2016 and September 30, 2015, respectively, have been excluded from diluted weighted average common shares outstanding since a performance condition on these awards was not met in each of the respective periods.

Stock Repurchase Program

On March 4, 2016, the Company's Board of Directors authorized a program to repurchase up to \$500,000 of its outstanding shares of common stock (the "2016 Stock Repurchase Program"). For the three months ended September 30, 2016, the Company repurchased 1,138,196 shares of its Class A common stock at an average purchase price of approximately \$54.27 per share. For the nine months ended September 30, 2016, the Company repurchased 1,949,581 shares of its Class A common stock at an average purchase price of approximately \$56.42 per share. As of September 30, 2016, the Company has \$390,003 available for repurchase under the 2016 Stock Repurchase Program.

Note 3. Restructuring

During the three months ended September 30, 2016, the Company launched a restructuring initiative that involved modifications to the organizational structure of the Company and is expected to result in reduced employee costs and operating expenses primarily through a voluntary buyout program offered to certain employees. Additional charges relating to this restructuring initiative may be incurred in future periods.

The Company incurred restructuring expense during the three and nine months ended September 30, 2015 primarily related to severance charges associated with the elimination of certain positions across the Company and the termination of distribution in certain territories.

The following table summarizes the restructuring expense recognized by operating segment:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
National Networks	\$ 8,103	\$ 100	\$ 8,170	\$ 817

Purchase accounting adjustments included in the International and Other segment relate to the allocation of fair value for a previous acquisition of a small international channel from goodwill primarily to identifiable intangible assets.

The reduction of \$1,909 in the carrying amount of goodwill for the National Networks is due to the realization of a tax benefit for the amortization of “second component” goodwill at SundanceTV. Second component goodwill is the amount of tax deductible goodwill in excess of goodwill for financial reporting purposes. In accordance with the authoritative guidance at the time of the SundanceTV acquisition, the tax benefits associated with this excess are applied to first reduce the amount of goodwill, and then other intangible assets for financial reporting purposes, if and when such tax benefits are realized in the Company’s tax returns.

5.00% Notes due 2024

On March 30, 2016, the Company issued \$1,000,000 in aggregate principal amount of 5.00% senior notes, net of an issuance discount of \$17,500, due 2024 (the "5.00% Notes"). AMC Networks used a portion of the net proceeds of this offering to make a cash tender ("Tender Offer") for its outstanding 7.75% Senior Notes due 2021 (the "7.75% Notes") with the remaining proceeds to be used for general corporate purposes, which may include the redemption of any of the 7.75% Notes not tendered. The 5.00% Notes were issued pursuant to an indenture dated as of March 30, 2016 (the "5.00% Notes Indenture").

In connection with the issuance of the 5.00% Notes, AMC Networks incurred deferred financing costs of \$2,070, which are being amortized, using the effective interest method, to interest expense over the term of the 5.00% Notes.

Interest on the 5.00% Notes is payable semi-annually in arrears on April 1 and October 1 of each year.

The 5.00% Notes may be redeemed, in whole or in part, at any time on or after April 1, 2020, at a redemption price equal to 102.5% of the principal amount thereof (plus accrued and unpaid interest thereon, if any, to the date of such redemption), declining annually to 100% of the principal amount thereof (plus accrued and unpaid interest thereon, if any, to the date of such redemption) beginning on April 1, 2022.

The 5.00% Notes are guaranteed on a senior unsecured basis by certain of AMC Networks' existing and future domestic restricted subsidiaries, in accordance with the 5.00% Notes Indenture. The guarantees under the 5.00% Notes are full and unconditional and joint and several.

The 5.00% Notes Indenture contains certain affirmative and negative covenants applicable to AMC Networks and its restricted subsidiaries including restrictions on their ability to incur additional indebtedness, consummate certain assets sales, make investments in entities that are not restricted subsidiaries, create liens on their assets, enter into certain affiliate transactions and make certain restricted payments, including restrictions on AMC Networks' ability to pay dividends on, or repurchase, its common stock.

7.75% Notes due 2021

In March 2016, the Company used a portion of the net proceeds of the 5.00% Notes to make a Tender Offer for the 7.75% Notes at a price of \$1,058.57 per \$1,000 principal amount of notes plus accrued and unpaid interest. Pursuant to the Tender Offer, the Company purchased approximately \$654,000 principal amount of the 7.75% Notes for a purchase price of approximately \$703,000 including accrued and unpaid interest of \$10,567 and related fees. On June 9, 2016, the Company gave notice to the remaining holders of its 7.75% Notes of its intent to redeem all outstanding 7.75% Notes on July 15, 2016, (the "Redemption Date") and on July 15, 2016, the Company redeemed the remaining \$45,551 of the 7.75% notes then outstanding at a redemption price equal to 103.875% of the principal amount thereof (plus accrued and unpaid interest thereon to the Redemption Date). As of September 30, 2016, none of the 7.75% Notes remain outstanding.

In connection with the Tender Offer in March 2016 and subsequent redemption of the remaining 7.75% Notes in July 2016, the Company recorded a loss on extinguishment of debt of \$50,638 for the nine months ended September 30, 2016 which includes \$40,953 related to the excess of the redemption price, premium paid and related fees, and the write-off of unamortized issuance discount and deferred financing fees related to the 7.75% Notes of \$8,715 and \$970, respectively.

Note 7. Fair Value Measurement

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. Observable inputs reflect assumptions market participants would use in pricing an asset or liability based on market data obtained from independent sources while unobservable inputs reflect a reporting entity's pricing based upon their own market assumptions. The fair value hierarchy consists of the following three levels:

- Level I - Quoted prices for identical instruments in active markets.
- Level II - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- Level III - Instruments whose significant value drivers are unobservable.

The following table presents for each of these hierarchy levels, the Company's financial assets and liabilities that are measured at fair value on a recurring basis:

	Level I	Level II	Total
At September 30, 2016:			
Assets:			
Cash equivalents	\$ 131,385	\$ —	\$ 131,385
Interest rate swap contracts	—	165	165
Foreign currency derivatives	—	6,211	6,211
Liabilities:			
Interest rate swap contracts	\$ —	\$ 1,295	\$ 1,295
Foreign currency derivatives	—	3,651	3,651
At December 31, 2015:			
Assets:			
Cash equivalents	\$ 2,027	\$ —	\$ 2,027
Interest rate swap contracts	—	1,449	1,449
Foreign currency derivatives	—	4,421	4,421
Liabilities:			
Interest rate swap contracts	\$ —	\$ 2,682	\$ 2,682
Foreign currency derivatives	—	3,107	3,107

The Company's cash equivalents are classified within Level I of the fair value hierarchy because they are valued using quoted market prices.

The Company's interest rate swap contracts and foreign currency derivatives (see Note 8) are classified within Level II of the fair value hierarchy and their fair values are determined based on a market approach valuation technique that uses readily observable market parameters and the consideration of counterparty risk.

The Company does not have any recurring assets or liabilities measured at fair value that would be considered Level III.

Fair value measurements are also used in nonrecurring valuations performed in connection with acquisition accounting. These nonrecurring valuations primarily include the valuation of affiliate and customer relationships intangible assets, advertiser relationship intangible assets and property and equipment. All of our nonrecurring valuations use significant unobservable inputs and therefore fall under Level III of the fair value hierarchy.

Credit Facility Debt and Senior Notes

The fair values of each of the Company's debt instruments are based on quoted market prices for the same or similar issues or on the current rates offered to the Company for instruments of the same remaining maturities.

The carrying values and estimated fair values of the Company's financial instruments, excluding those that are carried at fair value in the condensed consolidated balance sheets, are summarized as follows:

	September 30, 2016	
	Carrying Amount	Estimated Fair Value
Debt instruments:		
Term Loan A Facility	\$ 1,280,633	\$ 1,288,525

4.75% Notes due December 2022	591,029	600,000
	<u>\$ 2,667,808</u>	<u>\$ 2,708,475</u>

Fair value estimates related to the Company's debt instruments presented above are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgments and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Note 8. Derivative Financial Instruments

Interest Rate Risk

To manage interest rate risk, the Company enters into interest rate swap contracts to adjust the amount of total debt that is subject to variable interest rates.

As of September 30, 2016, the Company had interest rate swap contracts outstanding with notional amounts aggregating \$300,000, which consists of interest rate swap contracts with notional amounts of \$200,000 that are designated as cash flow hedges and interest rate swap contracts with notional amounts of \$100,000 that are not designated as hedging instruments. The Company's outstanding interest rate swap contracts have varying maturities ranging from July 2017 to October 2018. At September 30, 2016, the Company's interest rate swap contracts designated as cash flow hedges were highly effective.

Foreign Currency Exchange Rate Risk

The Company is exposed to foreign currency risk to the extent that the Company enters into transactions denominated in currencies other than its subsidiaries' respective functional currencies (non-functional currency risk), such as affiliation agreements, programming contracts, certain trade receivables, accounts payable and intercompany amounts that are denominated in a currency other than the applicable functional currency of a subsidiary.

Note 9. Income Taxes

For the three and nine months ended September 30, 2016, income tax expense was \$21,157 and \$119,090, respectively, representing an effective tax rate of 24% and 31%, respectively. The effective tax rate differs from the federal statutory rate of 35% due primarily to state and local income tax expense of \$788 and \$6,123, tax benefit of \$3,443 and \$12,364 from foreign subsidiary earnings indefinitely reinvested outside the U.S., tax benefit of \$6,651 and \$3,939 relating to uncertain tax positions (including accrued interest), tax benefit from the domestic production activities deduction of \$2,784 and \$12,519 and tax expense of \$2,320 and \$7,021 resulting from an increase in the valuation allowances for foreign and local taxes for the three and nine months ended September 30, 2016, respectively. The tax benefit relating to a reduction in uncertain tax positions is primarily due to a lapse of the applicable statute of limitations.

For the three and nine months ended September 30, 2015, income tax expense was \$43,358 and \$155,609, respectively, representing an effective tax rate of 36% and 35%, respectively. The effective tax rate differs from the federal statutory rate of 35% due primarily to state and local income tax expense of \$2,775 and \$9,335, tax benefit of \$409 and \$6,610 from foreign subsidiary earnings indefinitely reinvested outside the U.S., tax benefit from the domestic production activities deduction of \$4,332 and \$14,515 and tax expense of \$3,261 and \$10,049 resulting from an increase in the valuation allowances for foreign and local taxes for the three and nine months ended September 30, 2015, respectively.

At September 30, 2016, the Company had foreign tax credit carry forwards of approximately \$42,000, expiring on various dates from 2016 through 2026. For the nine months ended September 30, 2016, excess tax benefits of \$764 relating to share-based compensation awards and \$1,207 relating to amortization of tax deductible second component goodwill were realized as a reduction in tax liability (as determined on a 'with-and-without' approach).

Note 10. Commitments and Contingencies

Commitments

As of September 30, 2016, the Company's contractual obligations not reflected on the Company's condensed consolidated balance sheet decreased \$168,458 to \$1,347,605 as compared to \$1,516,063 at December 31, 2015. The decrease relates primarily to program rights obligations.

Legal Matters

On December 17, 2013, Frank Darabont ("Darabont"), Ferenc, Inc., Darkwoods Productions, Inc., and Creative Artists Agency, LLC (together, "Plaintiffs"), filed a complaint in New York Supreme Court in connection with Darabont's rendering services as a writer, director and producer of the television series entitled *The Walking Dead* and the agreement between the parties related thereto. The Plaintiffs asserted claims for breach of contract, breach of the covenant of good faith and fair dealing, for an accounting and for declaratory relief. On August 19, 2015, Plaintiffs filed their First Amended Complaint (the "Amended Complaint"), in which they retracted their claims for wrongful termination and failure to apply production tax credits in calculating Plaintiffs' contingent compensation. Plaintiffs also added a claim that Darabont is entitled to a larger share, on a percentage basis, of contingent compensation than he is currently being accorded. On September 26, 2016, Plaintiffs filed their note of issue and certificate of readiness for trial, indicating that the parties have completed fact and expert discovery. The parties are now briefing summary judgment motions, which papers, according to a stipulated schedule, will be fully submitted to the Court in early January.

2017. The Company has opposed the claims in the Complaint, the Amended Complaint and all subsequent complaints. The Company believes that the asserted claims are without merit, denies the allegations and continues to defend the case vigorously. At this time, no determination can be made as to the ultimate outcome of this litigation or the potential liability, if any, on the part of the Company.

The Company is party to various lawsuits and claims in the ordinary course of business, including the matter described above. Although the outcome of these matters cannot be predicted with certainty and while the impact of these matters on the Company's results of operations in any particular subsequent reporting period could be material, management does not believe that the resolution of these matters will have a material adverse effect on the financial position of the Company or the ability of the Company to meet its financial obligations as they become due.

Note 11. Equity Plans

On June 8, 2016, AMC Networks granted 27,066 restricted stock units ("RSUs") under the AMC Networks Inc. Amended and Restated 2011 Non-Employee Directors Plan to non-employee directors that vested on the date of grant.

On March 4, 2016, AMC Networks granted 486,758 RSUs and 371,109 performance restricted stock units ("PRSUs") to certain executive officers and employees under the AMC Networks Inc. Amended and Restated 2011 Employee Stock Plan. PRSUs were first granted in March 2016 to replace the Company's long-term cash performance awards. The RSUs vest in equal annual installments over a three-year period and the vesting criteria for 137,527 RSUs include the achievement of certain performance targets by the Company. The PRSUs vest on the third anniversary of the grant date and include the achievement of certain performance targets by the Company.

During the nine months ended September 30, 2016, 336,435 RSUs of AMC Networks Class A Common Stock previously issued to employees of the Company vested. On the vesting dates, 139,904 RSUs were surrendered to the Company to cover the required statutory tax withholding obligations and 196,531 new shares of the AMC Networks Class A Common Stock were issued in respect of the remaining vesting RSUs. The units surrendered to satisfy the employees' statutory minimum tax withholding obligations for the applicable income and other employment tax had an aggregate value of \$10,821, which is reflected as a financing activity in the condensed consolidated statement of cash flows for the nine months ended September 30, 2016.

Share-based compensation expense included in selling, general and administrative expense, for the three and nine months ended September 30, 2016 was \$9,382 and \$28,869, respectively, and \$7,821 and \$23,910 for the three and nine months ended September 30, 2015, respectively.

As of September 30, 2016, there was \$58,992 of total unrecognized share-based compensation cost related to outstanding unvested share-based awards. The unrecognized compensation cost is expected to be recognized over a weighted-average remaining period of approximately 2.5 years.

Note 12. Redeemable Noncontrolling Interests

In connection with a membership interest purchase agreement entered into with BBC Worldwide Americas, Inc. ("BBCWA"), the Company acquired a 49.9% limited liability interest in New Video Channel America L.L.C. ("New Video"). New Video owns the cable channel BBC AMERICA. The terms of the agreement provide BBCWA with a right to put all of its 50.1% noncontrolling interest to the Company at the greater of the then fair value or the fair value of the initial equity interest at inception. The put option is exercisable on the fifteenth and twenty-fifth year anniversary of the Joint Venture agreement.

In connection with the creation of another joint venture entity in 2013, the terms of the agreement provide the noncontrolling member with a right to put all of its interest to the Company at the then fair value.

Because exercise of these put rights is outside the Company's control, the noncontrolling interest in each entity is presented as redeemable noncontrolling interest outside of stockholders' equity (deficiency) on the Company's condensed consolidated balance sheet.

Note 13. Related Party Transactions

Members of the Dolan Family, for purposes of Section 13(d) of the Securities Exchange Act of 1934, as amended, including trusts for the benefit of the Dolan Family, collectively beneficially own all of the AMC Networks outstanding Class B Common Stock and own less than 2% of the AMC Networks' outstanding Class A Common Stock. Such shares of the AMC Networks Class A Common Stock and Class B Common Stock, collectively, represent approximately 67% of the aggregate voting power of AMC Networks' outstanding common stock. Members of the Dolan Family are also the controlling stockholders of The Madison Square Garden Company ("MSG") and MSG Networks Inc. ("MSG Networks"). Prior to June 21, 2016, members of the Dolan Family were also the controlling stockholders of Cablevision Systems Corporation ("Cablevision")

On June 21, 2016, Cablevision was acquired by a subsidiary of Altice N.V. and a change in control occurred which resulted in members of the Dolan Family no longer being controlling stockholders of the surviving company, Altice USA. Accordingly, Altice USA is not a related party of AMC Networks.

The Company and its related parties routinely enter into transactions with each other in the ordinary course of business. Revenues, net from related parties amounted to \$1,450 and \$6,407 for the three months ended September 30, 2016 and 2015, respectively and \$14,356 and \$19,619 for the nine months ended September 30, 2016 and 2015, respectively. Amounts charged to the Company, included in selling, general and administrative expenses, pursuant to transactions with its related parties amounted to \$647 and \$972 for the three months ended September 30, 2016 and 2015, respectively and \$2,537 and \$3,190 for the nine months ended September 30, 2016 and 2015, respectively.

On June 16, 2016, AMC Networks entered into an arrangement with the Dolan Family Office, LLC ("DFO"), MSG and MSG Networks providing for the sharing of certain expenses associated with executive office space which will be available to Charles F. Dolan (the Executive Chairman and a director of the Company and a director of MSG and MSG Networks), James L. Dolan (the Executive Chairman and a director of MSG and MSG Networks and a director of the Company), and the DFO which is controlled by Charles F. Dolan. The Company's share of initial set-up costs and office expenses is not material.

Note 16. Segment Information

The Company classifies its operations into two operating segments: National Networks and International and Other. These operating segments represent strategic business units that are managed separately.

The Company generally allocates all corporate overhead costs to the Company's two operating segments based upon their proportionate estimated usage of services, including such costs as executive salaries and benefits, costs of maintaining corporate headquarters, facilities and common support functions (such as human resources, legal, finance, tax, accounting, audit, treasury, risk management, strategic planning and information technology) as well as sales support functions and creative and production services.

The Company evaluates segment performance based on several factors, of which the primary financial measure is operating segment adjusted operating income (a non-GAAP measure) defined as operating income (loss) before depreciation and amortization, share-based compensation expense or benefit, and restructuring expense or credit). We renamed this non-GAAP performance measure to adjusted operating income ("AOI"), formerly referred to as adjusted operating cash flow ("AOCF"). Other than the title, there is no change to the definition of this non-GAAP measure.

The Company has presented the components that reconcile adjusted operating income to operating income, an accepted GAAP measure, and other information as to the continuing operations of the Company's operating segments below.

Note 17. Condensed Consolidating Financial Statements

Long-term debt of AMC Networks includes \$600,000 of 4.75% senior notes due December 2022 and \$1,000,000 of 5.00% senior notes due April 2024. All outstanding senior notes issued by AMC Networks are guaranteed on a senior unsecured basis by certain of its existing and future domestic restricted subsidiaries (the “Guarantor Subsidiaries”). All Guarantor Subsidiaries are owned 100% by AMC Networks. The outstanding notes are fully and unconditionally guaranteed by the Guarantor Subsidiaries on a joint and several basis.

Set forth below are condensed consolidating financial statements presenting the financial position, results of operations, comprehensive income, and cash flows of (i) the Parent Company, (ii) the Guarantor Subsidiaries on a combined basis (as such guarantees are joint and several), (iii) the direct and indirect non-guarantor subsidiaries of the Parent Company (the “Non-Guarantor Subsidiaries”) on a combined basis and (iv) reclassifications and eliminations necessary to arrive at the information for the Company on a consolidated basis.

Basis of Presentation

In presenting the condensed consolidating financial statements, the equity method of accounting has been applied to (i) the Parent Company’s interests in the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries, and (ii) the Guarantor Subsidiaries’ interests in the Non-Guarantor Subsidiaries, even though all such subsidiaries meet the requirements to be consolidated under GAAP. All intercompany balances and transactions between the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries have been eliminated, as shown in the column “Eliminations.”

The accounting basis in all subsidiaries, including goodwill and identified intangible assets, have been allocated to the applicable subsidiaries.

Note 18. Subsequent Events

On October 14, 2016 (the “Closing Date”), the Company, through a wholly owned subsidiary, Digital Entertainment Holdings LLC, entered into an agreement with RLJ Entertainment, Inc. (“RLJE”) pursuant to which the Company provided \$65 million of term loans to RLJE. On the Closing Date, the Company also received warrants to purchase at least 20 million shares of RLJE’s common stock, at a price of \$3.00 per share. The warrants, if fully exercised, would provide the Company with at least 50.1% of the RLJE common stock then outstanding on a fully diluted basis.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This Management's Discussion and Analysis of Financial Condition and Results of Operations contains statements that constitute forward-looking information within the meaning of the Private Securities Litigation Reform Act of 1995. In this Management's Discussion and Analysis of Financial Condition and Results of Operations there are statements concerning our future operating results and future financial performance. Words such as "expects," "anticipates," "believes," "estimates," "may," "will," "should," "could," "potential," "continue," "intends," "plans" and similar words and terms used in the discussion of future operating results and future financial performance identify forward-looking statements. You are cautioned that any such forward-looking statements are not guarantees of future performance or results and involve risks and uncertainties and that actual results or developments may differ materially from the forward-looking statements as a result of various factors. Factors that may cause such differences to occur include, but are not limited to:

- the level of our revenues;
- market demand for our programming networks and our programming;
- demand for advertising inventory;
- the highly competitive nature of the cable, telecommunications and digital programming industries;
- our ability to maintain and renew distribution or affiliation agreements with video programming distributors;
- the cost of, and our ability to obtain or produce, desirable programming content for our networks, other forms of distribution, including digital and licensing in international markets, as well as our independent film distribution businesses;
- market demand for our owned original programming and our independent film content;
- the security of our program rights and other electronic data;
- the loss of any of our key personnel and artistic talent;
- changes in domestic and foreign laws or regulations under which we operate;
- economic and business conditions and industry trends in the countries in which we operate;
- fluctuations in currency exchange rates and interest rates;
- changes in laws or treaties relating to taxation, or the interpretation thereof, in the U.S. or in the countries in which we operate;
- our substantial debt and high leverage;
- reduced access to capital markets or significant increases in costs to borrow;
- the level of our expenses;
- the level of our capital expenditures;
- future acquisitions and dispositions of assets;
- our ability to successfully acquire new businesses and, if acquired, to integrate, and implement our plan with respect to businesses we acquire;
- problems we may discover post-closing with the operations, including the internal controls and financial reporting process, of businesses we acquire;
- changes in the nature of key strategic relationships with partners and joint ventures;
- the outcome of litigation and other proceedings;
- whether pending uncompleted transactions, if any, are completed on the terms and at the times set forth (if at all);
- other risks and uncertainties inherent in our programming businesses;
- financial community and rating agency perceptions of our business, operations, financial condition and the industry in which we operate;
- events that are outside our control, such as political unrest in international markets, terrorist attacks, natural disasters and other similar events; and
- the factors described under Item 1A, "Risk Factors" in our 2015 Annual Report on Form 10-K (the "2015 Form 10-K"), as filed with the Securities and Exchange Commission ("SEC").

We disclaim any obligation to update or revise the forward-looking statements contained herein, except as otherwise required by applicable federal securities laws.

All dollar amounts included in the following Management's Discussion and Analysis of Financial Condition and Results of Operations are presented in thousands.

Introduction

Management's discussion and analysis, or MD&A, of our results of operations and financial condition is provided as a supplement to, and should be read in conjunction with, the unaudited condensed consolidated financial statements and notes thereto included elsewhere herein and our 2015 Form 10-K to enhance the understanding of our financial condition, changes in financial condition and results of our operations. Unless the context otherwise requires, all references to "we," "us," "our," "AMC Networks" or the "Company" refer to AMC Networks Inc., together with its subsidiaries. MD&A is organized as follows:

Business Overview. This section provides a general description of our business and our operating segments, as well as other matters that we believe are important in understanding our results of operations and financial condition and in anticipating future trends.

Consolidated Results of Operations. This section provides an analysis of our results of operations for the three and nine months ended September 30, 2016 compared to the three and nine months ended September 30, 2015. Our discussion is presented on both a consolidated and operating segment basis. Our two operating segments are: (i) National Networks and (ii) International and Other.

Liquidity and Capital Resources. This section provides a discussion of our financial condition as of September 30, 2016, as well as an analysis of our cash flows for the nine months ended September 30, 2016 and 2015. The discussion of our financial condition and liquidity includes summaries of (i) our primary sources of liquidity and (ii) our contractual obligations that existed at September 30, 2016 as compared to December 31, 2015.

Critical Accounting Policies and Estimates. This section provides an update, if any, to our significant accounting policies or critical accounting estimates since December 31, 2015.

Business Overview

We manage our business through the following two operating segments:

- *National Networks:* Principally includes activities of our programming businesses which include our five programming networks distributed in the U.S. and Canada. These programming networks include AMC, WE tv, BBC AMERICA, IFC and SundanceTV in the U.S.; and AMC, IFC, and Sundance Channel in Canada. Our programming businesses within the National Networks segment may also sell rights worldwide to their owned original programming. The National Networks operating segment also includes AMC Networks Broadcasting & Technology, the technical services business, which primarily services most of the programming networks included in the National Networks segment.
- *International and Other:* Principally includes AMC Networks International ("AMCNI"), the Company's international programming businesses consisting of a portfolio of channels in Europe, Latin America, the Middle East and parts of Asia and Africa; IFC Films, the Company's independent film distribution business; AMCNI - DMC, the broadcast solutions unit of certain networks of AMCNI and third-party networks, and various developing on-line content distribution initiatives.

Financial Results Overview

The tables presented below set forth our consolidated revenues, net, operating income (loss) and adjusted operating income (“AOI”), defined below, for the periods indicated.

We evaluate segment performance based on several factors, of which the primary financial measure is operating segment AOI. We define AOI, which is a financial measure that is not calculated in accordance with generally accepted accounting principles (“GAAP”), as operating income (loss) before depreciation and amortization, share-based compensation expense or benefit, and restructuring expense or credit. We renamed this non-GAAP performance measure to adjusted operating income (“AOI”), formerly referred to as adjusted operating cash flow (“AOCF”). Other than the title, there is no change to the definition of this non-GAAP measure.

We believe that AOI is an appropriate measure for evaluating the operating performance on both an operating segment and consolidated basis. AOI and similar measures with similar titles are common performance measures used by investors, analysts and peers to compare performance in the industry.

Internally, we use revenues, net and AOI measures as the most important indicators of our business performance, and evaluate management’s effectiveness with specific reference to these indicators. AOI should be viewed as a supplement to and not a substitute for operating income (loss), net income (loss), cash flows from operating activities and other measures of performance and/or liquidity presented in accordance with GAAP. Since AOI is not a measure of performance calculated in accordance with GAAP, this measure may not be comparable to similar measures with similar titles used by other companies.

The following is a reconciliation of consolidated operating income to AOI for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015

National Networks

In our National Networks segment, which accounted for 84% of our consolidated revenues for the nine months ended September 30, 2016, we earn revenue principally from the distribution of our programming and the sale of advertising. Distribution

revenue primarily includes affiliation fees paid by distributors to carry our programming networks and the licensing of original programming for digital, foreign and home video distribution. Affiliation fees paid by distributors represent the largest component of distribution revenue. Our affiliation fee revenues are generally based on a per subscriber fee under multi-year contracts, commonly referred to as “affiliation agreements,” which generally provide for rate increases. The specific affiliation fee revenues we earn vary from period to period, distributor to distributor and also vary among our networks, but are generally based upon the number of each distributor’s subscribers who receive our programming, referred to as viewing subscribers. The terms of certain other affiliation agreements provide that the affiliation fee revenues we earn are a fixed contractual monthly fee, which could be adjusted for acquisitions and dispositions of multichannel video programming systems by the distributor. Revenue from the licensing of original programming for digital and foreign distribution is recognized upon availability or distribution by the licensee.

Under affiliation agreements with our distributors, we have the right to sell a specified amount of national advertising time on our programming networks. Our advertising revenues are more variable than affiliation fee revenues because the majority of our advertising is sold on a short-term basis, not under long-term contracts. Our advertising arrangements with advertisers provide for a set number of advertising units to air over a specific period of time at a negotiated price per unit for which our programming networks generally guarantee specified viewer ratings for their programming.

Our principal goal is to increase our revenues by increasing distribution and penetration of our services, and increasing our ratings. To do this, we must continue to contract for and produce high-quality, attractive programming. As competition for programming increases and alternative distribution technologies continue to emerge and develop in the industry, costs for content acquisition and original programming may increase. There is a concentration of subscribers in the hands of a few distributors, which could create disparate bargaining power between the largest distributors and us by giving those distributors greater leverage in negotiating the price and other terms of affiliation agreements.

Programming expense, included in technical and operating expense, represents the largest expense of the National Networks segment and primarily consists of amortization and impairments or write-offs of programming rights, such as those for original programming, feature films and licensed series, as well as participation and residual costs. The other components of technical and operating expense primarily include distribution and production related costs and program operating costs, such as origination, transmission, uplinking and encryption.

The success of our business depends on original programming, both scripted and unscripted, across all of our networks. In recent years, we have introduced a number of scripted original series. These series generally result in higher audience ratings for our networks than we achieve with other types of programming. Among other things, higher audience ratings drive increased revenues through higher advertising revenues. The timing of exhibition and distribution of original programming varies from period to period, which results in greater variability in our revenues, earnings and cash flows from operating activities. We will continue to increase our investment in programming across all of our channels. There may be significant changes in the level of our technical and operating expenses due to the amortization of content acquisition and/or original programming costs and/or the impact of management’s periodic assessment of programming usefulness. Such costs will also fluctuate with the level of revenues derived from owned original programming in each period as these costs are amortized based on the film-forecast-computation method.

Most original series require us to make up-front investments, which are often significant amounts. Not all of our programming efforts are commercially successful, which could result in a write-off of program rights. If it is determined that programming rights have no future programming usefulness based on actual demand or market conditions, a write-off of the unamortized cost is recorded in technical and operating expense. Program rights write-offs of \$19,350 and \$12,087 were recorded for the three months ended September 30, 2016 and 2015, respectively. Program rights write-offs of \$20,430 and \$25,667 were recorded for the nine months ended September 30, 2016 and 2015, respectively.

International and Other

Our International and Other segment primarily includes the operations of AMC Networks International and IFC Films.

In our International and Other segment, which accounted for 16% of our consolidated revenues for the nine months ended September 30, 2016, we earn revenue principally from the international distribution of programming and to a lesser extent, the sale of advertising. Distribution revenue primarily includes affiliation fees paid by distributors to carry our programming networks. Our affiliation fee revenues are generally based on either a per subscriber fee or a fixed contractual monthly fee, under affiliation agreements, which may provide for annual rate increases. Most of these revenues are derived primarily from Europe and to a lesser extent, Latin America, the Middle East and parts of Asia and Africa. The International and Other segment also includes IFC Films, our independent film distribution business where revenues are derived principally from theatrical, digital and licensing distribution, and various developing on-line content distribution initiatives.

Programming and program operating costs, included in technical and operating expense, represents the largest expense of the International and Other segment and primarily consists of amortization of acquired content, costs of dubbing and sub-titling

of programs and participation costs. Program operating costs include costs such as origination, transmission, uplinking and encryption.

We view our international expansion as an important long-term strategy. We may experience an adverse impact to the International and Other segment's operating results and cash flows in periods of increased international investment by the Company. Similar to our domestic businesses, the most significant business challenges we expect to encounter in our international business include programming competition (from both foreign and domestic programmers), limited channel capacity on distributors' platforms, the change in the number of subscribers on those platforms and economic pressures on affiliation fees. Other significant business challenges unique to our international operations include increased programming costs for international rights and translation (*i.e.* dubbing and subtitling), a lack of availability of international rights for a portion of our domestic programming content, increased distribution costs for cable, satellite or fiber feeds and a limited physical presence in some territories, and our exposure to foreign currency exchange rate risk. See also the risk factors described under Item 1A, "Risk Factors - We face risks from doing business internationally" in our 2015 Form 10-K.

Corporate Expenses

We allocate corporate overhead to each segment based upon its proportionate estimated usage of services. The segment financial information set forth below, including the discussion related to individual line items, does not reflect inter-segment eliminations unless specifically indicated.

Impact of Economic Conditions

Our future performance is dependent, to a large extent, on general economic conditions including the impact of direct competition, our ability to manage our businesses effectively, and our relative strength and leverage in the marketplace, both with suppliers and customers.

Capital and credit market disruptions could cause economic downturns, which may lead to lower demand for our products, such as lower demand for television advertising and a decrease in the number of subscribers receiving our programming networks from our distributors. Additionally, as noted above, we may experience an adverse impact due to the impact of global economic conditions and the related effect on foreign currencies. Events such as these may adversely impact our results of operations, cash flows and financial position.

Consolidated Results of Operations

The amounts presented and discussed below represent 100% of each operating segment's revenues, net and expenses. Where we have management control of an entity, we consolidate 100% of such entity in our consolidated statements of operations notwithstanding that a third-party owns a significant interest in such entity. The noncontrolling owner's interest in the operating results of majority-owned subsidiaries are reflected in net income attributable to noncontrolling interests in our consolidated statements of operations.

Revenues, net

Revenues, net increased \$2,481 to \$634,646 for the three months ended September 30, 2016 as compared to the three months ended September 30, 2015. The net change by segment was as follows:

	Three Months Ended September 30,					
	2016	% of total	2015	% of total	\$ change	% change
National Networks	\$ 525,713	82.8 %	\$ 521,640	82.5 %	\$ 4,073	0.8 %

Consolidated revenues, net	<u>\$ 634,646</u>	<u>100.0 %</u>	<u>\$ 632,165</u>	<u>100.0 %</u>	<u>\$ 2,481</u>	<u>0.4 %</u>

National Networks

The increase in National Networks revenues, net was attributable to the following:

	Three Months Ended September 30,					
	2016	% of total	2015	% of total	\$ change	% change
Advertising	\$ 189,300	36.0%	\$ 210,194	40.3%	\$ (20,894)	(9.9)%
Distribution	336,413	64.0	311,446	59.7	24,967	8.0
	<u>\$ 525,713</u>	<u>100.0%</u>	<u>\$ 521,640</u>	<u>100.0%</u>	<u>\$ 4,073</u>	<u>0.8 %</u>

- The decrease of \$20,894 in advertising revenues was driven primarily by a decrease at AMC due to lower ratings. Most of our advertising revenues vary based on the timing of our original programming series and the popularity of our programming as measured by Nielsen. Due to these factors, we expect advertising revenues to vary from quarter to quarter.
- Distribution revenues increased \$24,967 driven by an increase of \$20,150 primarily from licensing revenues derived from our original programming, principally at AMC. In addition, affiliation fee revenues increased due to rate increases, principally at AMC. Distribution revenues vary based on the impact of renewals of affiliation agreements and the timing of availability of our programming to distributors. Because of these factors, we expect distribution revenues to vary from quarter to quarter.

International and Other

The decrease in International and Other revenues, net was attributable to the following:

	Three Months Ended September 30,					
	2016	% of total	2015	% of total	\$ change	% change
Advertising	\$ 21,424	18.8%	\$ 20,645	18.1%	\$ 779	3.8 %
Distribution	92,596	81.2	93,458	81.9	(862)	(0.9)
	<u>\$ 114,020</u>	<u>100.0%</u>	<u>\$ 114,103</u>	<u>100.0%</u>	<u>\$ (83)</u>	<u>(0.1)%</u>

The increase in advertising revenues was principally due to increased demand for programming at AMCNI by advertisers, partially offset by the unfavorable impact of foreign currency translation of approximately \$2,700. The decrease in distribution revenues principally resulted from a decrease at IFC Films of \$3,055 due to the strong performance of *Boyhood* in 2015, partially offset by an increase of \$1,512 at AMCNI due to expanded distribution in certain territories and an increase of \$725 from our developing on-line content distribution business. The unfavorable impact of foreign currency translation at AMCNI on distribution revenue was approximately \$2,500.

Technical and operating expense (excluding depreciation and amortization)

The components of technical and operating expense primarily include the amortization and impairments or write-offs of program rights, such as those for original programming, feature films and licensed series, participation and residual costs, distribution and production related costs and program operating costs, such as origination, transmission, uplinking and encryption.

Technical and operating expense (excluding depreciation and amortization) increased \$45,703 to \$338,799 for the three months ended September 30, 2016 as compared to the three months ended September 30, 2015. The net change by segment was as follows:

	Three Months Ended September 30,			
	2016	2015	\$ change	% change
National Networks	\$ 267,570	\$ 223,521	\$ 44,049	19.7 %
International and Other	70,969	70,400	569	0.8
Inter-segment eliminations	260	(825)	1,085	(131.5)
Total	\$ 338,799	\$ 293,096	\$ 45,703	15.6 %
Percentage of revenues, net	53.4%	46.4%		

National Networks

The increase in the National Networks segment was attributable to an increase of \$52,643 in program rights amortization expense, partially offset by a decrease of \$8,594 for other direct programming related costs. The increase in program rights amortization expense was due to an increased investment in original programming. Program rights amortization expense included write-offs of \$19,350 for the three months ended September 30, 2016 based on management's assessment of programming usefulness of certain scripted series primarily at AMC and BBC AMERICA. Program rights amortization expense for the three months ended September 30, 2015 included write-offs of \$12,087 of certain scripted series at SundanceTV and an unscripted series at WE tv based on management's assessment of programming usefulness.

International and Other

The increase in the International and Other segment was primarily due to an increase of \$3,022 in programming rights amortization expense at AMCNI due to an increased investment in original programming, offset by a decrease of \$2,412 at IFC Films from lower participation and residuals expense related to the success of *Boyhood* in 2015. Foreign currency translation had a favorable impact on the change in technical and operating expense of approximately \$3,500.

Selling, general and administrative expense

The components of selling, general and administrative expense primarily include sales, marketing and advertising expenses, administrative costs and costs of facilities.

Selling, general and administrative expense decreased \$19,192 to \$137,116 for the three months ended September 30, 2016, as compared to the three months ended September 30, 2015. The net change by segment was as follows:

	Three Months Ended September 30,			
	2016	2015	\$ change	% change
National Networks	\$ 102,852	\$ 117,584	\$ (14,732)	(12.5)%
International and Other	34,268	38,736	(4,468)	(11.5)
Inter-segment eliminations	(4)	(12)	8	(66.7)
Total	\$ 137,116	\$ 156,308	\$ (19,192)	(12.3)%
Percentage of revenues, net	21.6%	24.7%		

National Networks

The decrease of \$14,732 in selling, general and administrative expense in the National Networks segment was driven by a decrease in marketing expenses of \$6,655 related to the timing of promotion of original programming, a decrease in direct sales related expense of \$3,049 and a net decrease in long-term incentive compensation expense of \$6,973.

There may be significant changes in the level of our selling, general and administrative expense from quarter to quarter and year to year due to the timing of promotion and marketing of original programming series and subscriber retention marketing efforts.

International and Other

The decrease of \$4,468 in selling, general and administrative expense in the International and Other segment was primarily driven by a decrease of \$2,437 at AMCNI and \$2,057 at IFC Films. In addition, selling, general and administrative expense decreased due to a net decrease in long-term incentive compensation expense of \$1,541. Foreign currency translation had a favorable impact on the change in selling, general and administrative expense of approximately \$2,600.

Restructuring expense

During the three months ended September 30, 2016, the Company launched a restructuring initiative that involved modifications to the organizational structure of the Company and is expected to result in reduced employee costs and operating expenses primarily through a voluntary buyout program offered to certain employees. Additional charges relating to this restructuring initiative may be incurred in future periods.

Restructuring expense was \$19,312 for the three months ended September 30, 2016, of which \$8,103 and \$11,209 was incurred at the National Networks segment and the International and Other segment, which includes corporate headquarters, respectively. Restructuring expense represents severance charges incurred related to employee terminations primarily associated with the voluntary buyout program.

The restructuring expense of \$2,631 for the three months ended September 30, 2015 was primarily incurred at the International and Other segment related to the elimination of distribution in certain territories and severance charges incurred related to the elimination of certain positions.

Depreciation and amortization

Depreciation and amortization expense increased \$1,420 to \$22,282 for the three months ended September 30, 2016, as compared to the three months ended September 30, 2015. The net change by segment was as follows:

	Three Months Ended September 30,		\$ change	% change
	2016	2015		
National Networks	\$ 8,040	\$ 7,337	\$ 703	9.6%
International and Other	14,242	13,525	717	5.3
	<u>\$ 22,282</u>	<u>\$ 20,862</u>	<u>\$ 1,420</u>	<u>6.8%</u>

The increase in depreciation and amortization expense at both the National Networks and International and Other segments was attributable to an increase in depreciation expense of \$2,538 related to property and equipment additions, partially offset by a decrease in amortization expense at International and Other due to the write-off in 2015 of certain identifiable intangible assets associated with certain channel closures.

AOI

The following is a reconciliation of our consolidated operating income to AOI:

	Three Months Ended September 30,		\$ change	% change
	2016	2015		
Operating income	\$ 117,137	\$ 159,268	\$ (42,131)	(26.5)%
Share-based compensation expense	9,382	7,821	1,561	20.0
Restructuring expense	19,312	2,631	16,681	634.0
Depreciation and amortization	22,282	20,862	1,420	6.8
Consolidated AOI	<u>\$ 168,113</u>	<u>\$ 190,582</u>	<u>\$ (22,469)</u>	<u>(11.8)%</u>

AOI decreased \$22,469 for the three months ended September 30, 2016 as compared to the three months ended September 30, 2015. The net change by segment was as follows:

	Three Months Ended September 30,		\$ change	% change
	2016	2015		
National Networks	\$ 162,503	\$ 186,574	\$ (24,071)	(12.9)%
International and Other	10,953	6,749	4,204	62.3
Inter-segment eliminations	(5,343)	(2,741)	(2,602)	94.9
AOI	<u>\$ 168,113</u>	<u>\$ 190,582</u>	<u>\$ (22,469)</u>	<u>(11.8)%</u>

National Networks AOI decreased as a result of higher technical and operating expenses of \$44,049 resulting primarily from an increase in amortization expense, partially offset by a decrease in selling, general and administrative expense of \$15,905 and an increase in revenue of \$4,073. As a result of the factors discussed above impacting the variability in revenues and operating expenses, we expect AOI to vary from quarter to quarter.

International and Other AOI increased \$4,204 principally due to a decrease in selling, general and administrative expense of \$4,856. Foreign currency translation had a favorable impact to the change in AOI of approximately \$800.

Loss on extinguishment of debt

The loss on extinguishment of debt for the three months ended September 30, 2016 of \$2,295 represents fees incurred in connection with the redemption of the remaining \$45,551 of the 7.75% Notes outstanding on July 15, 2016. This includes \$1,765 related to the excess of the redemption price, premium paid and related fees, as well as unamortized issuance discount related to the 7.75% Notes of \$530. See further discussion under the heading “Debt Financing Agreements” below.

Miscellaneous, net

The decrease in miscellaneous, net of \$10,628 for the three months ended September 30, 2016 as compared to the three months ended September 30, 2015 is primarily the result of net foreign currency transaction gains of \$2,621 for the three months ended September 30, 2016 as compared to net foreign currency transaction losses of \$10,575 in the prior comparable period. These net foreign currency gains and losses are principally the result of the translation of monetary assets and liabilities that are denominated in currencies other than the underlying functional currency of the applicable entity, primarily due to intercompany loans. In addition, gains on derivative contracts decreased \$1,435 as compared to the prior comparable period.

Income tax expense

For the three months ended September 30, 2016, income tax expense was \$21,157 representing an effective tax rate of 24%. The effective tax rate differs from the federal statutory rate of 35% due primarily to state and local income tax expense of \$788, tax benefit of \$3,443 from foreign subsidiary earnings indefinitely reinvested outside the U.S., tax benefit of \$6,651 relating to uncertain tax positions (including accrued interest), tax benefit from the domestic production activities deduction of \$2,784 and tax expense of \$2,320 resulting from an increase in the valuation allowances for foreign and local taxes for the three months ended September 30, 2016. The tax benefit relating to a reduction in uncertain tax positions is primarily due to a lapse of the applicable statute of limitations.

For the three months ended September 30, 2015, income tax expense was \$43,358 representing an effective tax rate of 36%. The effective tax rate differs from the federal statutory rate of 35% due primarily to state and local income tax expense of \$2,775, tax benefit of \$409 from foreign subsidiary earnings indefinitely reinvested outside the U.S., tax benefit from the domestic production activities deduction of \$4,332 and tax expense of \$3,261 resulting from an increase in the valuation allowances for foreign and local taxes for the three months ended September 30, 2015.

Revenues, net

Revenues, net increased \$124,072 to \$2,026,057 for the nine months ended September 30, 2016 as compared to the nine months ended September 30, 2015. The net change by segment was as follows:

	Nine Months Ended September 30,					
	2016	% of total	2015	% of total	\$ change	% change
National Networks	\$ 1,696,982	83.8 %	\$ 1,573,096	82.7 %	\$ 123,886	7.9%

National Networks

The increase in National Networks revenues, net was attributable to the following:

	Nine Months Ended September 30,					
	2016	% of total	2015	% of total	\$ change	% change
Advertising	\$ 692,483	40.8%	\$ 656,345	41.7%	\$ 36,138	5.5%
Distribution	1,004,499	59.2	916,751	58.3	87,748	9.6
	<u>\$ 1,696,982</u>	<u>100.0%</u>	<u>\$ 1,573,096</u>	<u>100.0%</u>	<u>\$ 123,886</u>	<u>7.9%</u>

- The increase of \$36,138 in advertising revenues was driven by an increase across substantially all of our national networks due to increased demand by advertisers and higher pricing driven by original programming series and series premieres. Most of our advertising revenues vary based on the timing of our original programming series and the popularity of our programming as measured by Nielsen. Due to these factors, we expect advertising revenues to vary from quarter to quarter.
- Distribution revenues increased \$87,748 due to an increase of \$62,133 principally from licensing and digital distribution revenues derived from our original programming, principally at AMC. In addition, affiliation fee revenues increased due to rate increases, primarily at AMC, as compared to the same period in 2015. Distribution revenues vary based on the impact of renewals of affiliation agreements and the timing of availability of our programming to distributors. Because of these factors, we expect distribution revenues to vary from quarter to quarter.

International and Other

The increase in International and Other revenues, net was attributable to the following:

	Nine Months Ended September 30,					
	2016	% of total	2015	% of total	\$ change	% change
Advertising	\$ 69,837	20.5%	\$ 61,226	18.4%	\$ 8,611	14.1 %
Distribution	271,511	79.5	272,115	81.6	(604)	(0.2)
	<u>\$ 341,348</u>	<u>100.0%</u>	<u>\$ 333,341</u>	<u>100.0%</u>	<u>\$ 8,007</u>	<u>2.4 %</u>

The increase in advertising revenues was principally due to inclusion of revenues from an acquisition at the end of 2015 as well as increased demand for our programming at AMCNI by advertisers, partially offset by the unfavorable impact of foreign currency translation of approximately \$5,000. The decrease in distribution revenues was primarily driven by a decrease at IFC Films of \$8,363 due to the strong performance of *Boyhood* in 2015, partially offset by the increase at AMCNI of \$5,939 due to expanded distribution and an increase of \$1,878 from our developing on-line content distribution business. The unfavorable impact of foreign currency translation at AMCNI on distribution revenue was approximately \$7,700.

Technical and operating expense (excluding depreciation and amortization)

The components of technical and operating expense primarily include the amortization and impairments or write-offs of program rights, such as those for original programming, feature films and licensed series, participation and residual costs, distribution and production related costs and program operating costs, such as origination, transmission, uplinking and encryption.

Technical and operating expense (excluding depreciation and amortization) increased \$100,337 to \$915,336 for the nine months ended September 30, 2016 as compared to the nine months ended September 30, 2015. The net change by segment was as follows:

	Nine Months Ended September 30,		\$ change	% change
	2016	2015		
National Networks	\$ 713,826	\$ 612,633	\$ 101,193	16.5%
International and Other	205,700	204,495	1,205	0.6
Inter-segment eliminations	(4,190)	(2,129)	(2,061)	96.8
Total	\$ 915,336	\$ 814,999	\$ 100,337	12.3%
Percentage of revenues, net	45.2%	42.8%		

National Networks

The increase in the National Networks segment was attributable to an increase of \$79,654 in program rights amortization expense and an increase of \$21,539 for other direct programming related costs. The increase in program rights amortization expense is due to an increased investment in original programming. Program rights amortization expense included write-offs of \$20,430 for the nine months ended September 30, 2016 based on management's assessment of programming usefulness of certain scripted series primarily at AMC and BBC AMERICA. Program rights amortization expense for the nine months ended September 30, 2015 included write-offs of \$25,667 of certain scripted series at SundanceTV, unscripted series WE tv and pilot costs at AMC based on management's assessment of programming usefulness.

There may be significant changes in the level of our technical and operating expenses due to content acquisition and/or original programming costs and/or the impact of management's periodic assessment of programming usefulness. Such costs will also fluctuate with the level of revenues derived from owned original programming in each period as these costs are amortized based on the film-forecast-computation method. As additional competition for programming increases and alternate distribution technologies continue to develop in the industry, costs for content acquisition and original programming may increase.

International and Other

The increase in the International and Other segment was primarily due to an increase of \$7,617 at AMCNI in program rights amortization expense due the increased investment in original programming, partially offset by a decrease in other direct programming related costs of \$2,678 at AMCNI. The International and Other segment also included an increase of \$1,842 related to increased investment at our on-line content distribution business, offset by a decrease of \$5,485 at IFC Films principally driven by a decrease in participation and residuals expense related to the success of *Boyhood* in 2015. Foreign currency translation had a favorable impact on the change in technical and operating expense of approximately \$7,800.

Selling, general and administrative expense

The components of selling, general and administrative expense primarily include sales, marketing and advertising expenses, administrative costs and costs of facilities.

Selling, general and administrative expense increased \$3,993 to \$473,760 for the nine months ended September 30, 2016, as compared to the nine months ended September 30, 2015. The net change by segment was as follows:

	Nine Months Ended September 30,		\$ change	% change
	2016	2015		
National Networks	\$ 355,955	\$ 356,570	\$ (615)	(0.2)%
International and Other	117,818	113,226	4,592	4.1
Inter-segment eliminations	(13)	(29)	16	(55.2)
Total	\$ 473,760	\$ 469,767	\$ 3,993	0.8 %
Percentage of revenues, net	23.4%	24.7%		

National Networks

Selling, general and administrative expense in the National Networks segment remained relatively unchanged as increases in advertising sales and marketing expenses of \$7,105 were offset by a net decrease in long-term incentive compensation expense of \$8,135.

There may be significant changes in the level of our selling, general and administrative expense from quarter to quarter and year to year due to the timing of promotion and marketing of original programming series and subscriber retention marketing efforts.

International and Other

Selling, general and administrative expense in the International and Other segment increased due to increases at AMCNI of \$10,686 principally related to employee and employee related costs of \$4,113, advertising costs of \$1,995 and rent expense of \$1,524, an increase of \$5,324 at our on-line content distribution business principally due to increased subscriber acquisition costs. These increases were partially offset by a decrease at IFC Films of \$9,892 due to increased marketing expense due to the promotion of certain films in 2015 and a net decrease in long-term incentive compensation expense of \$2,082. Foreign currency translation had a favorable impact on the change in selling, general and administrative expense of approximately \$5,400.

Restructuring expense

Restructuring expense of \$19,666 for the nine months ended September 30, 2016 was due to \$8,170 in the National Networks segment and \$11,496 in the International and Other segment, which includes corporate headquarters related charges. The Company launched a restructuring initiative that involved modifications to the organizational structure of the Company and is expected to result in reduced employee costs and operating expenses primarily through a voluntary buyout program offered to certain employees. Additional charges relating to this restructuring initiative may be incurred in future periods.

Restructuring expense of \$5,941 for the nine months ended September 30, 2015 was due to \$817 in the National Networks segment and \$5,124 in the International and Other segment, which includes corporate headquarters related charges. Restructuring expense in the National Networks segment primarily represented severance charges incurred related to employee terminations associated with the elimination of certain positions. Restructuring expense at the International and Other segment represented costs related to the termination of distribution in certain territories and severance charges incurred related to the elimination of certain positions across the Company.

Depreciation and amortization

Depreciation and amortization expense increased \$1,038 to \$63,467 for the nine months ended September 30, 2016, as compared to the nine months ended September 30, 2015. The net change by segment was as follows:

	Nine Months Ended September 30,			
	2016	2015	\$ change	% change
National Networks	\$ 24,062	\$ 21,911	\$ 2,151	9.8 %
International and Other	39,405	40,518	(1,113)	(2.7)
	<u>\$ 63,467</u>	<u>\$ 62,429</u>	<u>\$ 1,038</u>	<u>1.7 %</u>

The increase in depreciation and amortization expense in the National Networks segment was primarily attributable to an increase in depreciation expense due to property and equipment additions. The decrease in depreciation and amortization expense in the International and Other segment was primarily attributable due to a decrease in amortization of \$3,165 resulting from the write-off recorded in 2015 of certain identifiable intangible assets associated with certain channel closures, partially offset by an increase in depreciation expense of \$2,052 due to property and equipment additions.

AOI

The following is a reconciliation of our consolidated operating income to AOI:

	Nine Months Ended September 30,			
	2016	2015	\$ change	% change
Operating income	\$ 553,828	\$ 548,849	\$ 4,979	0.9%
Share-based compensation expense	28,869	23,910	4,959	20.7
Restructuring expense	19,666	5,941	13,725	231.0
Depreciation and amortization	63,467	62,429	1,038	1.7
Consolidated AOI	<u>\$ 665,830</u>	<u>\$ 641,129</u>	<u>\$ 24,701</u>	<u>3.9%</u>

AOI increased \$24,701 for the nine months ended September 30, 2016 as compared to the nine months ended September 30, 2015. The net change by segment was as follows:

	Nine Months Ended September 30,		\$ change	% change
	2016	2015		
National Networks	\$ 649,782	\$ 622,385	\$ 27,397	4.4%
International and Other	24,118	21,038	3,080	14.6
Inter-segment eliminations	(8,070)	(2,294)	(5,776)	251.8
AOI	<u>\$ 665,830</u>	<u>\$ 641,129</u>	<u>\$ 24,701</u>	3.9%

National Networks AOI increased principally due to an increase in revenues, net of \$123,886, partially offset by an increase in technical and operating expenses of \$101,193 resulting from an increase in program rights expense and other direct programming costs. As a result of the factors discussed above impacting the variability in revenues and operating expenses, we expect AOI to vary from quarter to quarter.

International and Other AOI increased due to an increase in revenue of \$8,007, offset by an increase in selling, general and administrative expenses of \$3,722 and an increase in technical and operating expense of \$1,205.

Loss on extinguishment of debt

The loss on extinguishment of debt for the nine months ended September 30, 2016 of \$50,638 represents \$40,953 of premium paid and related fees on the early redemption of our 7.75% Notes as well as a write-off of the related unamortized discount of \$8,715 and unamortized deferred financing costs of \$970. See further discussion under the heading “Debt Financing Agreements” below.

Miscellaneous, net

The increase in miscellaneous, net of \$16,124 for the nine months ended September 30, 2016 as compared to the nine months ended September 30, 2015 was primarily the result of a net increase in foreign currency transaction losses of \$17,605 from the translation of monetary assets and liabilities that are denominated in currencies other than the underlying functional currency of the applicable entity, primarily intercompany loans, partially offset by an increase in the gains on derivative contracts of \$2,276.

Income tax expense

For the nine months ended September 30, 2016, income tax expense was \$119,090 representing an effective tax rate of 31%. The effective tax rate differs from the federal statutory rate of 35% due primarily to state and local income tax expense of \$6,123, tax benefit of \$12,364 from foreign subsidiary earnings indefinitely reinvested outside the U.S., tax benefit of \$3,939 relating to uncertain tax positions (including accrued interest), tax benefit from the domestic production activities deduction of \$12,519 and tax expense of \$7,021 resulting from an increase in the valuation allowances for foreign and local taxes for the nine months ended September 30, 2016. The tax benefit relating to a reduction in uncertain tax positions is primarily due to a lapse of the applicable statute of limitations.

For the nine months ended September 30, 2015, income tax expense was \$155,609 representing an effective tax rate of 35%. The items resulting in variances from the federal statutory rate of 35% primarily consist of state and local income tax expense of \$9,335, tax benefit of \$6,610 from foreign subsidiary earnings indefinitely reinvested outside the U.S., tax benefit from the domestic production activities deduction of \$14,515 and tax expense of \$10,049 resulting from an increase in the valuation allowances for foreign and local taxes for the nine months ended September 30, 2015.

Liquidity and Capital Resources

Our operations have historically generated positive net cash flow from operating activities. However, each of our programming businesses has substantial programming acquisition and production expenditure requirements.

Sources of cash primarily include cash flow from operations, amounts available under our revolving credit facility (as described below) and access to capital markets. Although we currently believe that amounts available under our revolving credit facility will be available when and if needed, we can provide no assurance that access to such funds will not be impacted by adverse conditions in the financial markets. As a public company, we may have access to other sources of capital such as the public bond markets. On March 23, 2016 we filed a Registration Statement on Form S-3 (“Shelf Registration”) with the SEC in which we registered debt securities.

In connection with the Shelf Registration, on March 30, 2016, we issued \$1,000,000 in aggregate principal amount of 5.00% senior notes, net of an issuance discount of \$17,500, due 2024 (the “5.00% Notes”). We used a portion of the net proceeds of this offering to make a cash tender (“Tender Offer”) for our outstanding 7.75% senior notes due 2021 (the “7.75% Notes”) at a price

of \$1,058.57 per \$1,000 principal amounts of notes plus accrued and unpaid interest. Pursuant to the Tender Offer, we purchased approximately \$654,000 principal amount of the 7.75% Notes for a purchase price of approximately \$703,000 including accrued and unpaid interest of \$10,567 and related fees. As of September 30, 2016, none of the 7.75% Notes remain outstanding. See “Debt Financing Agreements” below.

On March 4, 2016, our Board of Directors authorized a program to repurchase up to \$500,000 of our outstanding shares of common stock (the “2016 Stock Repurchase Program”). Through October 31, 2016, we have repurchased 2,256,138 shares of our Class A common stock for \$124,997.

Our principal uses of cash include the acquisition and production of programming, investments and acquisitions, debt service, repurchases of outstanding debt and common stock and payments for income taxes. We continue to increase our investment in original programming, the funding of which generally occurs six to nine months in advance of a program’s airing. We expect this increased investment to continue in 2016. The current portion of long term debt is \$203,500 which consists of required principal payments on our Term Loan A facility over the next twelve months.

As of September 30, 2016, our consolidated cash and cash equivalents includes amounts with a value of approximately \$91,196 held by foreign subsidiaries, some of which have earnings that have not been subject to U.S. tax. Repatriation of earnings not previously subject to U.S. tax would generally require us to accrue and pay U.S. tax on such amount. Our consolidated financial statements provide for any related tax liability on amounts that may be repatriated, aside from undistributed earnings of certain of our foreign subsidiaries that are intended to be permanently reinvested or repatriated in a tax-free manner. The amount of such undistributed earnings was approximately \$75,000 as of September 30, 2016. Determination of the amount of unrecognized deferred tax liability for temporary differences related to these earnings is not practicable.

We believe that a combination of cash-on-hand, cash generated from operating activities and availability under our revolving credit facility will provide sufficient liquidity to service the principal and interest payments on our indebtedness, along with our other funding and investment requirements over the next twelve months and over the longer term. However, we do not expect to generate sufficient cash from operations to repay at maturity the entirety of the then outstanding balances of our debt. As a result, we will then be dependent upon our ability to access the capital and credit markets in order to repay or refinance the outstanding balances of our indebtedness. Failure to raise significant amounts of funding to repay these obligations at maturity would adversely affect our business. In such a circumstance, we would need to take other actions including selling assets, seeking strategic investments from third parties or reducing other discretionary uses of cash.

Our level of debt could have important consequences on our business including, but not limited to, increasing our vulnerability to general adverse economic and industry conditions, limiting the availability of our cash flow to fund future programming investments, capital expenditures, working capital, business activities and other general corporate requirements and limiting our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate. For information relating to our outstanding debt obligations, refer to Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Debt Financing Agreements” of our 2015 Form 10-K and the discussion below under Debt Financing Agreements.

In addition, economic or market disruptions could lead to lower demand for our services, such as lower levels of advertising. These events would adversely impact our results of operations, cash flows and financial position.

The revolving credit facility was not drawn upon at September 30, 2016. The total undrawn revolver commitment is available to be drawn for our general corporate purposes.

AMC Networks was in compliance with all of its debt covenants as of September 30, 2016.

Cash Flow Discussion

The following table is a summary of cash flows provided by (used in) continuing operations and discontinued operations for the nine months ended September 30:

	2016	2015
Cash provided by operating activities	\$ 426,592	\$ 300,973
Cash used in investing activities	(44,859)	(79,605)
Cash used in financing activities	(2,552)	(108,666)
Net increase in cash and cash equivalents	379,181	112,702

Operating Activities

Net cash provided by operating activities amounted to \$426,592 for the nine months ended September 30, 2016 as compared to \$300,973 for the nine months ended September 30, 2015. Net cash provided by operating activities for the nine months ended September 30, 2016 primarily resulted from \$1,085,392 of net income before amortization of program rights, loss on extinguishment of debt, depreciation and amortization, and other non-cash items, which was partially offset by payments for program rights of

\$687,888 and an increase in prepaid expenses and other assets of \$43,344. Additionally, net cash provided by operating activities increased due to a decrease in accounts receivable, trade of \$32,747 primarily related to timing of cash receipts and an increase in deferred revenue of \$30,726 primarily related to advertising arrangements and an increase in taxes payable of \$10,414.

Net cash provided by operating activities amounted to \$300,973 for the nine months ended September 30, 2015 primarily resulted from \$914,748 of net income before amortization of program rights, depreciation and amortization, and other non-cash items, which was partially offset by payments for program rights of \$616,047. Additionally, net cash provided by operating activities increased due to an increase in accounts payable, accrued expenses and other liabilities of \$26,985 primarily related to timing of cash payments, an increase in taxes payable of \$16,107, an increase in deferred revenue of \$15,446 primarily related to advertising arrangements and a decrease in accounts receivable, trade of \$6,155 primarily related to timing of cash receipts. Decreases to operating cash flows consisted of an increase in prepaid expenses and other assets of \$43,665 primarily related to long-term receivables and payments related to deferred carriage fees, net of \$18,825.

Investing Activities

Net cash used in investing activities for the nine months ended September 30, 2016 and 2015 was \$44,859 and \$79,605, respectively. Capital expenditures were \$44,505 and \$48,810 for the nine months ended September 30, 2016 and 2015, respectively. For the nine months ended September 30, 2015, net cash used in investing activities also included the payment for the acquisition of a small international channel, net of cash acquired of \$6,545 and purchases of investments of \$24,250.

Financing Activities

Net cash used in financing activities amounted to \$2,552 for the nine months ended September 30, 2016 as compared to \$108,666 for the nine months ended September 30, 2015. For the nine months ended September 30, 2016, financing activities primarily consisted of cash provided by the issuance of \$1,000,000 of 5.00% Notes, net of an issuance discount of \$17,500, offset by principal payments on long term debt of \$811,000 which included the repayment of \$700,000 of the Company's 7.75% Notes pursuant to the Tender Offer and the subsequent redemption of the remaining 7.75% Notes on July 15, 2016, as well as scheduled repayments of principal on the Company's Term A loan facility of \$111,000. In addition, net cash used in financing activities includes purchases of treasury stock of \$109,997 under our 2016 Stock Repurchase Program, premium payments and fees for the Tender Offer and redemption of the 7.75% Notes of \$40,953, taxes paid in lieu of shares issued for equity-based compensation of \$10,821 and distributions to a noncontrolling member of \$9,010 and principal payments on capital lease obligations of \$3,182.

For the nine months ended September 30, 2015, financing activities consisted of the repayment of the \$40,000 promissory note issued in connection with the acquisition of New Video, principal payments on long-term debt of \$55,500, taxes paid in lieu of shares issued for equity-based compensation of \$14,454, distributions to a noncontrolling member of \$3,154 and principal payments on capital leases of \$2,392, partially offset by the excess tax benefits from share-based compensation arrangements of \$4,297, contributions from noncontrolling interests of \$1,354 and proceeds from stock option exercises of \$1,183.

Debt Financing Agreements

5.00% Notes due 2024

As noted above, on March 30, 2016, we issued the 5.00% Notes. We used the net proceeds of this offering to fund the Tender Offer of the 7.75% Notes with the remaining proceeds to be used for general corporate purposes, which may include the redemption of any of the 7.75% Notes not tendered. The 5.00% Notes were issued pursuant to an indenture dated as of March 30, 2016 (the "5.00% Notes Indenture").

In connection with the issuance of the 5.00% Notes, AMC Networks incurred deferred financing costs of \$2,070, which are being amortized, using the effective interest method, to interest expense over the term of the 5.00% Notes.

Interest on the 5.00% Notes is payable semi-annually in arrears on April 1 and October 1 of each year.

The 5.00% Notes may be redeemed, in whole or in part, at any time on or after April 1, 2020, at a redemption price equal to 102.5% of the principal amount thereof (plus accrued and unpaid interest thereon, if any, to the date of such redemption), declining annually to 100% of the principal amount thereof (plus accrued and unpaid interest thereon, if any, to the date of such redemption) beginning on April 1, 2022.

The 5.00% Notes are guaranteed on a senior unsecured basis by certain of AMC Networks' existing and future domestic restricted subsidiaries, in accordance with the 5.00% Notes Indenture. The guarantees under the 5.00% Notes are full and unconditional and joint and several.

The 5.00% Notes Indenture contains certain affirmative and negative covenants applicable to AMC Networks and its restricted subsidiaries including restrictions on their ability to incur additional indebtedness, consummate certain assets sales, make investments in entities that are not restricted subsidiaries, create liens on their assets, enter into certain affiliate transactions and make certain restricted payments, including restrictions on AMC Networks' ability to pay dividends on, or repurchase, its common stock.

7.75% Notes due 2021 Tender Offer

We used a portion of the net proceeds of the 5.00% Notes for the Tender Offer for the 7.75% notes due at a price of \$1,058.57 per \$1,000 principal amounts of notes plus accrued and unpaid interest. Pursuant to the Tender Offer, the Company purchased approximately \$654,000 principal amount of the 7.75% Notes for a purchase price of approximately \$703,000 including accrued and unpaid interest of \$10,567 and related fees.

The Company accepted for payment all 7.75% Notes validly tendered prior to the Expiration Date pursuant to the Tender Offer. Such tendering holders received the purchase price in the amount of \$1,058.57 for each \$1,000 principal amount of 7.75% Notes tendered, plus accrued and unpaid interest to, but not including, the Expiration Date.

On June 9, 2016, the Company gave notice to the remaining holders of its 7.75% Notes of its intent to redeem all outstanding 7.75% Notes on July 15, 2016, (the "Redemption Date") and on July 15, 2016, the Company redeemed the remaining \$45,551 of the 7.75% notes then outstanding at a redemption price equal to 103.875% of the principal amount thereof (plus accrued and unpaid interest thereon to the Redemption Date). As of September 30, 2016, none of the 7.75% Notes remain outstanding.

In connection with the Tender Offer in March 2016 and subsequent redemption of the remaining 7.75% notes in July 2016, the Company recorded a loss on extinguishment of debt of \$50,638 for the nine months ended September 30, 2016 which includes \$40,953 related to the excess of the redemption price, premium paid and related fees, and the write-off of unamortized issuance discount and deferred financing fees related to the 7.75% Notes of \$8,715 and \$970, respectively.

Contractual Obligations

As of September 30, 2016, our contractual obligations not reflected on the condensed consolidated balance sheet decreased \$168,458 to \$1,347,605 as compared to \$1,516,063 at December 31, 2015. The decrease relates primarily to program rights obligations.

Critical Accounting Policies and Estimates

We describe our significant accounting policies in Note 2 to the Company's Consolidated Financial Statements included in our 2015 Form 10-K. We discuss our critical accounting estimates in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in the same 2015 Form 10-K. There have been no significant changes in our significant accounting policies or critical accounting estimates since December 31, 2015.

Recently Issued Accounting Pronouncements

See Note 1 to the accompanying Condensed Consolidated Financial Statements of the Company for a discussion of recently issued accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

All dollar amounts included in the following discussion under this Item 3 are presented in thousands.

Fair Value of Debt

Based on the level of interest rates prevailing at September 30, 2016, the fair value of our fixed rate debt of \$1,619,250 was more than its carrying value of \$1,573,285 by \$45,965. The fair value of these financial instruments is estimated based on reference to quoted market prices for these or comparable securities. A hypothetical 100 basis point decrease in interest rates prevailing at September 30, 2016 would increase the estimated fair value of our fixed rate debt by approximately \$73,128 to approximately \$1,692,378.

Managing our Interest Rate Risk

To manage interest rate risk, we enter into interest rate swap contracts from time to time to adjust the amount of total debt that is subject to variable interest rates. Such contracts effectively fix the borrowing rates on floating rate debt to limit the exposure against the risk of rising rates. We do not enter into interest rate swap contracts for speculative or trading purposes and we only enter into interest rate swap contracts with financial institutions that we believe are creditworthy counterparties. We monitor the financial institutions that are counterparties to our interest rate swap contracts and to the extent possible diversify our swap contracts among various counterparties to mitigate exposure to any single financial institution.

As of September 30, 2016, we had \$2,853,918 of debt outstanding (excluding capital leases), of which \$1,280,633 is outstanding under the credit facility and is subject to variable interest rates (before consideration of the interest rate swaps contracts described below).

As of September 30, 2016, we had interest rate swap contracts outstanding with notional amounts aggregating \$300,000. The aggregate fair value of interest rate swap contracts at September 30, 2016 was a net liability of \$1,130. As a result of these transactions, the interest rate paid on approximately 66% of the Company's debt (excluding capital leases) as of September 30, 2016 is effectively fixed (55% being fixed rate obligations and 11% effectively fixed through utilization of these interest rate swap

contracts). Accumulated other comprehensive loss includes \$538 of cumulative unrealized losses, net of tax, on the portion of floating-to-fixed interest rate swap contracts designated as cash flow hedges. At September 30, 2016, our interest rate swap contracts designated as cash flow hedges were highly effective, in all material respects.

A hypothetical 100 basis point increase in interest rates prevailing at September 30, 2016 would not have a material impact on our annual interest expense.

Managing our Foreign Currency Exchange Rate Risk

We are exposed to foreign currency risk to the extent that we enter into transactions denominated in currencies other than our subsidiaries' respective functional currencies (non-functional currency risk), such as affiliation agreements, programming contracts, certain trade receivables and accounts payable (including intercompany amounts) that are denominated in a currency other than the applicable functional currency. Changes in exchange rates with respect to amounts recorded in our consolidated balance sheets related to these items will result in unrealized (based upon period-end exchange rates) or realized foreign currency transaction gains and losses upon settlement of the transactions. Moreover, to the extent that our revenue, costs and expenses are denominated in currencies other than our respective functional currencies, we will experience fluctuations in our revenue, costs and expenses solely as a result of changes in foreign currency exchange rates. The Company recognized \$26,571 of foreign currency transaction losses, net for the nine months ended September 30, 2016. Such amount is included in miscellaneous, net in the condensed consolidated statement of income.

As a result of our international expansion in recent years, we expect the exposure to foreign currency fluctuations will have a more significant impact on our financial position and results of operations.

To manage foreign currency exchange rate risk, we may enter into foreign currency contracts from time to time with financial institutions to limit our exposure to fluctuations in foreign currency exchange rates. We do not enter into foreign currency contracts for speculative or trading purposes.

We also are exposed to fluctuations of the U.S. dollar (our reporting currency) against the currencies of our operating subsidiaries when their respective financial statements are translated into U.S. dollars for inclusion in our condensed consolidated financial statements. Cumulative translation adjustments are recorded in accumulated other comprehensive income (loss) as a separate component of equity. Any increase (decrease) in the value of the U.S. dollar against any foreign currency that is the functional currency of one of our operating subsidiaries will cause us to experience unrealized foreign currency translation losses (gains) with respect to amounts already invested in such foreign currencies. Accordingly, we may experience a negative impact on our comprehensive income (loss) and equity with respect to our holdings solely as a result of changes in foreign currency exchange rates.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

An evaluation was carried out under the supervision and with the participation of the Company's management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended). Based upon that evaluation as of September 30, 2016, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

During the nine months ended September 30, 2016, there were no changes in the Company's internal control over financial reporting, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

On December 17, 2013, Frank Darabont (“Darabont”), Ferenc, Inc., Darkwoods Productions, Inc., and Creative Artists Agency, LLC (together, “Plaintiffs”), filed a complaint in New York Supreme Court in connection with Darabont’s rendering services as a writer, director and producer of the television series entitled *The Walking Dead* and the agreement between the parties related thereto. The Plaintiffs asserted claims for breach of contract, breach of the covenant of good faith and fair dealing, for an accounting and for declaratory relief. On August 19, 2015, Plaintiffs filed their First Amended Complaint (the “Amended Complaint”), in which they retracted their claims for wrongful termination and failure to apply production tax credits in calculating Plaintiffs’ contingent compensation. Plaintiffs also added a claim that Darabont is entitled to a larger share, on a percentage basis, of contingent compensation than he is currently being accorded. On September 26, 2016, Plaintiffs filed their note of issue and certificate of readiness for trial, indicating that the parties have completed fact and expert discovery. The parties are now briefing summary judgment motions, which papers, according to a stipulated schedule, will be fully submitted to the Court in early January 2017. The Company has opposed the claims in the Complaint, the Amended Complaint and all subsequent complaints. The Company believes that the asserted claims are without merit, denies the allegations and continues to defend the case vigorously. At this time, no determination can be made as to the ultimate outcome of this litigation or the potential liability, if any, on the part of the Company.

The Company is party to various lawsuits and claims in the ordinary course of business, including the matter described above. Although the outcome of these matters cannot be predicted with certainty and while the impact of these matters on the Company’s results of operations in any particular subsequent reporting period could be material, management does not believe that the resolution of these matters will have a material adverse effect on the financial position of the Company or the ability of the Company to meet its financial obligations as they become due.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Set forth below is information concerning acquisitions of AMC Networks Class A Common Stock by the Company during the three months ended September 30, 2016.
